NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2012 AND 2011 AND FOR THE YEAR ENDED DECEMBER 31, 2012

(Dollars in thousands)

1. DESCRIPTION OF PLAN

General — The Telcordia Technologies 401(k) Savings Plan (the “Plan”) was established by Telcordia Technologies, Inc. (“Telcordia” or the “Company”) to provide a way for employees to save on a regular and long-term basis. The following brief description of the Plan is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

The Plan is a defined contribution plan that covers eligible employees of the Company on the first of the month after their date of hire. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2013 the Plan merged into the Ericsson US 401(k) Plan. On the same date, a portion of the Plan transferred into the Iconectiv 401(k) Plan and the TT Government Solutions, Inc. 401(k) Plan.

Contributions — The Plan permits participants to elect to defer a percentage of their eligible compensation on a pre-tax or Roth basis, as defined in the Plan, up to \$17 for 2012. The Plan also allows after-tax contributions, in addition to Roth contributions, not to exceed the Internal Revenue Code (the “IRC”) Section 415 Annual Additions Limit for 2012. The maximum percentage salary deferral limit on a pre-tax and Roth basis is 25% of participant’s annual compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Beginning the month following the completion of one year of service, the Company makes a matching contribution equal to 50% of the first 6% up to 3% of covered compensation that a participant contributes to the Plan. Matching contributions are not made with respect to after-tax, Roth, or pre-tax catch-up contributions. Contributions are subject to certain Internal Revenue Service (the “IRS”) limitations.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contribution and allocations of the Company’s contribution and fund earnings, net of participant’s withdrawals and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the vested balance of his or her account.

Investments — Participants can direct the investment of their contributions in any combination of 28 mutual funds, 1 collective trust fund and a brokerage account, which allows participants to buy and sell mutual funds, individuals stocks, and other investments based on Plan provisions.

Participants may transfer their funds among investment options and change their future contribution allocations at any time under rules prescribed by the Employees’ Benefit Committee (the “Committee”).

Vesting — Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Company's matching contributions plus actual earnings thereon is based on years of continuous service vesting 20% if the participant has at least one year but less than two, 40% if the participant has at least two years but less than three, and 100% if the participant has three or more vesting years.

Notes Receivable from Participants — Participants may borrow from their fund accounts a minimum of \$1 per loan up to a combined maximum of the lesser of \$50 reduced by the highest outstanding loan balance during the preceding 12 months and 50% of the participant's vested account balance. The maximum loan term is 56 months. Loans are secured by participant account balances and bear interest at a rate commensurate with local prevailing rates as determined monthly by the Plan administrator. Principal and interest are collected ratably through payroll deductions. The Plan's recordkeeper charges an annual maintenance fee directly to participant accounts on the anniversary date of the loan, which is included in the Plan's administrative expenses. Loans bear interest at rates ranging from 4.25% — 10.5% and have maturities through August 2017.

Payment of Benefits — Participants may receive their vested account balance in a single lump sum payment in cash following their termination of employment with the Company, retirement date, permanent disability, or in the event of death. If a participant's balance is greater than \$1 at time of termination, participants may leave their assets in the Plan until a later date. Terminated participants are allowed to take two partial distributions per calendar year with a \$1 minimum per distribution. A participant employed by the Company may withdraw after-tax contributions and the earnings thereon from the Plan prior to age 59-1/2, but before-tax contributions and earnings may be withdrawn from the Plan prior to age 59-1/2 only if the Plan determines that the participant is incurring a financial hardship. After age 59-1/2, a participant may withdraw before- and after-tax contributions regardless of Company employment status.

Forfeited Accounts — At December 31, 2012 and 2011, forfeited non-vested accounts totaled \$71 and \$70, respectively. These accounts are used to reduce future employer contributions. During the year ended December 31, 2012, \$205 from forfeited non-vested accounts was used to reduce employer contributions.

Administrative Expenses — Administrative expenses of the Plan are paid by the Plan sponsor and participants as provided in the Plan document. Certain funds charge redemption fees when money is exchanged between these funds within the Plan. Money invested in these funds must remain for a certain period of time, or holding period. The redemption-fee holding period begins on the date money is invested into the fund. Redemption fees are charged when money is exchanged out of the fund before the end of that fund's holding period and are included in the Plan's administrative expenses.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments, including mutual funds and a stable value fund. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, liquidity risk, and overall market volatility. Due to the level of risk associated with certain investment securities, Plan management believes it is reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition — The Plan’s investments are reported at fair value. Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts – While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan’s direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan’s net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan held an indirect interest in such contracts through its investment in a stable value fund as of December 31, 2011.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants’ account balances. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Payment of Benefits – Benefit payments to participants are recorded upon distribution. There are no amounts allocated to accounts of persons who have elected to withdraw from the Plan that have not yet been paid as of December 31, 2012 or 2011.

3. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2012 and 2011.

* The fair value of the common collective trust at December 31, 2011 was not certified by the trustee. The contract value at December 31, 2011 of \$287,635 was certified (see Note 4).

For the year ended December 31, 2012, there were no transfers in or out of Levels 1 or 2.

The following is a description of the valuation methodologies and assumptions used for assets measured at fair value as of December 31, 2012 and 2011.

Mutual Funds — Valued at the NAV of shares held by the Plan at year-end, per close of New York Stock Exchange, categorized as Level 1.

Collective Trust —The fair values of participant units held in the collective trusts are based on the net asset values reported in the trust’s auditor’s financial statements, after adjustments to reflect all investments at fair value (Level 2 inputs). The Vanguard Retirement Savings Trust A (“VRST”) solely invests in the VRST Master Trust. The investment objective of the VRST Master Trust is to provide participants with an attractive rate of interest and safety of principal by investing in investment contracts issued by financial institutions and in synthetic investment contracts that include high-quality bonds and bond mutual funds owned by the trustee on behalf of the trust and which are provided guaranteed rates of return through wrapper contract. The collective trust held by the Plan provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

Vanguard Brokerage Option – Mutual funds are valued at the NAV of shares held by the Plan at year-end, per close of the New York Stock Exchange, and are categorized as Level 1. Common and preferred stock are valued at the last quoted sales prices as of the close of trading at year-end; such securities not traded on the year-end date are valued at the last quoted bid prices, and are categorized as Level 1.

Valuation of Other Financial Instruments – Fair value of the notes receivable from participants is not practicable to estimate, as these notes are nontransferable.

The valuation methods as described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. UNAUDITED INFORMATION-CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan’s investments and notes receivable from participants included in the financial statements, including the associated investment income (loss), and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Vanguard Fiduciary Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

6. PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation,

recordkeeping and financial reporting of the Plan. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

Certain Plan investments are shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company (“VFTC”), the Plan’s recordkeeper and trustee. The Plan also invests in a collective trust managed by VFTC. These investment transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services included as a reduction of the return of each fund and fees paid by Plan participants to the recordkeeper for loan maintenance costs as well as redemption fees are considered party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts. As described in Note 10, the Plan was merged into three successor plans effective January 1, 2013.

8. INCOME TAX STATUS

The IRS has determined and informed the Company by letter dated July 13, 2010 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Company, Plan management, and the Plan’s legal counsel believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of net assets available for benefits per the financial statements to the total net assets per the Form 5500 as of December 31, 2012 and 2011, and the decrease in net assets per the financial statements to the net loss per the Form 5500 for the year ended December 31, 2012, is as follows:
