Note 1. Plan Description

The following description of the Crawford, Murphy & Tilly, Inc. Profit Sharing/401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Crawford, Murphy & Tilly, Inc., (the Company), subject to certain limitations, who have completed one year of service with at least 1,000 hours of service. An eligible employee becomes a participant effective as of the earlier of the first day of the plan year (January 1) or the first day of the sixth month of such plan year (June 1) coinciding with the next date following the date such employee met the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: The Plan provides for eligible employees to contribute up to 100% of their pre-tax compensation or the maximum dollar limit allowed under the requirements of the Internal Revenue Code (IRC) ($17,000 for calendar years beginning in 2012), whichever is less, with the Company making a non-discretionary matching contribution of 50% of the first 6% of pre-tax compensation that a participant contributes to the Plan. These contributions totaled $567,408 for the year ended December 31, 2012. Participants who will be age 50 or older during the plan year can make special catch-up contributions (up to $5,500 additional contributions for calendar years beginning in 2012 and 2011). The Company may also make a discretionary contribution each year for the benefit of all participating employees; this contribution totaled $620,000 for the year ended December 31, 2012.

The maximum dollar amount that the Plan may allocate to any one participant is $50,000 or 100% of pay, whichever is less. Participants direct their salary deferral and Company contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options at any time pursuant to procedures established in the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, (b) plan earnings or losses, and (c) charged with a proportionate allocation of administrative expenses based on the value of the participant's account balance or as an equal dollar amount based on the number of participants in the Plan. The method of allocating expenses depends on the nature of the expense itself. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants hired prior to April 1, 2000 are immediately vested in the Company's contribution portion of participant accounts. Vesting in the Company's contribution portion of participant accounts for participants hired on or after April 1, 2000 is subject to the following vesting schedule:

1 year of service	20% vested
2 years of service	40% vested
3 years of service	60% vested
4 years of service	80% vested
5 years of service	100% vested

Note 1. Plan Description (Continued)

Notes receivable from participants: The Plan provides for participants to borrow, in cases of hardship as described in the plan document, from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participants may have only one loan outstanding at any one time. Loan terms range from 1 to 5 years, except loans used to acquire any dwelling unit which within a reasonable time (determined at the time the loan is made) will be used as the Participant's principal residence, which may exceed five years. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest commensurate with the interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances, generally 1% over the national prime rate at the time of the loan. Interest rates range from 4.25% to 9.25%. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of benefits: Upon termination of service due to death, disability, retirement or for termination of services for other reasons, a participant or the participant's designated beneficiary may elect to receive an amount equal to the value of his or her vested account in either a lump-sum amount, or in substantially equal periodic installments for a certain period not extending beyond the life expectancy of the participant or the joint life expectancies of the participant and the participant's designated beneficiary.

Forfeited accounts: At December 31, 2012 and 2011 forfeited nonvested accounts totaled $11,618 and $0. Forfeitures may be allocated to first pay for any administrative expenses. Any remaining forfeitures will be used to reduce Employer contributions and/or reallocated to current year participants.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common trust. Contract value for this common trust is based on the net asset value of the fund as reported by the trustee. The statements of net assets available for benefits presents the fair value of the investment in the common trust as well as the adjustment of the fully benefit-responsive investment in the common trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Note 2. Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: All administrative expenses for the Plan are paid by the Company, except certain equity fund expenses which are charged to participants' accounts.

Recent accounting pronouncements: In May 2011, the Financial Accounting Standards Board (FASB) issued an amendment to accounting guidance, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* Accounting Standards Update (ASU) 2011-04. ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The guidance related to the pronouncement was effective and adopted for the period beginning January 1, 2012 and is reflected in Note 4 of the financial statements.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there were no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The adoption of ASU 2012-04 is not expected to have a material impact on subsequent periods.

Note 3. Information Certified and Provided by Vanguard Fiduciary Trust Company

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the assets below.

Vanguard also certified to the completeness and accuracy of $4,467,298 of net appreciation in fair value of the Plan's investments in registered investment companies (mutual funds), $2,155,136 of interest and dividends related to the aforementioned plan assets, and $12,310 in participant loans' interest for the year ended December 31, 2012.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Shares of registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Shares of collective investment trust: Valued based on the NAV of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Note 5. Fair Value of Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2012 and 2011.

Investment as of December 31, 2012	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Shares of Collective Investment Trust (a)	$ 8,635,629	$ -	Daily	None

Investment as of December 31, 2011	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Shares of Collective Investment Trust (a)	$ 8,768,914	$ -	Daily	None

(a) Vanguard Retirement Savings Trust seeks stability of principal and a high level of current income consistent with a 2-3 year average maturity. The trust is a tax-exempt collective trust invested primarily in investment contracts issued by insurance companies and commercial banks, and similar types of fixed-principal investments. The trust intends to maintain a constant NAV of $1.00 per share. Investments in Vanguard Retirement Savings Trust are limited to participant-directed defined contribution plans and, with Vanguard's approval, other qualified pension plans. The Trust invests primarily in investment contracts issued by insurance companies, banks or other financial institutions, including investment contracts backed by high-quality fixed income securities. The fund seeks to achieve its objective by diversifying among high credit-quality investments and investment contracts which are structured to smooth market gains and losses over time. The trust invests in a combination of synthetic contracts (backed primarily by Vanguard bond funds), traditional investment contracts backed by major insurance providers, and bank contracts. The trust's strict credit guidelines require that traditional investment contracts be rated at least AA. The trust will maintain an average maturity between 2-3 years.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Company evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no transfers in or out of Level 3.

Note 6. Party-in-Interest Transactions and Plan Expenses Paid By the Company

The Plan invests in shares of registered investment companies and a collective investment trust managed by affiliates of Vanguard. Vanguard is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Vanguard were $10,124 for the year ended December 31, 2012.

The Company pays certain plan expenses on behalf of the Plan and also provides certain administrative services at no cost to the Plan. Administrative expenses paid by the Company on behalf of the Plan were $67,348 for the year ended December 31, 2012.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 8. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 8, 2010, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable provisions of the IRC. Accordingly, no provision for federal income taxes has been made.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal tax authorities for years before 2009.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2012 and 2011 to the Form 5500.

	2012	2011
Net assets available for benefits per the financial statements	$ 64,438,320	$ 56,312,507
Differences in:		
Investments	(225,784)	(195,363)
Receivables-notes receivable from participants	225,784	195,363
Net assets available for benefits per the Form 5500	$ 64,438,320	$ 56,312,507

Note 11. Subsequent Events

Effective July 1, 2013, the Company approved allowing eligible employees to make Roth 401(k) contributions into the Plan.

The Plan Administrator has evaluated events occurring subsequent to December 31, 2012 as to their potential impact to the financial statements through September 20, 2013, which is the date the financial statements were available to be issued.
