FRESNO TRUCK CENTER 401(K) PLAN

Notes to Financial Statements

December 31, 2012 and 2011

NOTE 1 - Description of Plan:

The following brief description of the Fresno Truck Center 401(K) Plan is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

General

Fresno Truck Center 401(K) Plan is a trusteed, defined contribution plan established for the benefit of eligible employees of Fresno Truck Center (the Company). The Plan was originally effective September 1, 2004, and has been amended and restated to conform to new tax laws and provisions as applicable. Employee participation in the Plan is voluntary. Employees who have reached the age of 21 and have completed three months of service are eligible to participate in the Plan. The plan entry date will be as soon as administratively feasible after the eligibility requirements are met. The Company is the Plan administrator of the Plan as defined under the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may elect to contribute a percentage, up to 75%, of their before-tax compensation, as defined, not to exceed a certain dollar limit as set by law. Participants are always 100% vested in this deferral account. There are no employer contributions. Therefore, participants' accounts consisting of deferrals are 100% vested and there are no forfeitures. There were $159,132 and $146,753 of net assets allocated to the accounts of employees who have withdrawn from the Plan but have not yet been paid out as of December 31, 2012 and 2011, respectively.

Participant loans

Participants may borrow from their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

A participant may elect to receive benefit payments under certain circumstances, including death, disability, retirement, severance from employment, age 59 ½, or financial hardship, as defined by the Internal Revenue Service (IRS) and subject to approval by the Company.

Amendment and termination of Plan

The Company shall have the right to amend the Plan by resolution of the Employer's Board of Directors, provided that no amendment shall attempt to cause any of the assets of the Plan to be used for or diverted to purposes other than for the exclusive benefit of participants or their beneficiaries.

In the event the Employer elects to terminate the Plan or discontinue operation of its business, the entire interest of the participants shall vest 100% immediately and be non-forfeitable.

Administrative expenses

Administrative expenses, with the exception of the $930 and $1,070 administrator fee, relating to the Plan for the years ended December 31, 2012 and 2011, respectively, were paid by the Company.

NOTE 2 - Summary of significant accounting policies:

Basis of presentation

The accounts of the Plan are maintained on the cash basis of accounting. For financial reporting purposes, however, the financial statements have been prepared on the accrual basis of accounting using information provided by the Trustee and present the net assets available for Plan benefits and changes in those net assets at current values. The difference between current value and the cost of the investments is reflected in the statement of changes in net assets available for Plan benefits as appreciation (depreciation) in fair value of investments.

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Fair value of financial instruments

Unless otherwise indicated, the fair value of all reported assets and liabilities that represent financial instruments (none of which are held for trading purposes) approximates the carrying value of such amounts.

Concentration of credit risk

The Financial Accounting Standards Board requires disclosure in the financial statements relating to concentrations of credit risk and financial instruments with off-balance-sheet risk. Financial instruments that potentially subject the Plan to concentrations of credit risk consist principally of investments. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investments

All contributions to the Plan are invested by State Street Bank and Trust Co. (the Trustee) in certain mutual funds. Plan participants may allocate their account balances held by the Trustee among the various mutual funds.

Federal income tax status

The Plan has not received a determination letter from the IRS. However, the Plan relies on the latest determination letter for the Automatic Data Processing Federal Credit Union document dated May 3, 2002, in which the IRS stated that the Automatic Data Processing Federal Credit Union, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code, as amended (the Code). The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan administrator believes that the Plan was qualified and thus was tax-exempt as of December 31, 2012 and 2011.

Information certified by the Plan's Trustee:

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's Trustee has certified that the following data included in the accompanying financial statements is complete and accurate: (a) investments as shown in the statement of net assets available for plan benefits as of December 31, 2012 and 2011, and (b) investment income (loss) as shown in the statement of changes in net assets available for plan benefits for the years ended December 31, 2012 and 2011. The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

(continued)

Subsequent events

Management has evaluated subsequent events through October 2, 2013, the date on which the financial statements were available to be issued.

NOTE 3 - Investments:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses the appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

The following information included in the accompanying financial statements was obtained from data that has been prepared and certified to as complete and accurate by the trustee. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011, all of which are participant-directed:

NOTE 4 – Guaranteed investment contract with insurance company:

The Plan has entered into a fully benefit-responsive guaranteed investment contract with State Street Bank and Trust Company. State Street Bank and Trust Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is included on the statement of net assets available for benefits at contract value.

Contract value as reported by the Plan by State Street Bank and Trust Company, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

(continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011, was $640,915 and $579,983, respectively. The average yield and crediting interest rates were approximately .8% and .9% for 2012 and 2011, respectively. The crediting interest rate is based on a formula taking into consideration a number of factors.

Certain events limit the Plan's ability to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial termination or merger with another plan), (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (iii) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.
