INDEPENDENT AUDITORS' REPORT

To the Plan Committee
CRC Insurance Services, Inc.
401(k) Profit Sharing Plan
Birmingham, Alabama

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of CRC Insurance Services, Inc. 401(k) Profit Sharing Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Charles Schwab Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2012 and 2011, and for the year ended December 31, 2012 that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held for investment purposes at end of year, which is the responsibility of plan management, is presented for the purpose of additional analysis at the end of the year and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - PLAN DESCRIPTION

The following description of CRC Insurance Services, Inc. (Sponsor) 401(k) Profit Sharing Plan (Plan) is provided for general information only. Participants should refer to the Plan agreement or Summary Plan Description for more complete information of the Plan's provisions.

General

The Plan is a contributory, defined contribution 401(k) plan available to qualifying employees of the Sponsor. A new employee is eligible to participate in the elective deferral portion of the Plan on the employment commencement date. To be eligible to participate in the Sponsor contribution, an employee must have attained the age of 21 and must have completed at least one year of service working at least 1,000 hours during the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 100% of their annual compensation, subject to certain limitations, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Such transfers from other qualified plans are reported as rollover contributions. The Sponsor made a discretionary matching contribution equal to fifty percent of each participant's deferrals and a discretionary profit sharing contribution equal to three percent of each participant's gross compensation for the Plan years ended December 31, 2012 and 2011. The match and profit sharing are invested in various investment options as directed by the participant.

Participant Accounts

Each participant's account is credited with the participant's and the Sponsor's contributions and an allocation of net Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and any income or loss thereon. Participants become 100 percent vested in Sponsor contributions after six years of service. Amounts not vested at the time a covered employee ceases to participate in the Plan are forfeited.

NOTE 1 - PLAN DESCRIPTION - Continued

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or fifty percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest from 3.25% to 10.25%. The interest rate on participant loans is determined by the plan administrator in accordance with Plan provisions. Principal and interest are paid through payroll deductions as indicated in the loan policy.

Payment of Benefits

Upon termination of service, due to death, disability, retirement or separation of service, a participant may elect to receive either a lump-sum distribution or installment payments under various options, or any alternative method of equivalent value. The Plan also permits withdrawals from the Plan due to circumstances of financial hardship, in accordance with provisions specified in the Plan document.

Forfeitures

The nonvested portion of a terminated employee's account balance shall be forfeited and used to reduce employer contributions otherwise payable for the Plan year in which such forfeitures arise or are reallocated to Plan participants. Forfeited invested accounts totaled \$71,996 and \$9,913 at December 31, 2012 and 2011, respectively. Subsequent to year end, forfeitures of \$36,034 were used to reduce employer contributions for the year ended December 31, 2012 and \$35,962 were reallocated to Plan participants as of December 31, 2012.

Administrative Expenses

The Sponsor pays the administrative costs of the Plan associated with any professional services provided to the Plan and the cost of communications to the participants. Administrative expenses recorded in the Plan represent custodian fees, investment advisor fees and other recordkeeping fees paid directly from the Plan to the Plan's custodian. Loan fees are deducted directly from the participants' accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America. In preparing the financial statements, management evaluated subsequent events through September 23, 2013, the date the financial statements were available to be issued.

As required by accounting principles generally accepted in the United States of America, investment contracts held by a defined contribution plan are required to be reported at fair value. The Plan's investment options include stable value funds with Wells Fargo and New York Life, both of which are benefit-responsive investment contracts, held in a common collective trust (CCT) fund and a pooled separate account (PSA), respectively. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment in the CCT and PSA as well as the adjustment of the investment in the CCT and PSA from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Realized gains and losses from security transactions are reported on the average cost method.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Fair Value

The established framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is the price the Plan would expect to receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs which are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Payment of Benefits

Benefits are recorded when paid.

NOTE 3 - INVESTMENTS

Investments that represent five percent or more of the Plan's net assets consisted of the following at December 31:

	2012	2011
Schwab Managed Ret 2040 CL II	\$ 8,392,977	\$ 6,544,842
Schwab Stable Value Select	*	14,663,336

Schwab S&P 500 Index Fund	8,624,514	*
New York Life Anchor Account I	16,905,573	*

* - Less than 5% of net assets

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value during the year ended December 31, 2012 as follows:

Common collective trusts	\$ 5,049,780
Registered investment companies	5,431,125
Pooled separate account	230,421
	<u>\$ 10,711,326</u>

Stable Value Fund

The Plan is invested in two Stable Value Funds (Funds) which are separately managed accounts within the Plan's trust. The Funds invest in wrap contracts. In a wrap contract, the underlying investments are owned by the Fund and held in trust for plan participants. The Fund purchases an insurance wrap contract from a high-quality insurance company or bank. The wrap contract amortizes the realized and unrealized gains and losses on the underlying bonds, typically over the duration of the bonds, through adjustments to the future interest crediting rate (which is the rate earned by participants in the Fund for the underlying investments). The issuer of the wrap contract provides assurance that the adjustments to the interest crediting rate do not result in a future interest crediting rate that is less than zero. An interest crediting rate less than zero would result in a loss of principal or accrued interest.

