Independent Auditor's Report

**To the Plan Administrator of
Lau (Dayton) Hourly Employees' Pension Plan
Dallas, Texas**

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Lau (Dayton) Hourly Employees' Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2012 and 2011, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As further discussed in Note 1 to the financial statements, the General Purposes Committee of the Corporation's Board of Directors resolved to merge the Plan into the Air Distribution Technologies Inc. Consolidated Pension Plan (f/k/a Tomkins/Selkirk Consolidated Retirement Plan) effective December 31, 2012. Our opinion is not modified with respect to this matter.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN

The following description of the Lau (Dayton) Hourly Employees' Pension Plan (the "Plan") is provided for general information purposes only. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was a noncontributory defined benefit pension plan covering substantially all hourly employees who were members of the collective bargaining unit at the Dayton, Ohio plant of Lau Industries, formerly a wholly owned subsidiary of Tomkins Industries, Inc. ("Tomkins"). The plant employing all members of the Plan was closed November 30, 2005. There will be no new entrants into the Plan and no additional service or vesting will be earned by participants.

Effective January 1, 2012, the Plan Document was amended and restated to incorporate amendments to the Plan that have been adopted since the January 1, 2007 restatement and reflect any additional legal requirements contained in the 2010 Cumulative List of Changes in Plan Qualification Requirements, as issued by the Internal Revenue Service in Notice 2010-90.

Pursuant to a corporate transaction, effective November 9, 2012, the plan sponsor was changed from Tomkins to Air Distribution Technologies, Inc. (the "Company" or "ADTI").

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Merger

Pursuant to a corporate resolution, effective December 31, 2012, the Plan merged with and into the Air Distribution Technologies Inc. Consolidated Pension Plan (f/k/a the Tomkins/Selkirk Consolidated Retirement Plan), (the "ADTI Plan"), a participating plan in Air Distribution Technologies Inc. (f/k/a Tomkins Building Products) Defined Benefit Master Retirement Trust ("ADTI Master Trust"). Net assets of \$2,542,686 and accumulated plan benefit obligations of approximately \$2,205,000 were merged into the ADTI Plan as of the merger date. The benefits, rights and features of the Plan have been retained and are now included in the restated ADTI Plan document. There are no active employees of the Plan, only members who are in either pay status or have a deferred benefit. All references to the Plan and its operations in these Notes to Financial Statements relates to the period on or before December 31, 2012. Participants and all others should refer to the ADTI Plan financial statements for additional information.

Lau (Dayton) Hourly Employees' Pension Plan

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN (CONTINUED)

Trustee and Administration of the Plan

A single trust agreement, The Tomkins US Master Trust for Defined Benefit Plans Agreement ("Tomkins Master Trust"), governed the assets of the plans from Tomkins and their affiliates (collectively, the "Tomkins Participating Plans"). The Tomkins North American Retirement Board (the "TNARB") administered the Plan. The TNARB had full power, authority and responsibility to control and manage the operations and administration of the Plan. The Northern Trust Company ("Northern Trust" or "Trustee") was appointed by the TNARB as trustee for certain qualified defined benefit pension plans for the Company and Tomkins.

On September 6, 2012, the members of the TNARB consented to divide the Tomkins Master Trust, effective October 1, 2012, into two trusts determined by business line: the Gates Industrial & Automotive Defined Benefit Master Retirement Trust and the ADTI Master Trust. Northern Trust was appointed as trustee of both trusts.

The ADTI Master Trust Agreement governs the assets of the plans from the Company and their affiliates (collectively, the "ADTI Participating Plans").

Effective November 9, 2012, the Air Distribution Technologies Retirement Committee (the "Plan Administrator" or "Retirement Committee") administers the Plan. The Plan Administrator has full power, authority and responsibility to control and manage the operations and administration of the Plan.

Eligibility

Each employee, as described above, was eligible to enter the Plan upon meeting the eligibility requirements of 1 full year of service with at least 1,000 hours in a plan year and at least 12 months had passed since their first hour of service.

Lau (Dayton) Hourly Employees' Pension Plan

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Full vesting occurred when a participant had 5 years of credited service, attained age 65, retired as a result of disability or died. All remaining participants are fully vested.

Pension Benefits

After five years of continuous service, participants are entitled to monthly payments for life beginning at the normal retirement age of 65. Participants may elect to receive their benefit in the form of a life annuity or one of four joint-and-survivor annuity options. After attaining age 60 and 15 years of credited service, participants may also elect early retirement with reduced benefits. Effective December 31, 2012, the Plan added a lump sum benefit payment option.

