NOTE 1 DESCRIPTION OF PLAN

The following description of Sarasota Bay Club 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally effective January 1, 2002. The Plan has been amended throughout the years to comply with tax legislation and has adopted certain provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA). The Plan was most recently restated on September 8, 2009. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

All employees of Sarasota Bay Club Management Company (the Company) are eligible to participate in the Plan. Employees shall be eligible to participate in the Plan after attaining age 21 and completing three months of service. Employees enter the Plan on the first day of the month following the completion of the eligibility requirement.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code. Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as pre-tax 401(k) contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company may, at its discretion, elect to make a qualified matching contribution and discretionary contribution to the Plan. The Company matches 25% of employee elective deferrals up to 4% of their compensation. There were no Company discretionary contributions for the years ended December 31, 2012 and 2011.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans or conduit IRAs. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and guaranteed interest accounts as investment options for participants. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company’s matching contribution, and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. Income is allocated daily based on the shares in the participant’s account. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company matching and discretionary contribution portion of their accounts, plus actual earnings thereon, is based on years of credited service. A participant is 100% vested after four years of credited service. A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Principal and interest is paid ratably through payroll deductions. Note terms are up to five years. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. At December 31, 2012, interest rates on outstanding notes ranged from 5.25% to 9.75%.

Benefit Payments

Upon termination of service, death, disability, or retirement, the participant will receive the value of the vested interest in his or her account in the form of a lump sum distribution. The Plan allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to Plan provisions. If a participant terminates employment and the participant’s account balance does not exceed $5,000, the Plan administrator will authorize the benefit payment without the participant’s consent.

Forfeited Accounts

Forfeited non-vested accounts are first used to reduce administrative expenses and then are used to reduce future Company contributions. Forfeited non-vested accounts as of December 31, 2012 and 2011 totaled $-0-. There were approximately $274 and $2,220 of forfeitures used to pay Employer matching contributions and administrative expenses for the years ended December 31, 2012 and 2011, respectively.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

New Pronouncements

The Plan changed accounting policies related to valuation techniques of certain Level 3 investments by adopting Financial Accounting Standards Board (FASB) Accounting Standards Update No. 2011-04, *Fair Value Measurement (Topic 820)*, in 2012. Accordingly, the accounting change has been retrospectively applied to prior periods presented as if the policy had always been used.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2012 and 2011.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in the pooled separate accounts are valued using the net asset value of units, which are based on observable market prices for the underlying assets, held by the Plan at year-end. Investments in the guaranteed interest accounts are valued at the expected future cash flows for each contract discounted to present value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Company pays certain administrative expenses on behalf of the Plan.

Benefit Payments

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 25, 2013, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Principal Life Insurance Company, the custodian of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011, the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2012.

Balanced/Asset Allocation investments seek a total return consisting of long-term growth of capital and current income. It invests in underlying Principal Funds, Inc. (PFI) domestic and foreign equity, real asset and alternative investments, and fixed-income funds according to an asset allocation strategy designed for investors having a retirement investment goal close to the year in the underlying fund's name.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

Fixed Income funds invest chiefly in securities that have set maturities and rates of interest. They can be appropriate for both conservative and aggressive investors, depending upon the type of securities in the fund. The total returns posted by these funds are largely determined by interest rates. Fixed income funds provide investors with payments on fixed schedules.

International Equity investments seek long-term growth of capital. The fund invests primarily in equity securities of foreign companies. Its investments are diversified across many different countries and regions, including countries with emerging markets. The fund invests in equity securities of small, medium, and large market capitalization companies.

Large U.S. Equity investments seek long-term growth of capital. The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with large market capitalizations (those with market capitalizations within the range of companies in the S&P 500 Index) at the time of purchase. It also invests in securities of foreign issuers.

Short-Term Fixed Income investments seek as high a level of current income as is considered consistent with preservation of principal and maintenance of liquidity. It invests in a portfolio of high quality, short-term money market instruments. The investments are U.S. dollar denominated securities which the sub-advisor believes present minimal credit risks. The sub-advisor maintains a dollar weighted average portfolio maturity of 60 days or less.

Small/Mid U.S. Equity investments seek investment growth/capital appreciation through both active and passive investment in stocks of small- and mid-sized U.S. companies.

Mid-Cap Value I Sep Acct	53,266	44,531
LifeTime 2020 Sep Acct	*	42,782

** Does not represent greater than 5% of net assets*

During 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) in pooled separate accounts appreciated by $81,047 and $1,929, respectively.

NOTE 6 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100% vested in their Company contributions.

NOTE 8 PLAN TAX STATUS

The Plan is placing reliance on an opinion letter dated March 31, 2008, received from the Internal Revenue Service on the prototype plan indicating that the Plan is qualified under Section 401 of the Internal Revenue Code (IRC) and is therefore not subject to tax under current income tax law. The Plan has been amended since relying on the prototype plan opinion letter. However the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

The Plan investments are managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions.

NOTE 10 GROUP ANNUITY CONTRACT WITH INSURANCE COMPANY

The Plan entered into a group annuity contract with Principal Life Insurance Company. As part of the contract, Principal Life Insurance Company maintains a portion of the contributions in a "guaranteed account." The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Principal Life Insurance Company. The guaranteed account is included in the financial statements at contract value, (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses). Per Principal Life Insurance Company, contract value approximates fair value. Upon termination of the investment contract, the lump sum liquidation value of the general account portion of the participant's accumulation value shall be equal to the product of (a) the participant's general account accumulation value on the liquidation date, reduced by the liquidation charge applicable on the liquidation date and (b) a market value adjustment percentage. The average yield and crediting yield for the 2 Year Guaranteed Interest Account was approximately 0.05% for the years ended December 31, 2012 and 2011. The average yield and crediting yield for the 5 Year Guaranteed Interest Account was approximately 0.35% and 0.70% for the years ended December 31, 2012 and 2011, respectively. There are no reserves against contract value for credit risk of the contract issuer or otherwise.
