401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2012

1. Plan Description

The following description of BEI Precision Systems & Space Company, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by BEI Precision Systems & Space Company, Inc. (the Company). The Plan became effective on January 1, 2011, for the purposes of providing retirement benefits to eligible employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and certain provisions of the Internal Revenue Code.

All employees of the company, excluding employees covered by a collective bargaining agreement, nonresident aliens with no U.S. source income, leased employees, independent contractors, or employees of controlled group employers who have not adopted this Plan, are eligible to participate in the Plan upon attaining 18 years of age. Their participation may begin immediately.

Plan Administration

The Company is the administrator of the Plan. As administrator, the Company has exclusive authority and responsibility for all matters in connection with the operation and administration of the Plan. Vanguard Fiduciary Trust Company was the appointed trustee for the Plan in 2012 and 2011, and acted at the direction of the Plan's administrator. The Company paid the majority of all necessary and proper expenses incurred in the administration of the Plan. Such expenses primarily comprise legal fees, auditing fees, and expenses relating to the maintenance of the Plan's records.

Contributions

The Plan includes automatic enrollment for all employees, which will commence 30 days after eligibility. Deferral contributions for employees entered under the automatic enrollment will be 3%. Contributions will be invested in the Vanguard Retirement Savings Trust investment option. Employees who elect to participate in the Plan may contribute a portion of their salary up to 75% of their compensation for that period, or up to the limits imposed by Section 402(g) of the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may elect to make Roth 401(k) contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company makes Safe Harbor matching contributions based on employee deferrals throughout the year. Matching contributions are 100% of the first 6% of compensation. The Plan also allows discretionary qualified non-elective contributions paid only to contributing non-highly compensated employees.

Participant Accounts

Each Participant's account is credited with the Participant's contributions, Plan earnings or losses, the Company's contributions, and rollovers from other qualified plans. Plan earnings or losses are allocated based upon each Participant's account balance. Certain fees are charged to the fund investments and are offset against Plan investment income and loss as presented on the statement of changes in net assets available for benefits. Participants should refer to the prospectuses of these funds for details on the various types and amounts of investment fees charged to the Plan and their individual accounts.

Vesting

Participant contributions, rollovers, and net earnings on these contributions, are fully vested when made or earned.

The Plan is a Safe Harbor Plan and all employer contributions are 100% vested. Participants are fully vested upon retirement, death, disability, or plan termination.

Notes Receivable from Participants

Participants are allowed to borrow from their fund accounts up to 50% of the value of their account balance, or \$50,000. Note receivable terms range from one to five years, except for notes receivable used to purchase a primary residence, which may be for a term in excess of five years. The notes receivable are secured by no more than fifty percent of the balance in the Participant's account and bear a reasonable interest rate as determined by the Plan administrator. Interest rates on notes receivable at December 31, 2012 ranged from 4.25% to 6.75% per annum. Principal and interest is paid ratably through payroll deductions.

Payments of Benefits

When Participants leave the Company, upon retirement or for any other reason, those Participants (or their beneficiaries) may receive the value of the participant's vested interest in their account in a single lump-sum payment, or installment payments. The Plan also allows for in-service withdrawals upon a participant attaining the age of 59½, or having a hardship. In-service withdrawals may be taken from salary deferrals. A participant may also take a distribution of their rollover contribution at any time.

Distributions under the Plan shall generally be made as soon as possible after the date of retirement, date of death, or termination of employment. Mandatory distributions of account balances under \$5,000 will be made as soon as possible. In the event of a mandatory distribution greater than \$1,000 if the participant does not elect to have such distribution paid directly to an eligible retirement plan specified by the Participant in a direct rollover or to receive the distribution directly, then the Plan administrator will pay the distribution in a direct rollover to an Individual Retirement Account designated by the Plan administrator.

Investment Options

Upon enrollment in the Plan, a participant may direct his or her contributions in percentage increments into a series of investments offered by the Plan. Participants may change their investment options at any time.

2. Summary of Significant Accounting Policies

Method of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan does not directly invest in fully benefit-responsive contracts, but the common/collective trust investment does. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investments contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities and changes in net assets available for benefits. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies, continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Recognition of Benefit Payments

Benefits are recorded when paid.

Information Certified by the Trustee

Vanguard Fiduciary Trust Company has prepared and certified as complete and accurate the Plan's schedule of investment assets, notes receivable from participants, transactions, and net realized and unrealized gains and losses on investments, and interest and dividend income, which was used to prepare the accompanying financial statements and supplemental schedule.

Recent Accounting Pronouncements

In October 2012, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU) to amend the fair value measurement of investments in defined contribution pension plans to be reduced by brokerage commissions and other selling costs, if significant. This ASU is effective for reporting periods beginning after December 15, 2012, and is not expected to have a material impact on the Plan's financial statements.

3. Fair Value Measurements

Accounting Standards for fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under these accounting standards are described below:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTES TO FINANCIAL STATEMENTS

3. Fair Value Measurements, continued

Level 2—Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There was no change to the valuation methodologies for 2012 and 2011.

Common/collective trust: Valued based on the fair market value of the underlying securities.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Party-in-Interest Transactions

Certain Plan investments in mutual funds are managed by Vanguard Fiduciary Trust Company, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan, and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

7. Tax Status

The Plan has adopted the Vanguard Fiduciary Trust Company Prototype Non-Standardized Safe Harbor Plan, which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since the date covered by the opinion letter and the Company has not yet submitted the Plan, as amended, to the Internal Revenue Service for a determination letter. The Company and the Plan administrator believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2012. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Plan Termination

BEI Precision Systems & Space Company, Inc. has established the Plan with the intention and expectation that the Plan will continue indefinitely. However, BEI Precision Systems & Space Company, Inc. reserves the right at any time to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, distributions will be made to Participants as described in the Plan agreement.

9. Risks and Uncertainties

The Plan provides for various investment options in any combination of mutual funds and a common/collective trust offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Management concluded that no material subsequent events have occurred since December 31, 2012 that requires recognition or disclosure in such financial statements.