Monthly life annuity benefits under the Plan are based on an employee's years of credited service (maximum of 40 years) multiplied by an amount stipulated in the collective bargaining agreement as follows:

Date of Retirement or Termination	Benefit Rate	
	Hired Prior to July 1, 1986	Hired on or After July 1, 1986
Certain other rates applied prior to July 1, 1999		
July 1, 1999 – June 30, 2000	\$ 13.50	\$ 8.00
July 1, 2000 – June 30, 2001	14.25	8.75
July 1, 2001 – June 30, 2002	15.00	9.50
July 1, 2002 – June 30, 2003	15.50	10.00
July 1, 2003 – June 30, 2006	16.00	10.50
July 1, 2006 – June 30, 2007	16.00	11.50
July 1, 2007 – Forward	16.00	12.50

Internal Revenue Service ("IRS") regulations allow qualified plans to distribute to previously terminated participants, without their consent, the present value of any accrued benefit up to \$1,000. With a participant's consent, the present value of any accrued benefit of up to \$5,000 can be distributed.

1. DESCRIPTION OF THE PLAN (CONTINUED)

Death and Disability Benefits

In the event of a participant's death after five years of continuous service, the beneficiary of the participant will receive the survivor portion of the joint-and-survivor benefit. This would provide the beneficiary with a percentage of the participant's earned monthly benefit, depending on the option selected.

Participants who have attained 15 or more years of service are eligible for retirement benefits if they become permanently disabled while they are employed.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires plan management to make estimates and assumptions that affect the accompanying reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates and such differences could be material.

In addition, the Plan holds (or held) a limited amount of investments through its interests in the ADTI and Tomkins Master Trusts (the "Master Trusts") for which fair values have been estimated by the Trustee and Plan management in absence of readily determinable values. The information used to value these assets was the most current at the time of the valuation, and differences from the estimated value will be reported in future periods in the ADTI Plan. See Note 6, *Investments in Master Trusts (Unaudited)* and Note 8, *Fair Value Measurements and Disclosures*, for further disclosure regarding investment valuation and fair value measurements.

Lau (Dayton) Hourly Employees' Pension Plan

Notes to Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee (and previously TNARB) determines the Plan's valuation policies utilizing information provided by its investment advisors, trustee and custodians. The investments in the Master Trusts represent the Plan's share of the Master Trusts net assets, which are valued at fair value. See Note 8, *Fair Value Measurements and Disclosures*, for a discussion of fair value measurements.

Interest and dividend income (including capital gain distributions) is recorded when earned or on the ex-dividend date, respectively. Net appreciation (depreciation) in the fair value of investments represents the realized and unrealized gains and losses on the investments. Purchases and sales are recorded on a trade-date basis.

As further described in Note 6, *Investments in Master Trusts (Unaudited)*, the Plan's share of the income (loss), net appreciation (depreciation) in fair value of investments and expenses of the Master Trusts represent the Plan's allocation of these items from the Master Trusts.

Concentration of Investments and Risks and Uncertainties

The Plan provides for various investment securities through its interest in the Master Trusts. Investment securities, in general, are subject to various risks, such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in the economic conditions, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Certain investments (such as the insurance company pooled separate accounts and some common/collective trusts) may be less liquid and include restrictions on their sale. As discussed in Note 1, *Description of Plan – Plan Merger*, all assets and liabilities of the Plan were merged into the ADTI Plan.

As of December 31, 2012, approximately 61% of the ADTI Master Trust net assets were invested in the NTGI Collective Daily Russell 3000 Fund – Non-Lending (“Russell 3000”) and approximately 34% of the ADTI Master Trust net assets were invested in the US Treasury Bond Stripped Principal Fund (maturity date 8/15/2042). As of December 31, 2011, approximately 59%, of the Tomkins Master Trust net assets were invested in the Russell 3000. Fluctuations in the market value of these investments would affect the Master Trusts net assets.

Lau (Dayton) Hourly Employees' Pension Plan

Notes to Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is possible that changes in these estimates and assumptions in the near term could impact the amounts reported in the financial statements and accompanying notes.

The Pension Protection Act of 2006, as amended by the Worker, Retiree and Employer Recovery Act of 2008, imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage ("AFTAP"). The 2012 AFTAP for the Plan exceeded 80%; therefore, the Plan was not subject to any benefit restrictions.

