1. Summary of Accounting Policies

Basis of Accounting
The Higgs, Fletcher & Mack 401(k) Profit Sharing Plan (the "Plan") financial statements are prepared using the accrual basis of accounting in accordance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the asset custodian. See Note 4 for a further discussion of fair value measurements.

Notes Receivable From Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the principal balance is reduced and a benefit payment is recorded.

Benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Plan administration expenses paid by the Employer were $16,750 and $15,850 for the years ended December 31, 2012 and 2011, respectively. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in realized and unrealized gains.

Subsequent Events

The Plan has evaluated subsequent events through August 28, 2013 (the date the financial statements were available to be issued), for items which might require recognition or disclosure in the financial statements.

2. Plan Description

The following description of the Plan provides only general information. The plan agreement provides a complete description of the Plan. Participants should refer to the plan agreement for a more detailed description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Higgs, Fletcher & Mack LLP (the "Employer"). The Plan is subject to the provisions of ERISA.

Eligibility

Employees become eligible to participate in the Plan for deferral contribution purposes upon the attainment of 21 years of age. Employees become eligible to participate in the Plan for matching contribution purposes upon the attainment of 21 years of age and the completion of one year of service.

Contributions

Participants may elect to contribute up to 60% of their compensation each year, subject to certain statutory limitations. Participants who have not made an affirmative contribution election are deemed to have elected to contribute 1% of their compensation, with additional annual increases of 1%, until the participant reaches a maximum contribution rate of 10%.

The Employer may elect to make matching discretionary contributions and other discretionary contributions. For the years ended December 31, 2012 and 2011, the employer made matching discretionary contributions each payroll period equal to 25% of the participants' contributions based on up to 6% of the participants' compensation. For the years ended December 31, 2012 and 2011, the employer made no other discretionary contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching discretionary contributions, other employer discretionary contributions and Plan earnings. Allocations of other employer discretionary contributions are based on compensation, as defined. Allocations of Plan earnings or losses are based upon account balances, as defined. Participants may direct transfers of amounts in their account between various investment alternatives. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in the portion of their accounts related to employee contributions (including earnings thereon). Participants vest in the portion of their accounts related to Employer contributions (including earnings thereon) based on years of service as follows:

Years of Service	Percentage Vested
1	25
2	50
3	75
4	100

Notes Receivable From Participants

Participants may borrow from their account balances an amount not to exceed the lesser of $50,000 or 50% of their vested account balance. Notes receivable from participants are secured by the balance in the participant's account. Notes receivable from participants outstanding at December 31, 2012, bear interest at rates ranging from 4.25% to 11.00% and mature at various dates through April 2020. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon attaining age 59.5, or on termination of service due to death, disability or retirement, participants may elect to receive a distribution of the vested interest in their account balance.

Forfeited Accounts

The portion of a participant's account that is not vested as of the date of the participant's termination of employment is forfeited. At December 31, 2012 and 2011, forfeited nonvested accounts totaled $8,355 and $5,427, respectively. Forfeitures may be used to pay Plan expenses or may be used to reduce future Employer contributions. No forfeitures were applied against Plan expenses or Employer contributions for the year ended December 31, 2012. Forfeitures of $1,966 were applied against Plan expenses for the year ended December 31, 2011.

3. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets at either December 31, 2012 or 2011:

	December 31,	
	2012	2011
Money Market Accounts		
Fidelity Cash Reserves	$ 1,762,271	$ 1,634,548
Fidelity Retirement Money Market	2,334,395	2,761,661
Registered Investment Companies		
Fidelity Contrafund	1,604,534	1,299,474

Fidelity International Discovery	1,310,962	1,145,027
Fidelity Puritan	1,201,722	1,139,248
T Rowe Price Equity Income	1,437,842	1,410,940

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets in active markets.
- Quoted prices for identical or similar assets in inactive markets.
- Inputs other than quoted prices that are observable for the asset.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Presented below is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Investments in cash and money market accounts are valued at the daily closing price as reported by the fund.

Investments in corporate stocks are valued at the daily closing price reported on the active market on which the individual securities are traded.

Investments in registered investment companies are valued at the daily closing price as reported by the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2012 and 2011:

	Level 1	Level 2	Level 3	Total
Assets at Fair Value as of December 31, 2012				
Cash and money market accounts	$ 4,191,055	$ -	$ -	$ 4,191,055
Corporate stocks	394,998	-	-	394,998
Registered investment companies	15,107,440	-	-	15,107,440
	$ 19,693,493	$ -	$ -	$ 19,693,493
Assets at Fair Value as of December 31, 2011				
Cash and money market accounts	$ 4,397,855	$ -	$ -	$ 4,397,855
Corporate stocks	377,758	-	-	377,758
Registered investment companies	13,614,273	-	-	13,614,273
	$ 18,389,886	$ -	$ -	$ 18,389,886

5. Net Assets Available for Benefits

Net assets available for benefits as of December 31, 2012 and 2011, include $3,779,506 and $3,876,725, respectively, of account balances for terminated participants.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would become fully vested in the Employer contribution portion of their accounts.

7. Tax Status

The Internal Revenue Service has determined and informed the Plan by a letter dated March 31, 2008, that the volume submitter plan under which the Plan was adopted is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan is qualified and is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax audits for years ended on or before December 31, 2009.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
