NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

A. PLAN DESCRIPTION

The following brief description of the Power-One, Inc. 401(k) Retirement Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

1. *General* – The Plan is a contributory 401(k) plan which was established for the benefit of substantially all employees of Power-One, Inc. and meets all requirements for qualification under Section 401(a) and 401(k) of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to the Plan’s Board of Trustees.

Effective January 1, 2012, the Plan was amended and restated as follows:

- The taxable value of restricted stock or of a qualified or non-qualified stock option granted to an Employee by the Employer shall be excluded from the definition of compensation for the purposes of determining contributions.
 - Contributions for the Plan Year in which an Employee first becomes a Participant shall be determined based on only compensation for the portion of the Plan Year in which the Employee is eligible to participate in the Plan.
2. *Eligibility* - The Plan is a defined contribution plan covering all employees of Power One, Inc. (the “Company”) who have attained the age of 18. Leased and temporary employees, interns, consultants, and non-resident aliens with no U.S. source income from the Employer are not eligible to participate in the Plan.
 3. *Contributions* - Each year, participants may elect to contribute up to 50% of eligible annual compensation, as defined in the Plan and up to the maximum deferral limit per Section 402(g)(1) of the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Each Plan year, the Employer makes a non-discretionary matching contribution in an amount equal to 75% of the first 2% and 50% of the next 5% of employee eligible compensation contributed to the Plan.
 4. *Investment Options* – Upon enrollment in the Plan, a participant may direct employee and Employer contributions as desired, in any of a variety of options held by Fidelity, as chosen by the Employer. Participants may change their investment options daily.

A. PLAN DESCRIPTION (Continued)

5. *Participant Accounts* - Each participant's account is credited with the participant's contribution, allocations of (a) the Company's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant account balances.
6. *Vesting* - The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Employee contributions and related investment earnings are fully vested at all times. However, Employer contributions and related investment earnings are based upon the participant's years of services with the Employer as follows:

Less than 1 year of service	0%
1 year of service	50%
2 years of service	100%

7. *Notes Receivable From Participants* - To satisfy certain financial needs, participants may borrow amounts up to a maximum of 50% of their vested account balance not to exceed \$50,000 less any outstanding loan balance. Participants may have up to two loans outstanding at any time. The loans are secured by the balance in the participant's account and shall bear reasonable rates of interest. Loans must be paid back within five years (thirty years for loans to purchase a principal residence) of the date of issuance in accordance with terms established by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.
8. *Payment of Benefits* - Upon termination of employment, a participant will be entitled to an amount equal to the value of his or her vested account balance. When a participant attains normal retirement (or qualifying early retirement), incurs total and permanent disability, or dies while employed, the participant or their beneficiaries are entitled to 100% of the participant's account balance. Additionally, participants may receive distributions upon attaining age 59 ½.
9. *Hardship Distributions* - The Plan provides for hardship distributions subject to the qualifications and limitations prescribed in Section 401(K)-1(D) of the Internal Revenue Code.
10. *Forfeited Accounts* - Forfeitures are used to reduce the Employer matching contributions or to pay administrative expenses of the Plan. Forfeitures of non-vested account balances used to reduce Employer matching contributions in 2012 totaled \$46,294. At December 31, 2012 and 2011, forfeited non-vested accounts were immaterial to the financial statements.

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting, and present the net assets available for benefits and changes in those net assets.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in registered investment companies are stated at fair value as determined by quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measure.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on the accrual basis. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Plan management has evaluated subsequent events through September 26, 2013, the date the financial statements were available to be issued.

C. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan Administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following investment information was certified by Fidelity Management Trust Company, the trustee, and was not subjected to any auditing procedures performed by the independent public accountants.

The trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Fair value of investments held and certified by Fidelity Management Trust Company as shown in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011 totals \$28,612,988 and \$23,973,225, respectively.
- Notes receivable from participants held and certified by Fidelity Management Trust Company as shown in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011 totals \$407,120 and \$448,663, respectively. Interest income on notes receivable from participants as shown in the Statement of Changes in Net Assets Available for Benefits was \$19,804 for the year ended December 31, 2012.
- Net appreciation in fair value of investments as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012 was \$1,669,485.
- Information disclosed in Note D of these financial statements.

FA Stable Value Fund	\$8,714,497	\$8,446,930

E. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements & Disclosures*, establishes a consistent framework for measuring fair value and expands disclosure requirements about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
---------	---

Level 2	Inputs to the valuation methodology include <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	--

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

POWER-ONE, INC. 401(K) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

E. FAIR VALUE MEASUREMENTS (Continued)

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

Common collective trust fund: The Fidelity Stable Value Fund is a fully benefit-responsive investment contract, and is presented at fair value on the statement of net assets available for benefits and then adjusted to contract value (see Note B). Contract value is based on the provisions of the contract. The portfolio uses independent pricing services approved by the trustee to value its investments. When current market prices or quotations are not readily available or reliable, valuations may be determined in good faith in accordance with procedures adopted by the trustee. Factors used in determining value may include market or security specific events, changes in interest rates and credit quality. The average yield to maturity and crediting interest rate for the Fidelity Stable Value Fund was approximately 1.11% and 1.26% at December 31, 2012 and 2011, respectively.

The primary investment objective of the Portfolio is to seek the preservation of capital, as well as to provide a competitive level of income over time consistent with the preservation of capital. The Portfolio does not have unfunded commitments relating to its investments. Participant-directed redemptions for in-service withdrawals or termination of employment can be made on any business day and do not have a redemption notice period. Participant-directed exchanges to another investment option may be made on any business day.

Notes Receivable from participants: Valued at their unpaid principle balance plus any accrued but unpaid interest.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

F. PARTY IN INTEREST TRANSACTIONS

Fidelity Management Trust Company, the trustee of the Plan, is a party-in-interest as defined by ERISA. Fidelity holds all the investments and also provides participant record keeping services to the Plan. Notes Receivable from participants and the related interest income are also considered party-in-interest transactions. Such transactions qualify as party-in-interest transactions and are permitted by the Department of Labor.

POWER-ONE, INC. 401(K) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

G. TAX STATUS

The Internal Revenue Service ("IRS") issued its latest opinion letter on March 31, 2008 for the Volume Submitter Plan, which stated that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Administration errors, if any, which are insignificant or operational in nature, are handled by the administrator in accordance with applicable IRS correction policies. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2009.

H. PLAN TERMINATION

While the Company has no current intent to terminate the Plan, the Company reserves the right to terminate the Plan as described in the Plan agreement and subject to provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

I. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of stocks, bonds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statement of Changes in Net Assets Available for Plan Benefits.

The Plan invests in stocks through mutual funds in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about

issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.