Administrative Expenses and Investment Management Fees

The Plan's operating, investment and administrative expenses are generally paid as provided for in the Plan document. Expenses for trustee fees and investment management fees are generally allocated; however, other fees such as actuarial, auditing and legal fees are specifically identified and charged to the Participating Plans. Other administrative functions are performed by employees of the Company or its subsidiaries at no cost to the Plan. All other costs not paid by the Plan are paid by the Company and are excluded from these financial statements.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

3. FUNDING POLICY

The Company's policy is to make contributions to meet the minimum funding requirements under IRC 412. The Company elected to use certain funding balances to offset the minimum required contributions as allowable under the IRC and ERISA for the 2012 and 2011 plan years. The contributions for 2012 and 2011, as detailed in the actuary's valuation reports, met the minimum funding requirements of ERISA and the IRC.

Lau (Dayton) Hourly Employees' Pension Plan

Notes to Financial Statements

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to employees or their beneficiaries upon retirement, death, disability, or termination. Benefits payable under all circumstances noted above are included in the computation of the actuarial present value of accumulated plan benefits to the extent they are deemed attributable to employee service rendered to the freeze dates or valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of any Plan amendments on accumulated plan benefits is recognized during the year in which such amendments are adopted.

The significant actuarial assumptions used in the actuarial valuation as of December 31, 2011 are as follows:

Mortality	RP-2000 mortality tables for males and females projected twelve years
Discount rate	7.25% per annum, compounded annually
Form of payment	Straight-life annuity
Retirement age	Various probabilities Normal: Age 65 or, if later, the fifth anniversary of the first day of the plan year in which the participant began participation in the plan, or if earlier, attachment of age 60 and completion of 30 years of continuous service Early: Age 60 and completion of at least 15 years of continuous service

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. See Note 1, *Description of the Plan – Plan Merger*, for discussion of the plan merger effective December 31, 2012.

Lau (Dayton) Hourly Employees' Pension Plan

Notes to Financial Statements

4. ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated plan benefits as determined by the actuary as of December 31, 2011 is as follows:

Vested benefits:	
Participants currently receiving benefits	\$ 1,626,803
Other participants	473,321
Actuarial present value of accumulated plan benefits	\$ 2,100,124

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2011, are as follows:

Actuarial present value of accumulated plan benefits – January 1, 2011	\$ 2,044,852
Increase (decrease) during the year attributed to:	
Actual benefits paid	(193,387)
Decrease in the discount period	150,982
Actuarial loss	6,659
Change in actuarial assumptions ^(a)	91,018
Net increase	55,272
Actuarial present value of accumulated plan benefits – December 31, 2011	\$ 2,100,124

(a) The mortality table was updated from UP94 mortality tables for males and females projected eight years to the RP-2000 mortality tables for males and females projected twelve years. The discount rate changed to 7.25% from 7.75% used in the prior valuation.

5. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election and as requested by the Plan Administrator, the following information has been certified by the Trustee and was not subjected to any auditing procedures performed by the Plan's independent auditors, except for comparing such information to the related investment information included in the financial statements:

- Investment in the ADTI Master Trust and Tomkins Master Trust as shown in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011
- Plan's interest in net investment income of the ADTI Master Trust and Tomkins Master Trust as shown in the accompanying Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2012 and 2011
- Investment information included in Note 6, *Investments in Master Trusts, (Unaudited)* and Note 8, *Fair Value Measurement and Disclosures*

6. INVESTMENTS IN MASTER TRUSTS (UNAUDITED)

The Retirement Committee (and previously TNARB) implemented a Master Trust Statement of Investment Policy (the "Investment Policy"), a single investment policy that applied to the Master Trusts Participating Plans. Investments are managed under agreements by which the investment managers have been given the authority to make individual investment decisions within the guidelines stated in the Investment Policy. Therefore, the Plan's portion of the net income (loss), net appreciation (depreciation) in fair value of investments and expenses of the Master Trusts are determined on a pro-rata basis and measured monthly. Use of the Master Trusts permits the commingling of the trust assets of a number of plans administered by the Retirement Committee (and formerly TNARB) for investment and administrative purposes.

Such interests are included in the accompanying Statements of Net Assets Available for Benefits. In compliance with the Department of Labor's reporting requirements, the net change in value from participation in the Master Trusts is reported as a single line item in the accompanying Statements of Changes in Net Assets Available for Benefits.