Because changes in market interest rates affect the yield to maturity and the market value of the underlying bonds, they can have a material impact on the contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying bonds, which also impacts the interest crediting rate.

401(k) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2012 and 2011

(Continued)

NOTE 3 - INVESTMENTS - Continued

Stable Value Fund - Continued

The resulting gains and losses in the market value of the underlying bonds relative to the contract value are represented on the Fund's Statement of Assets and Liabilities as the "Adjustment from fair value to contract value for fully benefit-responsive investment contracts." If the Adjustment from fair value to contract value is positive for a given contract, this indicates that the contract value is greater than the market value of the underlying bonds. The embedded market value losses will be amortized in the future through a lower interest crediting rate than would otherwise be the case. Also, if the Adjustment figure is negative, this indicates that the contract value is less than the market value of the underlying bonds. The amortization of the embedded market value gains will cause the future interest crediting rate to be higher than it otherwise would have been.

All wrap contracts provide for a minimum interest crediting rate of zero percent. In the event that the interest crediting rate should fall to zero, the wrap issuers will pay to the Plan the shortfall needed to maintain the interest crediting rate at zero. This ensures that participants' principal and accrued interest will be protected.

The key factors that influence future interest crediting rates for a wrap contract include:

- The level of market interest rates;
- The amount and timing of participant contributions, transfers, and withdrawals into/out of the contract;
- The investment returns generated by the bonds that back the wrap contract; and
- The duration of the underlying investments backing the contract.

The investment contracts for the Fund are all fully benefit-responsive at contract value. Participant-directed withdrawals in accordance with the Plan are payable at contract value even if the withdrawal is precipitated by an employer-initiated event, so long as the employee experiences a bona fide job loss. In the event of a spin-off or sale of a division where the employee does not experience a bona fide job loss, the issuer will make a clone contract available to the successor employer's plan.

In the event that the Plan is terminated, there is a material adverse change to the provisions of the Plan, or the employer elects to withdraw from a contract in order to switch to a different investment provider, the amount withdrawn from the contract would be payable at fair value rather than at contract value.

The contracts for the Fund limit the circumstances under which the issuer of the wrap contract may unilaterally terminate the contract. The issuer may terminate the contract upon short notice upon the Plan's loss of its qualified status, un-cured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events was to occur, the issuer could terminate the wrap contract at the market value of the underlying bonds. In all other circumstances, the contracts for

the Fund permit the issuer to terminate their contract responsibilities only upon 2 to 3 years notice. Either the Fund can use this period to find a replacement wrap contract, or it can elect to change the investment strategy of the underlying investments to provide for a winding down of the issuer's responsibilities at contract value over time.

Contract value represents contributions made under contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Average yields for CCT

2012

Based on actual earnings	1.8%
Based on interest rate credited to participants	2.2%

The average yield earned by the Fund is calculated by dividing the annualized earnings of all investments in the Fund by the fair value of all investments in the Fund, for the year ended December 31, 2012.

NOTE 4 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments at fair value and contract value and participant loans, included in the statements of net assets available for benefits as of December 31, 2012 and 2011, and the investments that represent five percent or more of the Plan's net assets at December 31, 2012 and 2011, included in Note 3.
- Investment income and net appreciation in fair value of investments included in the statement of changes in net assets available for benefits for the year ended December 31, 2012, and investment income by investment type, included in Note 3.

NOTE 4 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN - Continued

- The schedule of assets held for investment purposes at end of year as of December 31, 2012, included in the supplemental information.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

NOTE 5 - TRANSFER FROM OTHER PLAN

The transfer transaction was in concurrence with the Sponsor's April 4, 2012 merger with Crump Property & Casualty. The participant accounts of Crump Property & Casualty's 401k Plan were substantially merged with the Plan on July 17, 2012.

NOTE 6 - PLAN TERMINATION

Although it has not expressed intent to do so, the Sponsor has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants' accounts would become 100 percent vested in their employer contributions.

NOTE 7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amount reported in the statement of net assets available for benefits.

NOTE 8 - FAIR VALUES

The following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in the methodologies used at December 31, 2012 or 2011.

- *Registered Investments:* Valued at the net asset value of shares held by the Plan at year end.
- *Common Collective Trust Funds and Pooled Separate Account:* Valued at the net asset value per share/unit reported at the close of every business day.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's investment assets at fair value, as of December 31, 2012 and 2011.

NOTE 9 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Plan Committee, in a letter dated January 13, 2009, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Tax positions are recognized in the financial statements when it is more likely than not that the position will be sustained upon examination by the tax authorities.

As of December 31, 2012 and 2011, the Plan believes it had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements for open tax years (after 2009) based on an assessment of many factors including experience and interpretations of tax laws.
