Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To The Participants and Plan Trustees of
Woolpert Pension Plan
Dayton, Ohio

Report on the Financial Statements

We were engaged to audit the statements of net assets available for benefits of the Woolpert Pension Plan as of December 31, 2012 and 2011 and the related statement of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2011 and 2010 and the related statement of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information described in Note 3, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's assets and executes transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2012 and 2011, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets (held at end of year) as of December 31, 2012 and reportable transactions for the year ended December 31, 2012 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedules are the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WOOLPERT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Woolpert Pension Plan (the Plan) is provided for general information purposes only. For more complete information on benefit, vesting and other Plan provisions, participants should refer to the current Summary Plan Description or the Plan agreement.

General

The Plan is a noncontributory, defined benefit pension plan designed to provide retirement, disability and death benefits to eligible employees of Woolpert Inc. (the Sponsor or Employer). Substantially all employees are covered by the Plan provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective May 15, 2003, the Plan was amended and provisions were made for the last participation date for new participants to be January 1, 2003. Active employees were given various options based on age and years of service as to their new classification as a Plan participant. The Plan was also amended September 30, 2003, with an effective date of January 1, 2003, to change benefit provisions for participants employed beyond normal retirement date.

Effective March 31, 2010, the Plan was amended to freeze the accrued benefits and to stop accrual of additional service hours for all Plan participants.

Pension Benefits

Full-time employees employed before January 1, 2000, with five or more years of service are entitled to a pension benefit beginning at normal retirement age (65) equal to 1.1% of average compensation for each year of service (not to exceed thirty years). Full-time employees employed after January 1, 2000, with five or more years of service are entitled to a pension benefit beginning at normal retirement age (65) equal to 1.0% of average compensation for each year of service (not to exceed thirty years). The Plan permits early retirement at age 55 after five years of service. Pension benefits for early retirement are reduced 2.5% per year for ten years for employees employed before January 1, 2000, or 5.0% per year for ten years for employees employed after January 1, 2000, by which early retirement precedes normal retirement. Benefits for employees retiring beyond normal retirement date are based on average compensation and credited service at the late retirement date. Employees may elect to receive the value of their accumulated plan benefits upon retirement, payable as a monthly annuity, under various options and periods.

Death Benefit

If an active employee dies and is vested, the employee's surviving spouse is entitled to a death benefit as though the employee terminated on the day preceding death, survived until early retirement age and elected a 50% joint and survivor annuity.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Disability Benefit

Active employees who become totally disabled after completing five years of service qualify for the Plan's disability benefits. However, the Plan will not pay disability benefits while the employee is receiving benefits from the long-term disability plan provided by Woolpert, Inc. The Plan, however, allows the period of the employee's disability to be credited to the employee's years of service under the Plan.

Termination Benefit

Employees terminated after five years of service are entitled to an accrued retirement benefit payable at their normal retirement date.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as more explicitly described in the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

Valuation of Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in net appreciation.

Administrative Expenses

Substantially all administrative expenses incurred are paid by the Sponsor.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan's management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distribution, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Diversified Investment Advisors, Inc. and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement), between the valuation date and the expected date of payment. Changes in actuarial assumptions related to interest rates resulted in an increase of \$687,073 in accumulated plan benefits for the year ended December 31, 2011.

The Plan has elected to present actuarial benefit information as of the beginning of the Plan year.

The significant actuarial assumptions used to determine the Employer contributions to the Plan, based on the unit credit costs method, as of December 31, 2011 and 2010 are (a) static mortality table in accordance with IRS Regulation 1.430(h)(3)-1, (b) normal retirement age based on a probability schedule ranging from 0% up to age 59, 5% from 60-61, 10% at 62, 5% from 63-64 to 100% at age 65, and (c) investment return of 8%. The accumulated plan benefits for active participants are equal to the actuarial present value of the participant's accrued benefit as of the valuation date.

Subsequent Events

Subsequent events have been evaluated through September 30, 2013, the date the financial statements were available to be issued.

NOTE 3 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The investment information included throughout the Plan's financial statements and the supplemental schedules as of December 31, 2012 and 2011 and for the years then ended was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 5 and the supplemental schedules related to the Plan's investments.

