NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Huntsman Advanced Materials Americas LLC Investment Savings Plan for Non-Salaried Employees at McIntosh, Alabama (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Huntsman Advanced Materials Americas LLC (the "Company") represented under a collective bargaining agreement with the United Steelworkers (AFL-CIO-CLC) Local 9-562 (the "Union"). Employees are eligible to participate in the Plan on their date of hire. The Plan is administered by a committee appointed by the Board of Directors of the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Fidelity Management Trust Company is the trustee for the Plan.

Contributions

Participants may elect to make contributions to the Plan of 1% up to 25% of eligible compensation, subject to certain limitations provided under the Internal Revenue Code (IRC). Participants may designate all or a portion of their elective contributions as Roth elective deferrals. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Plan allows for participants in a former employer's qualified plan to contribute direct rollovers. The Company makes matching contributions for all plan participants based on their years of participation and deferral contributions, up to 5% of the participant's eligible compensation. Matching contributions are as follows:

Years of Participation	Employer Match
Less than 2	25%
2 - 4	50%
5 or more	100%

The Plan is participant directed and participants may change their contribution rates and investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Participants are at all times fully vested in their participant contributions and rollover contributions and the appreciation or depreciation thereon. Vesting in the Company's contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant must complete 1,000 hours of service during a plan year to qualify for a year of service and count toward vesting. Participants are 20% vested after two years of service and vest an additional 20% each year until becoming 100% vested after five years of service.

Forfeited Accounts

Forfeitures of non-vested employer contributions shall be used to reinstate the non-vested account of a re-hired employee, in accordance with the Plan agreement, and then to reduce the Company's matching contributions. The forfeitures balances at December 31, 2012 and 2011 were $20 and $771, respectively. Forfeitures of $1,927 were used to reduce employer contributions during the year ended December 31, 2012.

Payment of Benefits

A participant shall become immediately vested upon death, retirement, or disability. Normal retirement age under the Plan is 65. Hardship withdrawals and one in-service withdrawal every six months are permitted. The amount and source of these withdrawals are limited, as defined in the Plan. Participants may receive their distributions in a lump-sum or an installment payment.

Notes Receivable from Participants

Plan participants may borrow Plan assets at a minimum of $500 and up to a maximum of the lesser of $50,000 or 50% of their vested account balance in the Plan. Only one outstanding loan per participant is permitted. Loans are repaid in level installments through payroll deductions for periods ranging up to five years. The loans bear interest at prime as determined at the date of the loan and are secured by the participant's vested accounts to the extent of the principal amount of the loan plus accrued interest.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are held within the Huntsman Advanced Materials Americas Master Trust (the "Master Trust"). Investments held within the Master Trust are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. The Plan's proportionate interest in the investments of the Master Trust is shown in the statements of net assets available for benefits as Plan interest in Huntsman Advanced Materials Americas Master Trust (see Note 3).

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the Master Trust. As required, the statements of net assets available for benefits present the fair value of the investment contracts in the Master Trust as well as the adjustment of the fully benefit-responsive investment contracts in the Master Trust from fair value to contract value.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. At December 31, 2012 and 2011, no allowance was considered necessary by management.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to notes receivable from participants, withdrawals, recordkeeping, and certain investment transaction fees are charged directly to the participant's account and are included in administrative expenses. Other investment related expenses are included in net appreciation in fair value of investments within the Master Trust.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Federal Income Taxes

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 19, 2010, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Recent Accounting Pronouncement

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan has adopted this guidance in 2012 and determined that it did not have an effect on net assets available for benefits or changes in net assets available for benefits.

NOTE 3 - INTEREST IN MASTER TRUST

The Plan's investment assets are held in the Master Trust at Fidelity Management Trust Company ("Fidelity"). The Master Trust was established by the Company and is administered by Fidelity. Use of the Master Trust permits the commingling of trust assets with the assets of the Plan and the Huntsman Advanced Materials Americas LLC 401(k) Investment Savings Plan for Non-Salaried Employees at East Lansing, Michigan sponsored by the Company, all of which are under common control, for investment and administrative purposes. Although assets of the participating plans are commingled in the Master Trust, the trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets is allocated by the trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The investments of the Master Trust at December 31, 2012 and 2011 are summarized as follows:

	2012	2011
Investments, at fair value:

Plan's interest in Master Trust net assets	$10,135,766	$9,733,631

NOTE 3 - INTEREST IN MASTER TRUST (CONTINUED)

The net investment income of the Master Trust for the year ended December 31, 2012 is summarized as follows:

Net appreciation in fair value of investments:	
Mutual funds	$1,500,021
Interest and dividends	37,220
Interest income on notes receivable from participants	19,193
Total	$1,556,434

NOTE 4 - INVESTMENTS

The investment in the Master Trust held by Fidelity represents 5% or more of the Plan's net assets at December 31, 2012 and 2011. The fair value of the investment in the Master Trust includes an adjustment to contract value of $(68,458) and $(64,143) for interest in the common collective trust fund relating to fully benefit-responsive investment contracts for 2012 and 2011, respectively.

NOTE 5 - FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Various inputs are used in determining the fair value of the Plan's investments in the Master Trust. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of investments in the Master Trust that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Mutual Funds: Valued at net asset value (NAV) of shares held by the Master Trust at year-end. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Common Stock: Valued at fair value using a market approach based on quotations from national securities exchanges.

Cash Reserves: Represents interest-bearing cash.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Common Collective Trust Fund: Valued based on information reported by the investment advisor. Investments are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by bond trusts.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used for valuing securities at December 31, 2012 or 2011.

The following tables set forth by level, within the fair value hierarchy, the investments in the Master Trust at fair value as of December 31, 2012 and 2011:

NOTE 6 - INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011, and the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2012.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments in the Master Trust are in shares of mutual funds and in a participant directed brokerage account managed by entities related to Fidelity. Fidelity is the Plan's trustee, as defined by the Plan. Therefore, these investments qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions. These transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan provides for various investments. In general, such investments are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 11, 2013, the date the financial statements were available to be issued.
