NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

NOTE 1 DESCRIPTION OF PLAN

The following description of the Ruth's Hospitality Group 401k Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Ruth's Hospitality Group, Inc. (the Company) who have three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The Investment Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Contributions – Each year, participants may contribute from 1% to 99% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their account into various investment options offered by the Plan. The Plan currently offers a common/collective trust and various mutual funds as investment options for participants. The Company may make annual discretionary matching contributions. For 2012, the Company contributed 25% of the amount that a participant contributed to the Plan, up to 3% of the participant's compensation. Contributions are subject to certain limitations.

Participant Accounts – Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. Participants must be employed on the last day of the Plan year and have six months of service to be entitled to allocations of the Company's contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant does not begin to vest until after year one (20%), and increases ratably until fully vested after year five.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined at the time of the loan request, is set at Prime plus 1.0%. Principal and interest is paid ratably through biweekly and weekly payroll deductions.

Payment of Benefits – Upon termination of service a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

NOTE 1 DESCRIPTION OF PLAN - Continued

Forfeited Accounts – At December 31, 2012 and 2011, forfeited nonvested accounts totaled approximately \$11,000 and \$17,000, respectively. These accounts will be used to pay administrative expenses or reduce future employer contributions. During 2012, employer contributions were reduced by approximately \$19,000 from forfeited nonvested accounts.

Subsequent Events - The Company has evaluated subsequent events through September 20, 2013, the date which the financial statements were available to be issued.

NOTE 2 SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The Plan's financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on the contract value basis.

Use of Estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

NOTE 2 SUMMARY OF ACCOUNTING POLICIES - Continued

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable – Amounts payable to participants for contributions in excess amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 and 2011 excess contributions to the applicable participants prior to March 15, 2013 and 2012, respectively.

Payment of Benefits - Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 3 CERTIFIED INVESTMENTS

Other than the fair value of the common/collective trust and the related adjustment from fair value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2012 and 2011, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2012, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company (Fidelity), the trustee for the Plan. The contract value of the common/collective trust was certified by the trustee.

^{*}These amounts represent contract value for this investment.

During 2012, the Plan's investment in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value \$1,832,430.

NOTE 5 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in an active market; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

NOTE 5 FAIR VALUE MEASUREMENTS - Continued

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common/collective trust: Valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year end.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Fair Value Measurements at December 31, 2012

	Level 1		 Level 2	Level 3		Total

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2012:

	I	Fair Value	F	Fair Value	Unfunded	Redemption	Redemption
Investment Type		2012		2011	Commitments	Frequency	Notice Period
Fidelity Managed Income							
Portfolio	\$	1,752,046	\$	1,728,711	\$ -	Daily	Daily

The objective of the Fidelity Managed Income Portfolio fund is to preserve the principal investment while earning a level of interest income that is consistent with principal preservation. To achieve this, this fund invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds.

NOTE 6 RELATED PARTY TRANSACTIONS

Plan investments are managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services are included in net appreciation in the fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Company pays directly any other fees related to the Plan's operations.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 8 TAX STATUS

The Plan has been formed utilizing the *Fidelity Basic Plan Document No. 14* plan documents and adoption agreement. The prototype plan sponsor, Fidelity Management & Research Company (FMR), obtained a favorable determination letter dated March 31, 2008; however, such letter is only applicable to FMR. The plan administrator has adopted all Plan provisions within the prototype document. Although the Plan has been amended since the date of the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). The Plan is subject to routine audits by taxing jurisdictions. During 2013, the IRS began an examination of the Plan for the year ended December 31, 2010. The examination has not been completed as of the date of these financial statements. As such, no completion letter has been obtained. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
