MASPETH FEDERAL SAVINGS AND LOAN
ASSOCIATION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

Note 1 - Description of Plan

The following description of the Maspeth Federal Savings and Loan Association ("Association") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a participant-directed, defined contribution plan covering all employees of the Association who have one year of service, are 21 years of age or older and attained 1,000 hours of service during the first year. Eligible employees can enroll in the Plan on January 1 or July 1 after they have satisfied the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

An employee may contribute by payroll deduction any of his or her pre-tax compensation up to the Internal Revenue Service ("IRS") allowable limit of $17,000 and $16,500 for 2012 and 2011 respectively plus $5,500 in catch-up contributions for those 50 or older for each year. The Association matches 25% of the employees' contributions for the first 4% of their gross compensation at year-end. The Association contributes the match in one lump sum after the end of each calendar year. Only those employed on December 31 of the year, and those who have become disabled, reached actual retirement date or died during the Plan year, receive a matching contribution for that year.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Association's contributions made on behalf of that employee, and the employee's proportionate share of Plan earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction contributions and the earnings or losses thereon. Effective for the Plan year ended December 31, 2002, as a result of a Plan amendment, Association contributions and earnings or losses on Association contributions made to an employee's account are vested 20% after two years of service and 20% each additional year of service up to 100%.

Notes Receivable from Participants

Participants may obtain loans from the Plan, subject to various requirements set forth in the Plan, in amounts up to 50% of their account balance with a maximum loan of $50,000 and a minimum loan of $1,000. The loans are secured by the balance in the participants' accounts and bear interest at the prime rate. Interest is fixed for the term of the loan. Loan principal and interest payments are made through payroll deductions over a period of up to five years.

Note 1 - Description of Plan (cont'd.)

Payment of Benefits

Participants are eligible to receive benefit payments when they terminate service or reach age 65. On termination of service, a participant may elect to receive an annuity, installment payments or a lump sum amount equal to the participant's account. Benefit payments are also permitted for death, disability and hardship.

Forfeitures

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $1,021 and $711, respectively. Forfeitures of nonvested contributions and related earnings or losses are used to reduce employer contributions. No forfeitures were used to reduce employer contributions for the years ended December 31, 2012 and 2011.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Payments of Benefits

Benefits are recorded upon payment.

Administrative Expenses

The Association may, at its discretion, pay all or part of the expenses of maintaining the Plan. The Association paid all expenses for maintaining the Plan for the years ended December 31, 2012 and 2011 except for $24,649 and $25,715, respectively.

Note 3 - Information Certified by the Plan's Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by The Guardian Insurance and Annuity Co. Inc., the custodian of the Plan ("Guardian"), at and for the years ended December 31, 2012 and 2011. This information has not been audited by the independent auditors.

Guaranteed investment contract, at contract value	$ 590,711	$ 643,871

Investment Income:		
Net appreciation (depreciation) of investments	$ 615,636	$ (243,816)

Note 4 - Investments

At December 31, 2012 and 2011, investments that represent 5% or more of the Plan's net assets available for benefits consisted of the following:

	2012	2011
Guardian Pooled Separate Accounts:		
SSgA S&P 500 Index SL Fund	$ 1,148,989	$ 866,947
SSgA US Bond Index SL Fund	650,017	576,832

Benefit Stadion Growth ETF	372,637	331,973
Guardian General Account Fixed Rate Investment Option	575,943	643,871

The Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in value by $600,868 and $(243,816) during 2012 and 2011, respectively, as reflected on the statement of changes in net assets available for benefits.

Note 5 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC') Topic 820, *Fair Value Measurements and Disclosures* ("FASB ASC 820"), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 5 - Fair Value Measurements (cont'd.)

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Level 2 inputs relate to pooled separate accounts that invest in mutual funds. The fair value of the underlying mutual funds are publicly quoted pricing inputs and are used in determining the net asset value ("NAV") of the pooled separate accounts, which is not publicly quoted.

The Level 3 inputs relate to the guaranteed investment contract which is the estimated amount that would have been available had the contract terminated at the valuation date, calculated as per contract terms.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2012:

	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts				
Small Cap	$ -	$ 382,985	$ -	$ 382,985

Total Assets at Fair Value	$ -	$ 5,147,766	$ 643,871	$ 5,791,637

Note 5 - Fair Value Measurements (cont'd.)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012.

	Level 3 Assets Year Ended December 31, 2012
	Guaranteed Investment Contract
Balance, beginning of year	$ 643,871
Realized gains/(losses)	-
Unrealized gains/(losses) relating to instruments still held at the reporting date	4,569
Purchases	29,962
Sales	(102,459)
Transfers in and/or out of Level 3	-
Balance, end of year	$ 575,943
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 4,569

Note 6 - Guaranteed Investment Contract with Guardian

The Plan entered into a guaranteed investment contract with Guardian. Guardian maintains the contributions in a general account. As the guaranteed investment contract ("GIC") does restrict transfers to other funds within the Plan, the GIC is not considered fully benefit-responsive, and thus is presented on the statements of net assets available for benefits at fair value. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

Note 6 - Guaranteed Investment Contract with Guardian (cont'd.)

The average yield and crediting interest rate for 2012 and 2011 were as follows:

	2012	2011
Average yield	3.00%	3.00%
Crediting interest rate	3.00%	3.00%

The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on an annual basis for resetting. Minimum crediting interest is 3.00%.

Note 7 - Plan Termination

The Association intends to continue the Plan indefinitely, but reserves the right to terminate it at any time, subject to the provisions of ERISA. If the Plan were terminated, participants would become 100% vested in their Association contributions and related earnings and losses.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Income Tax Status

The Plan was adopted under a volume submitter plan and received an IRS opinion letter on April 25, 2008. The Plan has not been amended since receiving the determination letter. The Plan administrator and the Plan's trustees believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRS.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax benefit only if it is more likely than not the tax position would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 10 - Subsequent Events

The Plan has evaluated all events or transactions that occurred after December 31, 2012 through the date of these financial statements, which is the date that the financial statements were available to be issued. During this period, there were no material subsequent events requiring disclosure.
