Report of Independent Certified Public Accountants

To the Plan Administrative Committee
Flint Hills Resources Chemicals Money Purchase Pension Plan

Report on the financial statements

We were engaged to audit the financial statements of **Flint Hills Resources Chemicals Money Purchase Pension Plan** (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 6, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2012 and 2011, and for the year ended December 31, 2012, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note 6, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

1 Description of the Plan

The following description of the Flint Hills Resources Chemicals Money Purchase Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution pension plan covering certain groups of union employees of Flint Hills Resources LP (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was established on August 1, 2007.

Aon Hewitt Associates LLC (Hewitt) is the recordkeeper for the Plan and The Bank of New York Mellon/BNY Mellon, N.A. (BNY Mellon) is the Plan's trustee. BNY Mellon holds all investment assets of the Plan in the Koch Companies Defined Contribution Master Trust (Master Trust).

Eligibility

Employees of the Company who are members of the following participating groups: United Steelworkers of America International Union, Local No. 2-004, the International Brotherhood of Electrical Workers (AFL-CIO), Local 2286, or the United Steelworkers of America International Union, Local No. 13-423, are eligible to participate in the Plan.

Contributions and Vesting

Each union has its own collective bargaining agreement. The agreements include varying levels of employer contributions by years of service. The Plan does not allow for participant contributions.

Each participant's years of service with Huntsman Chemical Corporation is recognized for contribution purposes under this Plan. Participants are immediately vested in the Company's contributions.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's share of the Plan's earnings (losses) and the Company's contributions. Allocation of earnings (losses) and administrative expenses are based on relative account balances and the participant's investment elections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Withdrawals and Terminations

Withdrawals from participant accounts may be made due to termination of employment or disability. Upon occurrence of one of these events, the Plan will distribute the participant's account balance through the purchase of an annuity contract or, upon election of the participant, in a lump sum payment or in monthly installment payouts not to exceed 240 months.

2 Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment gain (loss) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Reporting of Guaranteed Investment Contracts

Investment contracts held by a defined contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Master Trust invests in a Stable Value Fund that holds fully benefit-responsive guaranteed investment contracts. The Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011 presents the fair value of the Plan's interest in the Stable Value Fund as well as the adjustment of the fully benefit-responsive guaranteed investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Adoption of New Accounting Standard

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04), which amends Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* ASC 820. ASU 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between level 1 and level 2 measurements. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance was effective for reporting periods beginning on or after December 15, 2011. The Plan's adoption of the accounting standard had no impact on the 2012 financial statements, as there are no level 3 investments within the fair value hierarchy of the Plan.

Administrative Expenses

Certain expenses of the Plan are paid by the Company and are not included in the Statement of changes in net assets available for benefits.

Subsequent Events

The plan administrator has evaluated subsequent events through September 18, 2013, the date the financial statements were available to be issued.

3 Investment in Master Trust

The Plan's interest in the net assets of the Master Trust was 0.04% at December 31, 2012 and 2011. Investment income of the Master Trust is allocated to individual plans based on average daily balances invested by each plan.

As described in Note 2, the Master Trust invests in a Stable Value Fund that holds fully benefit-responsive guaranteed investment contracts. The following table presents the net assets of the Master Trust including the fair value of the Stable Value Fund as well as the adjustment of the fully benefit-responsive guaranteed investment contracts from fair value to contract value:

December 31	2012		2011	
Interest receivable	\$	40,485	\$	45,369
Investments at fair value:				
Mutual funds		382,678,285		394,628,021
Common collective trusts		4,456,107,391		3,936,826,018

Adjustment from fair value to contract value for fully benefit-responsive investment contracts		(11,498,856)		(5,541,979)
Net assets of the Master Trust		\$ 5,284,688,037		\$ 4,754,501,630

Net investment gain of the Master Trust is as follows:

For the year ended December 31	2012
Appreciation in fair value of investments:	
Common collective trusts	\$ 547,010,408
Stable value fund	8,174,987
Net appreciation in fair value of investments	555,185,395
Interest and dividends	631,980
Investment manager expense	(1,972,010)
Net investment gain	\$ 553,845,365

4 Stable Value Fund

The Master Trust holds investments in synthetic guaranteed investment contracts (GICs) and other assets as part of the Stable Value Fund.

A synthetic GIC, also known as a wrapper contract, is an investment contract issued by an insurance company or other financial institutions designed to provide a contract value wrapper around a portfolio of bonds or other fixed income securities that are owned by the fund.

The fair value of each synthetic GIC contract is calculated based on the fair value of the investments underlying the contract, which are valued using the market approach. The fair value of each synthetic GIC wrapper is calculated using the replacement cost approach by discounting the difference between indicative replacement cost and the current annual fee multiplied by the contract value times the duration of the contract.

