1. Description of the Plan

The following description of the Boening Bros. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan became effective on January 1, 1987, and is a participant-directed defined contribution plan as described in Section 401(k) of the Internal Revenue Code. Non-union employees of Boening Bros. Inc. and Oak Beverages, Inc. (collectively the "Company") are eligible to participate upon completing one year with 1,000 hours of service and attaining the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each participant may contribute up to an annual limit of the lesser of 100% of the participant's eligible compensation each year, or as limited by law, a maximum amount of $17,000 for the year 2012. Individuals who will be at least age 50 by December 31, 2012, may make an additional "catch-up" contribution, up to a maximum amount of $5,500 in 2012. There is no provision for employer contributions.

Vesting

Participants are always 100% vested in their rollover contributions, qualified non-elective contributions, regular deferral contributions, and earnings thereon.

Participant Loans

There is no provision for participant loans.

Payment of Benefits

A participant may elect to receive a distribution of benefits any time after reaching the normal retirement age as defined in the Plan, or upon termination of employment. Prior to termination of employment, participants may elect to withdraw their employee pretax contributions and rollover contributions if they incur a hardship as defined by the Plan. Payments of benefits can be made in a lump sum or as an annuity as selected by the participant.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of Plan earnings and charged with an allocation of administrative expenses for investments with the custodian. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Upon enrollment, participants direct the investment of their contributions into investment options offered by the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation in the fair value of its

investments includes the Plan's gains and losses on investments bought and sold as well as held during the year ended December 31, 2012.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Reclassifications
Prior-year balances have been reclassified to conform to current-year classifications.

Administrative Expenses
The Company may elect to pay administrative expenses of the Plan.

3. Investment Information Certified By Plan's Custodian

As permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, all of the investment and investment income information in the accompanying financial statements as of December 31, 2012 and 2011, and for the year ended December 31, 2012, were derived from information certified as complete and accurate by John Hancock Life Insurance Company of New York, as trustee, and were not subject to audit.

During the year ended December 31, 2012, net appreciation from the Plan's investment in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the period) amounted to $568,497.

The following table presents investments that represent 5% or more of the Plan's net assets:

	2012	2011
VSNY Money Market Fund	$ 291,190	$ 284,433
PIMCO Total Return	569,352	522,322
Davis New York Venture Fund	478,807	463,864

4. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Authoritative Guidance establishes a framework for measuring fair value under accounting principles generally accepted in the United States of America and expands the disclosure about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB Authoritative Guidance are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at December 31, 2012 and 2011:

- Pooled separate accounts – valued based on the net asset value of the shares of the funds' investments as determined by the value of the underlying investments.
- Guaranteed interest accounts – fair value is based on principal plus compound interest earned. Interest rates are established on the first day of each calendar month at prevailing rates.

The following are the major categories of assets measured at fair value on a recurring basis and summarized by the fair value hierarchy as described above, as of December 31, 2012 and 2011.

		Fair Value Measurements at Reporting Date		
Description	December 31, 2012	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

5. Party-in-Interest Transactions

Some of the Plan investments are shares of registered investment companies managed by John Hancock Trust. John Hancock Life Insurance Company of New York is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The fees paid by the Plan for investment management during the year ended December 31, 2012, amounted to $6,935.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue it at any time and to terminate the Plan, subject to the provisions of ERISA.

7. Tax Status

The Plan obtained its latest determination letter dated August 25, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

8. Risks and Uncertainties

The Plan invests in various investment securities, including mutual funds. Mutual funds are exposed to various risks, such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with those investment securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
