GLOBAL 401 (k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012

1. DESCRIPTION OF THE PLAN

The following description of the Global 401 (k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Global 401 (k) Plan is a salary deferral plan. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA) and all requirements of Section 401(a) and 401(k) of the Internal Revenue Code.

Eligibility - All full-time employees of Global Technical Services, Inc. (Company) who are 21 years of age and older are eligible to participate in the Plan on the first day of the month following the employee's date of hire.

Contributions - Each year, participants may contribute up to 25% of gross compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may make matching contributions up to 100%. Additional amounts may be contributed at the option of the Company's board of directors. As of December 31, 2012, no employer contributions had been made. Contributions are subject to certain limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their pre-tax employee contributions plus actual earnings thereon. A participant's employer matching account (employer matching contributions allocated based on compensation and the related earnings) is subject to a 20% per year vesting schedule based upon the participant's years of service earned. A participant is 100% vested after six years of credited service.

Investment Options - Upon enrollment in the Plan, a participant may direct employee contributions in any increment in any of the investment options offered. Subsequently, participants may change their investment options at any time.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes Fund. Loan terms range from one to five years. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan trustees. Interest rates range from 3.25% to 7.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either the value of the vested interest in his or her account as a lump-sum distribution or annual installments. If installments are requested, the payment period shall not extend beyond the participant's life expectancy (or the life expectancy of the participant and the participant's designated beneficiary).

Forfeited Accounts - For December 31, 2012 and 2011, there were no forfeited nonvested accounts. In accordance with the Plan document, forfeitures shall be allocated with discretionary contributions and deemed to be discretionary contributions as of the last day of the Plan year in which such forfeitures arise.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Statement Preparation - The financial statements of the Plan are prepared using the accrual basis of accounting. Assets are stated at fair value in the statement of net assets available for benefits, and the net unrealized appreciation or depreciation of such assets for the year is reflected in the statement of changes in net assets available for plan benefits, in accordance with the Department of Labor rules for preparation of such statements.

Use of Estimates - The preparation of financial statements in conformity with the generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investments Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Unrealized appreciation or depreciation in the fair value of investments held at year-end and realized gains or losses on sales of investments during the year are determined using an average cost basis. The Plan has no instruments which, in whole or in part, are accounted for as derivative instruments under FASB Statement 133, Accounting for Derivative Instruments and Hedging Activities during 2012 and 2011.

Funding Policy - The Sponsor deposits weekly contributions based on voluntary withholdings from the paychecks of eligible participants.

Payment of Benefits - Benefits are recorded when paid.

Plan Expenses - The Plan is sponsored by the Company. Personnel within the Company organization perform various administrative services for the Plan, including maintenance of participant records. The payroll and related overhead costs associated with these services are not included as Plan expenses. All administrative expenses of the Plan, except mutual fund service charges, including contract administrator fees, are paid by the Company.

4. **Fair Value Measurements** – FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

   Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

   Level 2 – Inputs to the valuation methodology include

   - Quoted prices for similar assets or liabilities in active markets;
   - Quoted prices for identical assets or liabilities in inactive markets;
   - Inputs other than quoted prices that are observable for the assets or liabilities; and
   - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

   If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

   Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

   The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the plan at year end.
Pooled Separate Accounts: Valued based on inputs other than quoted prices that are observable for the asset, either directly or indirectly.
Common/Collective Trust: Valued based on inputs other than quoted prices that are observable for the asset, either directly or indirectly.
Participant loans: Valued at amortized Cost which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:

Assets at fair value as of December 31, 2012

	Level 1	Level 2	Level 3	Total

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants shall become 100% vested in their accounts and the entire balance credited to each participant shall be distributed.

6. TAX STATUS

The Internal Revenue Service (IRS) has determined that the Plan prototype was qualified and the trust established under the Plan was tax exempt, under the applicable provisions of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. They believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date; therefore, no provision for income taxes has been included in the plan's financial statements. The Plan has not received individual certification from the IRS.

7. PARTY-IN INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by Principal Insurance Company. Principal Insurance Company is the contract administrator of the Plan; therefore, these transactions qualify as party-in interest transactions. Fees and commissions paid by the Plan for record keeping services amounted to $1,349 and $1,595 for the plan years ended December 31, 2012 and 2011 respectively.