The contract value of synthetic GICs represents contributions made under the contract and reinvested income, less any withdrawals plus accrued income. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

The synthetic GICs provide a fixed return on principal over a specified period of time through fully benefit responsive contracts or wrapper contracts issued by a third party which are backed by underlying assets owned by the Stable Value Fund. The portfolio of assets underlying the synthetic GICs includes collective trust funds, U.S. government and agency securities, municipal bonds, and corporate notes and bonds.

The crediting interest rates for the synthetic GICs are calculated on a quarterly basis (or more frequently, if necessary) using the contract value, and the market value, yield and duration of the underlying securities, but cannot be less than zero. The crediting interest rate of the Stable Value Fund was 1.97% and 2.11% at December 31, 2012 and 2011, respectively.

The relationship of future crediting rates and the adjustment to contract value reported on the statement of net assets available for benefits is provided through the mechanism of the crediting rate formula. The difference between the contract value and the fair market value of the investment of each contract is periodically amortized into each contract's crediting rate. The amortization factor is calculated by dividing the difference between the fair market value of the investment and the contract value by the duration of the bond portfolio covered by the investment contract.

Key factors that could influence future average interest crediting rates include but are not limited to: Plan cash flows, changes in interest rates, total return performance of the fair market value bond strategies underlying each synthetic GIC contract, default or credit failures of any of the securities, investment contracts, or other investments held in the fund, and the initiation of an extended termination of one or more synthetic GIC contract by the manager or the contract issuer.

The average market value yield of the Stable Value Fund was 1.25% for 2012 (calculated by taking the average of the quarterly market value weighted yields of the investments). The average yield earned by the Stable Value Fund that reflects the actual interest credited to participants was 1.98% for 2012 (calculated by dividing annualized earnings credited to participants by the market value of the Stable Value Fund).

There are certain events not initiated by the Plan participants that could limit the ability of the Plan to transact with the issuer of a synthetic GIC at its contract value. Specific coverage provided by each synthetic GIC may be different from each issuer, and can be found in the individual synthetic GIC contracts held by the Plan. Examples of such events include but are not limited to: the Plan's failure to qualify under the Code; full or partial termination of the Plan; involuntary termination of employment as a result of a corporate merger, divestiture, spin-off or other significant business restructuring, which may include early retirement incentives or bankruptcy; changes to the administration of the Plan which decreases employee or employer contributions, the establishment of a competing Plan by the plan sponsor, the introduction of a competing investment option or other plan amendment that has not been approved by the contract issuers; dissemination of a participant communication that is designed to induce participants to transfer assets from the Stable Value Fund; and events resulting in a material and adverse financial impact on the contract issuer, including changes in the tax code, laws or regulations.

The plan administrator does not believe that the occurrence of any of the aforementioned events, which will limit the Plan's ability to transact with the issuer of a GIC at its contract value with participants, is probable.

5 Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end.

Collective trust funds: are valued based on the year-end unit value as determined by the issuer by dividing the fair values of the total net assets of the fund at year-end by the outstanding units. The fair value of the total net assets is determined by the nature of the fund's underlying investments.

Stable value fund: Valued at fair value measured as the net asset value (NAV) per unit based on the fair value of the underlying investments, which include synthetic investment contracts (See Note 4).

The preceding valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, a summary of Master Trust investments at fair value as of December 31, 2012 and 2011:

December 31, 2012	Level 1	Level 2	Level 3	Total
Collective trust funds:				
Target date funds	\$ -	\$ 947,456,078	\$ -	\$ 947,456,078

Stable value fund	-	428,921,978	-	428,921,978
Total investments at fair value	\$ 394,628,021	\$ 4,365,747,996	\$ -	\$ 4,760,376,017

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of levels 1, 2 or 3.

6 Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2012 and 2011.
- Net investment gain as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2012.

7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

December 31	2012	2011
Net assets available for benefits per the financial statements	\$ 2,153,023	\$ 1,925,762
Adjustment from fair value to contract value for fully benefit-responsive investment contract	1,161	626
Net assets available for benefits per Form 5500	\$ 2,154,184	\$ 1,926,388

The following is a reconciliation of investment gain per the financial statements to Form 5500:

For the years ending December 31	2012
Investment gain per the financial statements	\$ 261,611
Current period adjustment from fair value to contract value for fully benefit-responsive investment contract	1,161
Prior period adjustment from fair value to contract value for fully benefit-responsive investment contract	(626)
Investment gain per Form 5500	\$ 262,146

9 Income Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated August 11, 2011 that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter, however, the Plan administrative committee believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012 and 2011, and for the year then ended December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax period in progress.

10 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' accounts balances and the amounts reported in the statements of net assets available for benefits.

11 Related-party Transactions

During the year ended December 31, 2012, the Koch Companies Defined Contribution Master Trust paid \$413,434 in fees to BNY Mellon, the trustee, on behalf of the participants.
