Note 1 - Description of Plan

The following description of Monotech of Mississippi, Inc. 401(k) Plan provides only general information. Readers should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Monotech of Mississippi, Inc. 401(k) Plan (the "Plan") is a defined contribution 401(k) retirement plan available to all employees of Monotech of Mississippi, Inc. (the "Company") who are eighteen (18) years of age or older, have completed three months of service, and whose compensation and conditions of employment are established pursuant to the terms and conditions of the Collective Bargaining Agreement between the Company and the International Union of Operating Engineers, Local No. 624. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may elect to defer up to five percent (5%) of their annual eligible compensation subject to Internal Revenue Service limitations. There are no provisions under the Plan Agreement for employer matching or profit sharing contributions.

Participant accounts

Each participant's account is credited with the participant's deferral contribution, plus a proportionate interest in the investment earnings or losses of the funds in which the contributions are invested. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their deferral contributions plus earnings thereon.

Payment of benefits

Upon termination of service for any reason, participants may elect to receive account distributions in the form of a lump sum payment as defined in the Plan Agreement. If the participant's balance does not exceed $1,000, the Plan may distribute funds in the form of a lump sum payment without the consent of the participant. Withdrawals by a participant while employed are limited to those requested due to events of financial hardship as defined by the Plan Agreement or upon attainment of the age of 59½.

Plan termination

Although it has not expressed any intent to do so, the Company has the right to modify or terminate the Plan at any time subject to the provisions of ERISA and the Plan Agreement.

Note 2 - Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit payments

Benefit payments are recorded upon distribution.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions which affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 3 - Investments

The custodian of the Plan's investments has supplied the plan administrator with certifications as to the completeness and accuracy of all information presented in the accompanying financial statements and the supplemental schedule pertaining to investments, investment income (loss), and reportable transactions as of December 31, 2012 and 2011 and for the years then ended.

The Plan allows participants to direct their contributions and account balances among different investment options within The Collective Investment Funds of First Mercantile Trust Company.

The fair value of the individual investments which represent five percent (5%) or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011 is as follows:

	2012	2011
FMT/FFTW Income Plus Fund	$ 76,802	$ 65,798
FMT/Vanguard 500 Index Fund	25,816	21,046
FMT/U.S. Growth Opportunties (Zevenbergen) Fund	22,887	19,691
FMT/SSgA U.S. Treasury Money Market Fund	22,536	20,156

Note 3 - Investments (continued)

	2012	2011
FMT/LifeStyle Aggressive Growth Fund	$ 21,248	$ 16,146
FMT/Large Cap Fundamental Growth (BlackRock) Fund	18,816	14,883
FMT/Global Infrastructure (Miller/Howard) Fund	18,521	16,180
FMT/LifeStyle Moderately Aggressive Growth Fund	18,321	12,320
FMT/Small Cap Aggressive Growth (CCI/Cupps) Fund	14,465	12,252

Note 4 - Information prepared and certified by the custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, First Mercantile Trust Company, the custodian of the Plan, has certified the following data included in the accompanying financial statements and the supplemental schedule are complete and accurate with respect to:

- Investments at fair value
- Net appreciation (depreciation) in fair value of investments
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and the supplemental schedule.

Note 5 - Fair value measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 5 - Fair value measurements (continued)

> **Level 3:** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2012 and 2011.

> *Common/collective trust funds*: Valued at the Net Asset Value ("NAV") of units of the collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that security liquidations will be carried out in an orderly business manner.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although plan management believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Common/collective trust funds				
Equity	$ -	$ 104,209	$ -	$ 104,209
Stable value	-	76,802	-	76,802
Target risk allocation	-	58,575	-	58,575
Money market	-	22,536	-	22,536

Fixed income	-	3,394	-	3,394
Total	$ -	$ 284,037	$ -	$ 284,037

Note 5 - Fair value measurements (continued)

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Common/collective trust funds				
Equity	$ -	$ 85,705	$ -	$ 85,705
Stable value	-	65,798	-	65,798
Target risk allocation	-	40,993	-	40,993
Money market	-	20,156	-	20,156
Alternatives	-	16,180	-	16,180
Fixed income	-	2,719	-	2,719
Total	$ -	$ 231,551	$ -	$ 231,551

The fair value of the investments in the common/collective trust funds has been estimated using the net asset value of the investments. The common/collective trust funds listed above are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments.

Note 6 - Related party transactions

Plan investments represent interests in certain common/collective trust funds offered by First Mercantile Trust Company. First Mercantile Trust Company is the custodian for the Plan and provides the Plan with certain record keeping and administrative services. These services and the investments and related investment transactions qualify as party-in-interest transactions.

The Company provides the Plan with certain management and administrative services for which no fees are charged.

Note 7 - Tax status

The Internal Revenue Service (IRS) has determined that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and has informed the custodian of such in a letter dated March 31, 2008. Although the Plan has been amended since receiving the opinion letter, plan management believes the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination

Note 7 - Tax status (continued)

by the IRS. The plan administrator has evaluated the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes it is no longer subject to IRS examinations for years prior to 2009.

Note 8 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 - Subsequent events

In accordance with FASB ASC 855, *Subsequent Events*, plan management has evaluated events that have occurred subsequent to the year ended December 31, 2012 through September 17, 2013, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.