State Street Bank and Trust Company, trustee, also certified to the completeness and accuracy of \$2,682,163 in net appreciation and \$213,095 of net depreciation in fair value of investments, \$433,118 and \$292,008 of dividends for the years ended December 31, 2012 and 2011, respectively.

NOTE 4 - INVESTMENTS

The fair value of individual investments that represent more than 5% of the Plan's net assets at December 31 are as follows:

	<u>2012</u>	<u>2011</u>
Pimco Total Return	2,339,755	2,373,160
Thornburg International Value	2,986,153	2,581,160
Eaton Van Large Cap Value	2,741,138	4,704,295
Diversified Long Bond	2,788,394	2,572,521
Diversified High Quality Bond	1,531,752	2,136,755
American Century Growth Fund	5,203,425	4,322,824
Diversified Money Market	1,997,004	*
BlackRock Equity Dividend I	2,728,929	*

* Represents less than 5% of the Plan's net assets.

During the years ended December 31, 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	<u>2012</u>	<u>2011</u>
Mutual funds	\$ 2,013,206	\$ (795,450)
Common collective trusts	668,957	582,355
Total	<u>\$ 2,682,163</u>	<u>\$ (213,095)</u>

NOTE 5 - FAIR VALUE MEASUREMENTS

The Plan has determined the fair value of certain assets and liabilities through application of accounting guidance that establishes a framework for measuring fair value.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Standards require the use of valuation techniques that are consistent with the market approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, standards establish a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The fair value hierarchy is as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity has the ability to access as of the measurement date.
- Level 2 Significant other observable inputs other than the level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3 Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

A description of the valuation methodologies used for assets measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below. There have been no changes in the methodologies used at December 31, 2012 or 2011.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Common collective trusts: Valued at the net asset value of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

NOTE 6 - PLAN TERMINATION

The Sponsor intends to continue the Plan indefinitely but reserves the right to end or amend it. In the event the Plan is terminated, a participant's accumulated plan benefits will be paid, subject to the availability of sufficient assets of the Plan and the level of benefits guaranteed by the Pension Benefit Guarantee Corporation (PBGC) at the time. The priority of benefit payments will be determined by the plan document and ERISA.

NOTE 7 - FUNDING POLICY

The Sponsor's funding policy is to make annual contributions to the Plan so that all employees' benefits will be fully provided for by the time they retire. The Plan met the minimum funding requirements of ERISA for 2012. The Sponsor contributed \$2,200,000 in 2012 and \$2,100,000 in 2011. Contributions have consistently been made to cover the aggregate of normal service cost and interest plus an amount necessary to amortize past service costs over twenty years.

Although it has not expressed any intention to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

NOTE 8 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Sponsor by letter dated September 20, 2002, that the Plan and the related trust were designed in accordance with applicable regulations of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is being operated in compliance with the applicable requirements of the IRC. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2009.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 10 - TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are managed by Diversified Investment Advisors, Inc., record keeper of the Plan; therefore, those transactions qualify as party-in-interest transactions.

Fees paid for administration services rendered by parties-in-interest during the years ended December 31, 2012 and 2011 totaled \$13,998 and \$15,369, respectively.

NOTE 11 - RECENT ACCOUNTING PRONOUNCEMENT

Fair Value

During 2012, the Plan adopted new accounting guidance related to fair value measurements and disclosures that result in common fair value measurements and disclosures between U.S. GAAP and International Financial Reporting Standards. This guidance limits the highest-and-best use measure to non-financial assets, permits certain financial assets and liabilities with offsetting positions in market or counter-party credit risks to be measured on a net basis, and provides guidance on the applicability of premiums and discounts. Additionally, the guidance expands the disclosure requirements for level three inputs by requiring quantitative disclosure of unobservable inputs and assumptions, as well as a description of the valuation processes. The adoption of this guidance did not have a material impact on the Plan's financial statements.

E.I.N.: 20-1391406 Plan No.: 001

Plan Year: January 1, 2012 to December 31, 2012

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return (at the valuation interest rate) over the actual return on the market value (including employer contributions receivable for any given year).

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).
