DEL WEST USA 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Del West USA 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all full-time employees of Del West USA (the "Company") who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

Each year, participants may contribute up to 100% of their pre-tax annual compensation, as defined in the Plan, up to the maximum allowable under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan provides for transfers from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various variable annuities and an insurance investment contract as investment options for participants.

The Company may make discretionary matching contributions of a dollar amount or percentage of the participant's deferrals that is uniformly determined by the Company. For the years ended December 31, 2012 and 2011, the company did not make contributions to the Plan.

3. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of participant accounts is based upon years of continuous service. Participants vest 20% per year of service starting at the completion of one year, and are fully vested after the completion of five years. Company contributions are fully vested upon death, disability, or attainment of normal retirement age of the participant.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

5. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The Notes receivable are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.00% per annum, as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

6. Payment of Benefits

Upon termination of service a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installment payments. Upon termination of service due to death, disability, or retirement, a participant or participant's beneficiary will receive 100% of the participant's account balance. If a participant's vested benefit in the Plan does not exceed $5,000, then his or her distribution will be in a lump-sum payment. Subject to certain ERISA provisions, a participant may make a hardship withdrawal from his or her account.

7. **Forfeited Accounts**

Forfeitures of terminated participants' non-vested accounts may be used to reduce future company matching contributions. At December 31, 2012 and 2011 outstanding forfeitures were not material.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements have been prepared based on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America and present the net assets available for benefits and changes in net assets available for benefits.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards* (IFRS). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, to converge the fair value measurement guidance in GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management adopted the provisions of ASU 2011-04 effective January 1, 2012, see Note D.

3. Plan Administration

The Employer is the plan sponsor and the plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA.

4. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

5. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation/depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

7. Payment of Benefits

Benefits are recorded when paid.

8. Administrative Expenses

Certain administrative expenses of maintaining the Plan are paid by the Company. Annual administrative fees, participant account charges, asset-based fees, and specific charges for processing loans and distribution payments are paid from the assets of the Plan.

9. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

10. Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability as of December 31, 2011. The Plan distributed the 2011 excess contributions to the applicable participants prior to May 15, 2012.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

11. Subsequent Events

The Plan evaluated subsequent events through September 18, 2013, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS AND CERTIFICATION BY CUSTODIAN

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified Great-West Life & Annuity Insurance Company, the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

Total investments and notes receivable from participants held and certified by Great-West Life & Annuity Insurance Company in the accompanying Statements of Net Assets Available for Plan Benefits were $675,931 and $566,344 as of December 31, 2012 and 2011, respectively. Net investment income of $50,827 and interest income on notes receivable from participants of $3,682 were certified by Great-West Life & Annuity Insurance Company in the accompanying Statement of Changes in Net Assets Available for Benefits for the year end December 31, 2012.

During the year ended December 31, 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $48,879. These investments consist of variable annuity contracts.

Investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011 were as follows:

Investments at fair value:	2012	2011
Guaranteed Portfolio Fund	$ 152,910	$ 111,540
Great-West Moderate Profile II Fund	$ 100,282	$ 83,763

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Variable Annuities: Valued daily by the annuity provider according to the methods described in the annuity contract. The initial pricing input is the quoted price obtained for the underlying mutual fund which is then adjusted to apply the expense factor disclosed in the annuity contract. The formula-calculated unit value is then compared to an accounting-driven unit value the following morning. The accounting unit value is determined in a manner similar to a mutual fund net asset value (NAV) calculation: dividing the net assets by the number of units outstanding. Any discrepancies between the two unit values are resolved to ensure the recordkeeping system reflects the accurate value for the day.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Fixed Annuity: Fair value is determined using a discounted cash flow valuation methodology where the interest rate for the portfolio investment contract is reset at least as frequently as annually. All inputs are generally considered obtainable/observable through review of existing contracts and readily available financial information (See Note E).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by Level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

NOTE E - GUARANTEED PORTFOLIO FUND

The Guaranteed Portfolio Fund is a fixed annuity contract that provides a guarantee of principal and a guaranteed quarterly interest rate. The fund is backed by the general account assets of Great-West Life & Annuity Insurance Company. Fair value of the investment contract, prior to contract termination, equals the contract value. The interest rate to be credited to the entire value of the Guaranteed Portfolio Fund will be determined by Great-West prior to the last day of each calendar quarter and will be effective for the following calendar quarter. The effective interest rate will never be less than 0%. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The average yield earned and the actual average yield earned for the year ended December 31, 2012 was 1.45%.

Participants my transfer funds from the Guaranteed Portfolio Fund at any time. The Plan may terminate the annuity contract upon providing a 30 day notice to the issuer.

NOTE F - TAX STATUS

The Employer adopted a standardized 401(k) plan, which received a favorable opinion letter from the IRS on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. Administration errors, if any, that are insignificant or operational in nature, are handled by the administrator in accordance with applicable IRS correction policies.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2009.

NOTE G - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Great-West Life & Annuity Insurance Company, the Plan's custodian and recordkeeper. These transactions qualify as party-in-interest transactions. Loans receivable from Plan participants and the related interest income are also considered party-in-interest transactions.
