NOTES TO FINANCIAL STATEMENTS

1. **Description of Plan**

The following description of Jen-Coat, Inc. Retirement Savings Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, established on December 1, 2000. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees of Prolamina, Inc. ("the Company") formerly known as Jen-Coat, Inc., with three months of service and who have attained the age twenty-one (21) years are eligible to participate. The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

Participants can elect to contribute up to 50% of their gross compensation, up to a maximum amount allowed by law by means of payroll deductions, subject to certain discrimination tests prescribed by the Internal Revenue Code (IRC) and other limitations specified by the Plan. Participants direct their contributions to be invested in accordance with the options offered by the Plan. Participants may also contribute amounts representing distributions from other defined benefit or defined contribution plans (rollover).

The Company will make a contribution matching fifty percent (50%) of each Participant's contribution, up to 6% of compensation, for a plan year.

The Company may make a discretionary profit sharing contribution to the Plan, which will be allocated among eligible participants' accounts based upon a ratio of each participant's compensation for that plan year to total compensation of all participants for that plan year.

Upon enrollment in the Plan, participants may direct the investment of their contributions and the Company's matching contributions into various investments offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their own contributions. Vesting in the Company contributions increases annually, based on the following:

<u>Completed years of continuous service</u>	<u>Vesting percentage</u>
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

Participants also become 100% vested in all Company contributions when the participant retires, dies, becomes disabled, reaches age 65 while employed, or the Plan is terminated.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan terms range from 1-5 years or 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% on the date the loan is requested. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Each participant is eligible to receive benefits at his normal retirement date which is the participant's 65th birthday. There are provisions for early or late retirement, disability, termination of employment and death benefits.

The sole method of distribution of benefits shall be payment in a single lump sum.

Forfeited Accounts

Forfeited accounts can be used to reduce future employer contributions and/or administrative expenses. As of December 31, 2012, forfeited accounts totaled \$14,016 (2011 - \$195). During the year ended December 31, 2012, no forfeited amounts were used to pay administrative expenses or reduce employee contributions. The Company plans on using these forfeited amounts to pay administrative expenses in 2013.

2. **Significant Accounting Policies**

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Accounting Pronouncements

Effective December 31, 2012, the Plan adopted Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) No. 2011-04, *Amendment to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*. ASU 2011-04 was issued to provide consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards, as well as, change certain fair value measurement principles and enhance the disclosure requirements for level 3 fair value measurements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan’s investment committee determines the Plan’s valuation policies utilizing information provided by the investment advisor and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTES TO FINANCIAL STATEMENTS, Continued

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

Subsequent Events

Subsequent events were evaluated through September 16, 2013, which is the date the financial statements were available to be issued. There are no material subsequent events which require recognition or disclosure.

3. **Investments**

The Plan's investments are held and administered by ING. Investment information presented in the accompanying financial statements and supplemental schedule including investments held, net appreciation/depreciation in fair value of investments, and interest and dividends was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the custodian noted above.

The fair value of investments that represented 5% or more of net assets available for benefits as of December 31, 2012 and 2011 were as follows:

	<u>2012</u>	<u>2011</u>
Registered Investment Companies:		
Small Cap Value Fund	\$ 2,453,277	\$ 2,350,766
Appreciation Fund	3,849,228	3,427,108

The Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated (depreciated) in value as follows:

	<u>2012</u>	<u>2011</u>
Registered Investment Companies	\$ 2,053,724	\$ (651,013)
Common Collective Trust	<u>20,941</u>	<u>26,994</u>
	<u>\$ 2,074,665</u>	<u>\$ (624,019)</u>

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liabilities have a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Fair Value Measurements, Continued

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 or 2011.

Common Collective Trust: Valued at the NAV units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Registered Investment Companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

5. Stable Value Fund

Morley's Stable Value Fund (the "Fund") is designed to provide preservation of capital and returns that are consistent regardless of stock and bond market volatility. The Fund seeks to earn a high level of income consistent with those objectives. The Fund consists of a diversified portfolio of high-quality stable value investment contracts issued by life insurance companies, bank and other financial institutions. The principal value of these assets is intended to remain stable regardless of stock and bond market fluctuations. The income return on the Fund is a blend of all the rates of the various investments purchased by the Fund. This accrual of income is reflected in the Fund's unit price which is priced daily and is not held constant.

6. **Tax Status**

The Plan obtained its latest determination letter as of April 27, 2011, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan is qualified under Section 401(a) of the IRC and is exempt from federal income taxes under provisions of Section 501(a) as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any uncertain position that it is likely would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expect to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

7. **Plan Termination**

Although it has not expressed an intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. **Party-in-Interest Transactions**

Plan assets include investments that are held and managed by ING. ING is a custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest.

Certain employees and officers of the Company, who are also participants in the Plan, perform administrative services to the Plan at no cost to the Plan. Certain expenses of maintaining the Plan are paid directly by the Plan sponsor.

9. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
