Note 1 - Description of the Plan and Significant Accounting Policies

The following description of First Meridian Services, Inc. 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established March 5, 2008 and amended in 2012. The Plan is available to employees age 21 years or older who have completed twelve months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of First Meridian Management Services, Inc. (the "Company") administers the Plan. From January 1, 2012 to June 7, 2012, Fidelity Management Trust Company ("Fidelity") served as trustee, managed Plan assets, and maintained the Plan's records. On June 8, 2012, the Plan changed trustees. American United Life Insurance Company ("AUL") now serves as trustee, manages Plan assets, and maintains the Plan's records. AUL offers Plan participants a variety of investment options through various mutual funds and a stable value fund. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Eligible employees are automatically enrolled in the Plan at a 2% deferral percentage at the time the employee meets the eligibility requirements unless the participant elects another percentage including 0%. Participants may make before-tax contributions of up to the maximum amount allowable not to exceed the IRS limits, which are adjusted annually by the Secretary of the Treasury for inflation. Additional catch-up contributions are available to any participant who is age 50 or older and has made the maximum contribution for the year. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company may contribute a discretionary match or profit sharing to be determined by the Company prior to the end of the Plan year. The Company made no discretionary contributions for the year ended December 31, 2012.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contribution, Plan earnings or losses, Plan expenses, and forfeitures. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting (continued)

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 2 years	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65), retirement due to disability, or if the Plan is terminated.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant may elect to receive a lump-sum payment in the amount equal to the participant's vested account or defer distribution and leave the funds in the Plan if the participant's balance is over $1,000. If the participant's balance is $1,000 or less, a lump-sum distribution will be made to the participant. Under certain circumstances of financial hardship, participants may make withdrawals from their accounts, subject to a minimum of $500. Participants may also elect to receive distributions from their vested account balances upon attaining the early retirement age of 59 1/2. Benefits are recorded as distributions to participants when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account and will be reallocated on the earlier of the fifth consecutive one-year break in service or the end of the Plan year following the payment of the vested account balance. Forfeitures shall be allocated to participants in the same manner as the employer's contribution. There was no balance in this account at December 31, 2012 and 2011.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

The assets of the Plan are comprised of mutual funds and a stable value fund. The mutual funds are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The stable value fund is stated at contract value, which approximates fair value, and is fully benefit responsive. The stable value fund contains a guaranteed interest contract that is under a group annuity contract with AUL. AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. There were no reserves against contract value for credit risk of the contract issuer or otherwise. Crediting interest rates are reset by AUL on a quarterly basis. The average yield was approximately 3.00% during the year ended December 31, 2012, and the crediting interest rate was approximately 3.00% at December 31, 2012. See Note 4 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by mutual funds are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with GAAP.

Note 2 - Investments

AUL has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2012 and 2011 and the income earned or losses incurred on the investments for the year ended December 31, 2012, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule.

The fair value of investments greater than 5% of net assets was the following:

	December 31,				
	2012			2011	
Russell LP Balanced	$	664,360		$	- *
Fidelity Freedom 2035 Fund	$	-	*	$	84,212

* Indicates investment not in excess of 5% of net assets at the respective date.

Note 3 - Plan Merger

In May of 2008, a separate 401(k) plan maintained by a member of the Company's controlled group, known as the First Meridian Services Consolidated Employee Benefit Plan (the "Merged Plan"), was merged with and into the Plan. At the time of the merger, the Plan sponsor of the Merged Plan was not able to confirm that the Merged Plan was operated in full compliance with all applicable laws. Should there be any operational or other legal defects in the Merged Plan, those defects would remain even after the combination of the Merged Plan into the Plan. In that event, the Plan would be required to correct those defects in compliance with the correction procedures established by the IRS or the DOL, as applicable, should the IRS or the DOL raise the issue of any such defect with respect to the Merged Plan. The Company will take any such action as is required by the IRS or the DOL in order to preserve the tax-qualified status of the Plan.

Note 4 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Company has consistently applied the valuation techniques discussed below in all periods presented.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured on a recurring basis at fair value as of December 31, 2012 and 2011.

Note 4 - Fair Value Accounting (continued)

The valuation technique used to measure fair value of the mutual funds and the money market fund was the net asset value of the shares or units held by the Plan at year-end based on quoted market values.

There were no changes to the valuation techniques used during the period.

Note 5 - Income Taxes

The Plan did not obtain a Plan-specific determination letter as it operates with the trustee's opinion letter dated March 31, 2008, which was issued on the basic Plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income tax has been included in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 6 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

Note 8 - Party-In-Interest Transactions

Certain Plan investments are mutual funds, a money market fund, and a stable value fund managed by Fidelity from January 1, 2012 to June 7, 2012, and AUL from June 8, 2012 to December 31, 2012. Fidelity was and AUL is now the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules.

Note 9 - Subsequent Events

The Company has evaluated subsequent events through the auditors' report date, which is the date the financial statements were available to be issued.

Note 9 - Subsequent Events (continued)

Effective January 1, 2013, the Plan was amended to change the definition of compensation to include post-severance regular pay, leave cash outs and deferred compensation, and military continuation payments.

There were no other material subsequent events that required recognition or disclosure in the financial statements.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.
