BEST DEAL FOOD COMPANY, INC. 401(k) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2012

NOTE A – DESCRIPTION OF PLAN

The following description of the Best Deal Food Company, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. This plan information is available at the corporate office of Best Deal Food Company, Inc.

General

The Plan is a defined contribution plan covering all employees of Best Deal Food Company, Inc. (the Company), effective March 1, 1999, who have one year of service with a minimum of 1,000 hours worked. A minimum age is not required. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute without limitation as defined in the Plan. However, total deferrals in any plan year may not exceed the dollar limit which is set by law. Participants who have attained age 50 before the end of the calendar y ear are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

Funding consists of employee salary reductions and matching employer contributions. Participants may change deferred election quarterly. The employer contributes 100 percent of the first 3 percent of base compensation and 50 percent of the next 2 percent of base compensation that a participant contributes to the Plan. The employer may also make discretionary contributions in addition to the match contributions described above.

Participant Accounts

Each participant's account is credited with the participant's contributions and employer's matching contributions, as well as allocations of the employer's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings, or account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, including elective deferrals, catch-up contributions, qualified matching contributions, qualified non-elective contributions and rollover contributions, plus actual earnings thereon. For any discretionary contributions plus actual earnings thereon, participants vest 20 percent after two years of service with an additional 20 percent for each additional year of service, and are 100 percent vested after six years of service.

NOTE A – PLAN DESCRIPTION (continued)

Participant Loans

Participants may borrow from their fund accounts from a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less. The number of outstanding loans for a participant is limited to one, and the number of loans approved for a participant in any 12-month period is limited to two. The term of any loans is a maximum of five years. The loans are secured by the balance in the participant's account and bear interest at rates for similar loans from commercial lending institutions, as determined by the Plan administrator. Principal and interest payments are made through either payroll deductions or payments made directly to the Plan Administrator. Principal and interest are paid ratable not less often than once each quarter.

Payment of Benefits

Participant's vested interest in his or her account may be distributed upon retirement, termination of employment, death, hardship, or disability. A participant may elect to receive his or her account balance in a lump sum payment, by the purchase of an annuity, or in equal installments over a fixed period selected by the participant based on guidelines provided in the Plan agreement. If the participant's vested account is under $5,000 it will be paid out in a single sum. In the event of undue financial hardship, participants may withdraw all or a part of elective deferral contribution (not earnings) for immediate financial need.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $0 and $0, respectively. These accounts will be used to reduce administrative expenses of the Plan, then any remaining forfeitures will be applied to reduce employer contributions. During the year ended December 31, 2012, there were no allocations of forfeited balances made.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value.

Notes Receivable from Participants

Notes Receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

Management has evaluated subsequent events through September 30, 2013, the date the financial statements were available to be issued, and has determined that no adjustments are necessary to the amounts reported in the accompanying financial statements nor have any subsequent events occurred, the nature of which would require disclosure.

NOTE C – GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a guaranteed investment contract with Principal Life Insurance Company (Principal). The guaranteed interest accounts are credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The accounts provide a guaranteed interest rate for a specified period of time, three years. The rate credited is the rate in effect on the day when each deposit is directed to the account. The guaranteed interest accounts promise contract value for a benefit event (termination, death, disability and retirement); however, there is a possible surrender change when funds are withdrawn prior to their maturity. Thus, the guaranteed interest accounts are considered not benefit responsive.

The guaranteed interest accounts are included within Investments on the face of the statement of net assets available for benefits. They are presented at fair market value which is the value that would be paid if funds were transferred within the plan or withdrawn prior to their maturity. The fair value of the non-benefit-responsive contract at December 31, 2012 and 2011 was $234,373 and $216,761, respectively.

If the applicable interest is equal to or less than the interest rate on the guaranteed interest accounts, the fair market value is equal to the contract value. On the other hand, if the applicable interest rate is greater than the interest rate on the account, the fair market value is the contract value reduced by a percentage. This percentage is equal to (1) the difference between the applicable interest rate and the interest rate on the account, multiplied by (2) the number of years (including fractional parts of a year) until the maturity date.

	2012
Guaranteed Interest Accounts	$ (631)
Pooled Separate Accounts	163,444
Net Change in Fair Value	$ 162,813

NOTE F – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows: Level 1 inputs consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access; Level 2 inputs include other than quoted prices that are observable for the asset or liability; and Level 3 inputs are those that are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2012 and 2011.

Pooled Separate Account (PSA) – PSAs are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The net asset value of a PSA is based on the market value of its underlying investments, but PSA net asset value is not a publicly quoted price in an active market.

Guaranteed Investment Contract (GIC) – Fair value represents the amount the plan sponsor would receive from Principal if it terminated the contract at the reporting date, which is book value less an early withdrawal charge. Unobservable inputs were used for valuing the asset (see note C).

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

NOTE G – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Principal Financial Group which is the custodian/administrator of the plan. Participants of the Plan pay for investment management and record keeping through the Plan custodian, therefore, transactions with Principal Financial Group qualify as party-in-interest transactions. For the year ended December 31, 2012, the party-in-interest transactions were as follows:

Service Providing Company	Relationship	Amount of Direct Compensation
Principal Financial Group	Investment Management and Recordkeeping	$ 3,732

BEST DEAL FOOD COMPANY, INC. 401(k) PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2012

NOTE H – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 % vested in their employer contributions.

NOTE I – CONCENTRATIONS OF CREDIT RISK

The Plan invests all contributions in various mutual fund options. None of the mutual funds utilized by the Plan are insured.

NOTE J – FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Plan Sponsor by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). No Plan amendments have been adopted since receiving the determination letter; therefore, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2009.

NOTE K – RISKS AND UNCERTAINTIES

The assets of the Plan are invested in various investment securities at the direction of the participants. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
