REPORT ON THE FINANCIAL STATEMENTS

We were engaged to audit the accompanying financial statements of CMC ICOS Biologics, Inc. 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

CMC ICOS BIOLOGICS, INC. 401(k) PLAN

Notes to Financial Statements

For the Years Ended December 31, 2012 and 2011

Note 1 - Description of the Plan

The following description of the CMC ICOS Biologics, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provision.

General - The Plan is a defined contribution plan, established December 14, 2007, covering all eligible employees of CMC ICOS Biologics, Inc. (the Company). The Plan provides for contributions pursuant to Section 401(a) of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility - All employees except those covered by collective bargaining agreements, leased, or temporary are eligible to participate in the Plan. Employees become eligible for the Plan on the first day of each month subsequent to the date of hire. Temporary employees can achieve eligible status for participation in the plan upon reaching 1,000 hours of service and 21 years of age.

Participant Contributions - Under the provisions of the Plan, participants may defer on a pretax basis up to 75% of their eligible compensation to the Plan, subject to IRC regulations and limitations. Eligible participants who are at least 50 years of age may elect to make catch up contributions subject to certain limitations under the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit and contribution plans.

Employer Matching Contributions and Vesting - The Company contributes an employer matching contribution equal to 50% of participant deferral contributions up to 6% of a participant's eligible compensation calculated each plan year. The contribution period for purposes of calculating the amount of employer matching contributions is each plan year. The match was suspended as of November 1, 2012 through December 31, 2013.

The Company may make a discretionary profit sharing contribution to the Plan. There was no profit sharing contribution for the years ended December 31, 2012 or 2011.

Participants are immediately vested in their voluntary salary deferral contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contributions plus actual earnings thereon is based on years of continued service as follows:

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 1	0%
1 but less than 2	25%
2 but less than 3	50%
3 but less than 4	75%
4 or more	100%

Participant Accounts - Individual accounts are maintained for each of the Plan's participants and credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings and administrative expenses. Participant accounts are valued on a daily basis based on quoted market prices. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

CMC ICOS BIOLOGICS, INC. 401(k) PLAN

Notes to Financial Statements

For the Years Ended December 31, 2012 and 2011

Note 1 - Continued

Notes Receivable from Participants - Plan participants may borrow from their fund accounts, generally for periods not to exceed five years, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. If loans are for the purchase of a primary residence, repayment periods can extend up to 10 years. Interest is paid by the borrower at a rate determined by the administrator based on the prevailing interest rates for loans made under similar circumstances and is retained in the borrower's account until the account balance is withdrawn.

Investment Options - Participants may select one or more predetermined investment options to invest contributions and allocated earnings. Contributions are deposited directly into the participant elected investment vehicles.

The Plan provides for various investment fund options which in turn invest in mutual funds or money market funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of Benefits - Upon retirement, disability or termination, a participant may elect to take a distribution up to the vested balance of the participant's account or rollover the vested balance into another qualified plan. Participants may defer the receipt of their distribution until a later date, however the Plan has the option to distribute all account balances less than \$1,000 without participant consent. Upon death, the participant's vested account balance shall be paid to the designated beneficiary.

Hardship Withdrawals - Under certain conditions, participants, while still employed by the Company, are permitted to withdraw, in a single sum, a minimum of \$500 up to the entire employee contribution portion and vested portion of the employer contribution within their account balance. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition or to prevent eviction or foreclosure from the participant's principal residence. A participant's right to make deferrals to the Plan will be suspended for six months after the receipt of a hardship withdrawal.

Forfeitures - Unapplied forfeited nonvested accounts are used first to reduce future employer contributions payable under the Plan, and then used to pay administrative expense. At December 31, 2012 and 2011, there were \$8305 and \$0 forfeited nonvested accounts. The total forfeited amounts used during the years ended December 31, 2012 and 2011 to reduce employer contributions were \$15,963 and \$15,477, respectively.

Administrative Expenses - The Plan's administrative fees are paid for by the Company and the Plan. Initial loan setup fees are paid by the participants. Investment management fees are charged directly against investments and netted with investment income on the statement of changes in net assets available for benefits.

Note 2 - Summary of Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP).

CMC ICOS BIOLOGICS, INC. 401(k) PLAN

Notes to Financial Statements

For the Years Ended December 31, 2012 and 2011

Note 2 - Continued

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are accrued as earned. Net appreciation or depreciation in fair value is the net gain or loss on disposition of investments plus the net unrealized increase or decrease in fair value during the year of investments held at year-end.