The Master Trusts invest (or invested) in insurance company pooled separate accounts and insurance company general accounts pursuant to certain guaranteed annuity contracts with various insurance companies. These contracts contained certain minimum balance requirements and certain restrictions on termination of the contracts. The minimum balance requirement was met as of December 31, 2012 and 2011. These contracts were transferred out of the Tomkins Master Trust, without restriction, in conjunction with the Tomkins Master Trust split, as further discussed in Note 1, *Description of the Plan – Trustee and Administration of the Plan*.

6. INVESTMENTS IN MASTER TRUSTS (UNAUDITED) (CONTINUED)

As further discussed in Note 1, *Description of the Plan – Trustee and Administration of the Plan*, effective October 1, 2012, the Tomkins Master Trust was divided into two separate trusts. Amounts shown in the Plan's accompanying Statements of Net Assets Available for Benefits and Changes in Net Assets Available for Benefits reflect the Plan's participation in the Tomkins Master Trust through dissolution of the trust and the ADTI Master Trust from October 1, 2012 through December 31, 2012.

Investments in ADTI Master Trust (Unaudited)

The Plan's interest in net assets of the ADTI Master Trust was 2.57% just prior to the merger of the Plan into the ADTI Plan, as further described in Note 1, *Description of the Plan – Plan Merger*. Due to the Plan Merger, these interests were transferred to the ADTI effective December 31, 2012.

The investments of the ADTI Master Trust at December 31, 2012 are summarized as follows:

	2012
Investments – at fair value:	
U.S. Government securities	\$ 34,131,571

7. DERIVATIVE FINANCIAL INSTRUMENTS, INTEREST RATE SWAPS AND OTHER

The Tomkins Master Trust's fixed income manager used derivative financial instruments in the normal course of its investing activities to hedge against adverse changes in interest rates and to achieve overall investment portfolio objectives. These financial instruments included fixed income interest rate swaps. Swap agreements involved the exchange by the Tomkins Master Trust with a counter-party of their respective commitments to pay or receive interest (e.g., an exchange of fixed rate payments for floating rate payments) with respect to a notional amount of principal. The Tomkins Master Trust carried the fair value of the swap as an asset or liability in the Tomkins Master Trust's net assets. Market risk of loss was limited to the changes in fair value from December 31 of each year presented, through the applicable expiration date. The investment objective was to manage interest rate risk by matching, as closely as possible, the duration of the assets and liabilities. Swap agreements involve interest rate risk or risk if the counter-party is unable to meet the terms of the contracts.

The following tables provide a quantitative summary of derivative activity as of and for the years ended December 31, 2012 and 2011 for the investments held within the Tomkins Master Trust:

<i>Derivative Instruments</i>	Plan Year	Notional/ Contractual Amount ^(a)	Assets ^(b)	Liabilities ^(b)
Interest rate swaps	2012	\$ -	\$ -	\$ -
Interest rate swaps	2011	\$ 429,050,000	\$ 4,587,405	\$(1,147,863)

(a) Notional amounts do not quantify risk or represent assets or liabilities of the Tomkins Master Trust or Plan, but are used in the calculation of cash settlements under the contract.

(b) Reported in investments at fair value held in the Tomkins Master Trust as included in the investment in the Tomkins Master Trust on the Statements of Net Assets Available for Benefits.

7. DERIVATIVE FINANCIAL INSTRUMENTS, INTEREST RATE SWAPS AND OTHER

In addition, the Tomkins Master Trust participated in insurance company pooled separate accounts; those accounts may have been invested from time to time in derivative financial instruments, as defined and allowed by the bylaws of each of the respective accounts. Financial exposure to the Plan was limited to its proportional interest in these accounts.

8. FAIR VALUE MEASUREMENTS AND DISCLOSURES

The Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets the Plan has the ability to access for identical assets and liabilities. Level 2 inputs are inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly (quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable). Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There were no changes in the methodologies used at December 31, 2012 and 2011.

U.S. Government Securities: U.S. Government securities are stated at fair value based on multiple pricing services, based on a bid evaluation process using observable, market-based inputs effective the last day of the plan year or last reported sale or bid date if no sale took place on the last business day of the year. These investments are classified as Level 1 investments.

