RETIREMENT PLAN OF COOPER AEROBICS ENTERPRISES, INC.

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Retirement Plan of Cooper Aerobics Enterprises, Inc. (the "Plan") is provided for general information purposes only. More complete information regarding the Plan's provisions may be found in the plan document.

General

The Plan is a defined contribution plan established by Cooper Aerobics Enterprises, Inc. (the "Company") under the provision of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company who have completed one month of service and are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was created on January 1, 1995. The Plan was amended and restated effective July 31, 2011.

Plan Administration

The Plan is administered by the Profit Sharing Plan Committee which is appointed by the board of directors of the Company. Standard Insurance Company and MetLife Life & Annuity Company of Connecticut (collectively referred to as the "Trustees") are responsible for the custody and management of the Plan's assets.

Contributions

Eligible employees may contribute a percentage of their compensation as defined by the Plan, subject to certain limitations under the IRC. After July 1, 2007, newly eligible employees are automatically enrolled in the Plan with elective deferral of 3 percent unless employees are currently deferring another amount or have elected not to defer. As of August 1, 2011, automatic enrollment was disabled. The Company also provides discretionary matching, profit sharing and qualified non-elective contributions. The matching contribution ranged from twenty-five (25) to seventy-five

(Continued - 1)

(75) percent depending on the employee's years of benefit service. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Beginning July 1, 2009, the Company ceased employer matching.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer contributions, as well as the participant's share of the Plan's income. Allocations of income are based on the proportion that each participant's account balance bears to the total of all participant account balances.

Vesting

Participants are fully vested in their contributions and the earnings thereon. Vesting in employer matching, profit sharing and qualified non-elective contributions and the earnings thereon is based on years of continuous service. The years of credited service required for a participant to become 100% vested is five years.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited non-vested accounts totaled approximately $5,000 and $7,000 respectively. Forfeited amounts are used to pay Plan expenses and to offset future employer contributions. Also, in 2012, employer contributions were not reduced from forfeited non-vested accounts.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participant's vested account balance. In addition, hardship distributions are permitted if certain criteria are met.

(Continued - 2)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, or 50 percent of their vested interest. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 5.25%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Investment Options

Participants may direct contributions and any related earnings into multiple investment options in whole percentage increments. Participants may change their investment elections at any time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The Preparation of Financial Statements in conformity with accounting principles generally accepted in the Unites States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Mutual funds and the interest contract are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Notes receivable from participants are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis.

(Continued - 3)

Net Appreciation (Depreciation) in Fair Value of Investments

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for benefits and is included in net appreciation in fair value of investments.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan, nor does the Company charge the Plan for any administrative costs. In addition, expenses for the Plan's consulting and custodial services are paid directly by the Company.

Participant Fees

Participant loan, forfeiture and withdrawal processing fees are paid by the participant and deducted from the applicable transactions.

Benefit Payments

Benefits are recorded when paid.

Subsequent Events

Subsequent events have been evaluated through July 19, 2003 which is the date the financial statements were available to be issued.

(Continued - 4)

Mutual Funds	**$ 557,662**
Guaranteed Interest Fund	**15,771**
Total	**$ 573,433**

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable input (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(Continued - 5)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Guaranteed Deposit fund: Net Asset Values and Dividend rates per share are determined by the Trustee's fund company trading partners as of the close of business each day. If, for any reason, a value is unavailable to the Trustee, they estimate the value. Any difference determined between the estimate and a value supplied later by the fund company is reflected prospectively. Similarly, any subsequent change by a fund company to the Net Asset Value or Dividend rate originally supplied to

(Continued - 6)

the Trustee is reflected prospectively after the Trustee receives notice of the change. The underlying mutual funds are traded daily on an active market and all the unit value inputs are observable.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

5. VESTED BENEFITS DUE

As of December 31, 2012 and 2011, there were no benefit payments payable to participants who had elected to withdraw from the Plan but had not yet received distributions.

6. INFORMATION PREPARED AND CERTIFIED BY CUSTODIANS

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodians have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate.

(Continued - 8)

	2012	2011
Investments, at Fair Value:		
Mutual funds	**$ 4,165,220**	$ 3,755,192

Interest Income on Notes Receivable From Participants	**$ 2,333**	

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated January 30, 2004, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan Management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if

(Continued - 9)

the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of investment contract funds managed by the Standard Insurance Company. Standard Insurance Company is the Custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services are included in net appreciation in fair value of investments.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. PLAN TERMINATION

Although the Company has not expressed an intention to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, employees become 100 percent vested in their accounts.