Use of Estimates - The preparation of financial statements, in conformity with GAAP, requires the plan administrator to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest, if any, would not have a material impact on the Plan's financial statements. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits paid to participants are recognized when paid. There were no amounts allocated to accounts of participants who had elected to withdraw from the Plan but had not yet been paid as of December 31, 2012 or 2011.

Subsequent Events - The Plan's management has evaluated subsequent events through September 16, 2013, the date on which the Plan's financial statements were available to be issued.

Note 3 - Certified Investment Information

The Plan's management elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by a trust company need not be subjected to independent audit. The Plan's management has obtained certification from the trustee, Fidelity Management Trust Company (Fidelity), that the following information provided by the trustee and included in the Plan's financial statements and supplementary information is complete and accurate:

- Fair value of investments as of December 31, 2012 and 2011;
- Investment income earned and losses incurred for the years ended December 31, 2012 and 2011; and
- Investment transactions for the years ended December 31, 2012 and 2011.

Note 4 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants immediately become 100% vested in their respective account balances.

For the Years Ended December 31, 2012 and 2011

Note 5 - Taxes Status

The Company has adopted a Prototype Standardized Profit Sharing Plan with a deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, stating that the Plan and its related trust are designed in accordance with applicable sections of the IRC. The prototype plan has been amended since the date of the favorable opinion letter. However, the plan administrator believes that the Plan and its related trust are designed and currently operating in compliance with the applicable requirements of the IRC.

The Plan is subject to audits by the IRS for certain tax periods based on applicable laws and regulations; however, there are currently no audits for any tax periods in progress.

Note 6 - Party-In-Interest Transactions

Certain plan investments are shares of mutual funds and a money market account managed by an entity affiliated with Fidelity, the trustee of the Plan. These transactions qualify as exempt party-in-interest transactions.

Note 7 - Investments

The following table identifies investments that represent 5% or more of the fair value of the Plan's net assets as of December 31 2012 and 2011:

	<u>2012</u>	<u>2011</u>
Fidelity Contra Fund*	\$ 779,569	\$ 608,007

* Represents party-in-interest transactions.

* Individual investment fund does not represent 5% or more of net assets at respective year end.

Note 8 - Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

CMC ICOS BIOLOGICS, INC. 401(k) PLAN

Notes to Financial Statements

For the Years Ended December 31, 2012 and 2011

Note 8 - Continued

The three levels of the fair value hierarchy under this guidance are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Fund - Valued at cost plus accrued interest, which approximates fair value.

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

<i>Fair Value Measurements as of December 31, 2012</i>				
	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>

CMS ICOS Biologics, Inc. 401(k) Plan
Bothell, Washington******REPORT ON THE FINANCIAL STATEMENTS***

We were engaged to audit the accompanying financial statements of CMC ICOS Biologics, Inc. 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplementary information, as listed in the accompanying table of contents, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. The supplementary information is the responsibility of management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplementary information.

REPORT ON FORM AND CONTENT IN COMPLIANCE WITH DOL RULES AND REGULATIONS

The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CMC ICOS BIOLOGICS, INC. 401(k) PLAN

Notes to Financial Statements

For the Years Ended December 31, 2012 and 2011

Note 1 - Description of the Plan

The following description of the CMC ICOS Biologics, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provision.

General - The Plan is a defined contribution plan, established December 14, 2007, covering all eligible employees of CMC ICOS Biologics, Inc. (the Company). The Plan provides for contributions pursuant to Section 401(a) of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility - All employees except those covered by collective bargaining agreements, leased, or temporary are eligible to participate in the Plan. Employees become eligible for the Plan on the first day of each month subsequent to the date of hire. Temporary employees can achieve eligible status for participation in the plan upon reaching 1,000 hours of service and 21 years of age.

Participant Contributions - Under the provisions of the Plan, participants may defer on a pretax basis up to 75% of their eligible compensation to the Plan, subject to IRC regulations and limitations. Eligible participants who are at least 50 years of age may elect to make catch up contributions subject to certain limitations under the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit and contribution plans.

Employer Matching Contributions and Vesting - The Company contributes an employer matching contribution equal to 50% of participant deferral contributions up to 6% of a participant's eligible compensation calculated each plan year. The contribution period for purposes of calculating the amount of employer matching contributions is each plan year. The match was suspended as of November 1, 2012 through December 31, 2013.