8. FAIR VALUE MEASUREMENTS AND DISCLOSURES (CONTINUED)

Insurance Company Pooled Separate Accounts (PSAs): PSAs are valued at the net asset value ("NAV"), as determined by the PSA's designated accountants. Agreements with the insurance company can include provisions containing certain minimum balance requirements. NAV is calculated based on the fair value of the underlying investments, which are generally traded in an active market; however, there is a lack of transparency in pricing. In determining the reasonableness of the methodology, the TNARB evaluated a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings of the insurance company. These investments are classified as Level 3 investments.

Common/Collective Trusts (CCTs): The investments include an equity index fund and a short-term investment fund.

The equity index fund's primary objective is to approximate the risk and return characterized by the Russell 3000 Index. This index is commonly used to represent the broad U.S. equity market. The fund provides for daily redemptions at the reported unit value with one day advance notice requirement. CCTs are valued daily based on the fair values of the underlying investments in the CCT, which are generally traded in an active market and which represented the NAV of the units held by the Plan at year end. The Master Trusts were permitted to redeem investment units at NAV as of the measurement dates.

The units of the short-term investment fund are valued at the total value of the underlying investments, less any liabilities, divided by the outstanding units. The investment strategy was to maintain a \$1 unit value. The fund transacted at the \$1 unit value as of the measurement dates.

CCTs are classified as Level 2 investments.

Insurance Company General Accounts: These investments are valued at fair value based on the contractual agreement between the Plan and the insurance company and typically include consideration of contractual interest rates, current interest rates and duration of the contract. Restrictions on the sale of such investments based on the terms of the contract are possible. In determining the reasonableness of the methodology, the Retirement Committee (and formerly TNARB) evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. These investments are classified as Level 3 investments.

Interest Rate Swap Contracts: The interest rate swap contracts were valued at fair value, as determined by Northern Trust, based on various comparative pricing services and the fair value represented the amount the Tomkins Master Trust would have received or paid to terminate the agreement as of the measurement date. These investments are classified as Level 2 investments.

8. FAIR VALUE MEASUREMENTS AND DISCLOSURES (CONTINUED)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

8. FAIR VALUE MEASUREMENTS AND DISCLOSURES (CONTINUED)

The availability of observable market data is monitored to assess the appropriate classification of financial statements within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2012 and 2011, there were no transfers between levels 1, 2, or 3.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The insurance companies (John Hancock and Aetna Insurance), custodians of the insurance company general accounts provided the fair value of such investments (\$603,174 and \$1,800,693), respectively. They were unable to provide principal valuation technique, unobservable inputs or range of significant input values. These investments are immaterial to the ADTI Master Trust Investments.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right, under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the assets of the Plan will be allocated to Plan participants and beneficiaries in accordance with applicable provisions of ERISA and the Plan document. Should unfunded vested benefits exist, such benefits will be provided up to specified limitations as described in ERISA and by the Pension Benefit Guaranty Corporation (the "PBGC"). See Note 1, *Description of the Plan - Plan Merger*, for a discussion regarding the merger of the Plan's assets effective December 31, 2012 into the ADTI Plan.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Lau (Dayton) Hourly Employees' Pension Plan

Notes to Financial Statements

9. PLAN TERMINATION (CONTINUED)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefit obligations and may also depend of the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Additional information regarding the priority of participants' claims to the assets of the Plan upon termination and benefits guaranteed by the PBGC is available from the Plan Administrator.

10. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

A short-term investment fund and the NGTI Collective Daily Russell 3000 Fund – Non-Lending, which are included in the investments within the Master Trusts, were managed by Northern Trust, the trustee. Certain expenses related to audit, custody, asset management and actuarial services are paid from Plan assets. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

11. INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated April 9, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since the receipt of this letter; however the Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes is included in the accompanying financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

12. SUBSEQUENT EVENTS

The Plan Administrator has evaluated subsequent events through September 21, 2013, which is the date the financial statements were available to be issued. No events or transactions discovered during this evaluation require recognition or disclosure in the financial statements.

Assumed Cost of Living Adjustments

None.

Inclusion Date

The valuation date coincident with or next following the date on which the employee becomes a participant.

Plan-related Expenses

The amount included this year for plan-related expenses is \$33,870.

Mortality

For all participants the prescribed mortality assumption under IRC §430(h)(3)(A) of the Internal Revenue Code using the blended static table option for smaller plans.

Future Increases in Social Security

Not applicable.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Benefit Commencement Date

Age 65 for all vested terminated participants.

Form of Payment

Participants are assumed to elect the normal form, which is a straight-life annuity.

Schedule SB, Part V – Statement of Actuarial Assumptions and Methods

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of eligible male participants and 50% of eligible female participants are assumed to be married and male spouses are assumed to be 3 years older than female spouses.

Employees

It was assumed there will be no new or rehired employees.

Asset Method

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2011 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Participant Data

Participant data were supplied by the client as of the valuation date.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2012 is used to determine the maximum deductible contribution for the tax year ending December 31, 2012.

Benefits not Included in Valuation

We believe all significant Plan provisions are reflected in this valuation.

SCHEDULE SB ATTACHMENTS (cont.)

Schedule SB, Part V – Statement of Actuarial Assumptions and Methods

Nature of Actuarial Calculations

The results shown in this report have been developed based on actuarial assumptions that, to the extent evaluated or selected by Towers Watson, we consider reasonable and within the "best-estimate range" as described by the Actuarial Standards of Practice. Other actuarial assumptions could also be considered to be reasonable and within the best-estimate range. Thus, reasonable results differing from those presented in this report could have been developed by selecting different points within the best-estimate ranges for various assumptions.

The results shown in this report are estimates based on data that may be imperfect and on assumptions about future events that cannot be predicted with any certainty. The effects of certain plan provisions may be approximated, or determined to be insignificant and therefore not valued. Reasonable efforts were made in preparing this valuation to confirm that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and are not excluded or included inappropriately. The numbers shown in this report are not rounded, but this is for convenience only and should not imply precision, which is not a characteristic of actuarial calculations.

If overall future plan experience produces higher benefit payments or lower investment returns than assumed, the relative level of plan costs or contribution requirements reported in this valuation will likely increase in future valuations (and vice versa). Future actuarial measurements may differ significantly from the current measurements presented in this report due to many factors, including: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Changes in Assumptions and Methods Since Last Actuarial Valuation

The plan sponsor elected to reflect the Moving Ahead for Progress in the 21st Century Act (MAP-21) segment interest rate corridors for the 2012 plan year. Other than this and the prescribed changes in mortality, no other changes in assumptions were made as part of this valuation used in determining the minimum required and maximum allowable contributions.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Participation

Any hourly rated employee at the Ruskin Company Lau Division of the Dayton, Ohio location enters the plan after completion of one full year of Continuous Service.

Retirement Dates

- a. Normal: Attainment of age 65 or, if later, the fifth anniversary of the first day of the plan year in which the participant began participation in the plan, or, if earlier, attainment of age 60 and completion of 30 years of Continuous Service.
- b. Early: Attainment of age 60 and completion of 15 years of Continuous Service.
- c. Late: The first day of any month subsequent to the Normal Retirement Date.

Credited Service (Benefit Accrual)

Generally, one year of Credited Service is granted for each year in which a participant completes at least 1,000 Hours of Service. Due to the short plan year in 2004, one year of Credited Service was granted if the participant completed at least 750 Hours of Service.

Continuous Service (Eligibility and Vesting)

Generally, one year of Continuous Service is granted for each year of continuous employment in which a participant completes at least 1,000 Hours of Service. Due to the short plan year in 2004, one year of Continuous Service was granted if the participant completed at least 750 hours of service.

Schedule SB, Part V – Summary of Principal Plan Provisions

Benefit: A monthly retirement income commencing at his Normal Retirement Date equal to his accrued retirement income. For participants with at least 15 years of Continuous Service, the benefit may begin as early as age 60 reduced same as for Early Retirement described above.

Disability

Eligibility: Total and permanent disability as determined by the Committee after the completion of 15 years of Continuous Service.

Benefit: The accrued normal retirement benefit based on Credited Service as of date of disability, payable during continuance of disability until Normal Retirement Date.

Normal Form of Payment

A monthly pension payable for life with all payments ceasing on the participant's death.

Pre-Retirement Spouse's Benefit

Eligibility: Death after 5 years of Continuous Service, provided the employee has been married to his current spouse for at least one year.

Benefit: The surviving spouse will receive the benefit she would have received if the participant had retired on the day before his death or, if later, at the earliest possible retirement age based on his years of Continuous Service at death, and had elected a 50% Joint and Survivor option.

Form of Payment

An employee may elect to receive his benefit on a straight-life basis, an actuarially equivalent 50% Joint and Survivor basis or any other available payment form. Unless otherwise elected, any benefit payable under the plan shall be paid:

- a. on a 50% Joint and Survivor basis, if the employee has been married to his current spouse for at least one year; or
- b. on a straight-life basis otherwise.