The Company may make a discretionary profit sharing contribution to the Plan. There was no profit sharing contribution for the years ended December 31, 2012 or 2011.

Participants are immediately vested in their voluntary salary deferral contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contributions plus actual earnings thereon is based on years of continued service as follows:

<u><i>Years of Service</i></u>	<u><i>Percentage Vested</i></u>
Less than 1	0%
1 but less than 2	25%
2 but less than 3	50%
3 but less than 4	75%
4 or more	100%

Participant Accounts - Individual accounts are maintained for each of the Plan's participants and credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings and administrative expenses. Participant accounts are valued on a daily basis based on quoted market prices. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

CMC ICOS BIOLOGICS, INC. 401(k) PLAN

Notes to Financial Statements

For the Years Ended December 31, 2012 and 2011

Note 1 - Continued

Notes Receivable from Participants - Plan participants may borrow from their fund accounts, generally for periods not to exceed five years, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. If loans are for the purchase of a primary residence, repayment periods can extend up to 10 years. Interest is paid by the borrower at a rate determined by the administrator based on the prevailing interest rates for loans made under similar circumstances and is retained in the borrower's account until the account balance is withdrawn.

Investment Options - Participants may select one or more predetermined investment options to invest contributions and allocated earnings. Contributions are deposited directly into the participant elected investment vehicles.

The Plan provides for various investment fund options which in turn invest in mutual funds or money market funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of Benefits - Upon retirement, disability or termination, a participant may elect to take a distribution up to the vested balance of the participant's account or rollover the vested balance into another qualified plan. Participants may defer the receipt of their distribution until a later date, however the Plan has the option to distribute all account balances less than \$1,000 without participant consent. Upon death, the participant's vested account balance shall be paid to the designated beneficiary.

Hardship Withdrawals - Under certain conditions, participants, while still employed by the Company, are permitted to withdraw, in a single sum, a minimum of \$500 up to the entire employee contribution portion and vested portion of the employer contribution within their account balance. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition or to prevent eviction or foreclosure from the participant's principal residence. A participant's right to make deferrals to the Plan will be suspended for six months after the receipt of a hardship withdrawal.

Forfeitures - Unapplied forfeited nonvested accounts are used first to reduce future employer contributions payable under the Plan, and then used to pay administrative expense. At December 31, 2012 and 2011, there were \$8305 and \$0 forfeited nonvested accounts. The total forfeited amounts used during the years ended December 31, 2012 and 2011 to reduce employer contributions were \$15,963 and \$15,477, respectively.

Administrative Expenses - The Plan's administrative fees are paid for by the Company and the Plan. Initial loan setup fees are paid by the participants. Investment management fees are charged directly against investments and netted with investment income on the statement of changes in net assets available for benefits.

Note 2 - Summary of Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP).

CMC ICOS BIOLOGICS, INC. 401(k) PLAN

Notes to Financial Statements

For the Years Ended December 31, 2012 and 2011

Note 2 - Continued

Investment Valuation and Income Recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are accrued as earned. Net appreciation or depreciation in fair value is the net gain or loss on disposition of investments plus the net unrealized increase or decrease in fair value during the year of investments held at year-end.

Use of Estimates - The preparation of financial statements, in conformity with GAAP, requires the plan administrator to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest, if any, would not have a material impact on the Plan's financial statements. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits paid to participants are recognized when paid. There were no amounts allocated to accounts of participants who had elected to withdraw from the Plan but had not yet been paid as of December 31, 2012 or 2011.

Subsequent Events - The Plan's management has evaluated subsequent events through September 16, 2013, the date on which the Plan's financial statements were available to be issued.

Note 3 - Certified Investment Information

The Plan's management elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by a trust company need not be subjected to independent audit. The Plan's management has obtained certification from the trustee, Fidelity Management Trust Company (Fidelity), that the following information provided by the trustee and included in the Plan's financial statements and supplementary information is complete and accurate:

- Fair value of investments as of December 31, 2012 and 2011;
- Investment income earned and losses incurred for the years ended December 31, 2012 and 2011; and
- Investment transactions for the years ended December 31, 2012 and 2011.

Note 4 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, all participants immediately become 100% vested in their respective account balances.

CMC ICOS BIOLOGICS, INC. 401(k) PLAN

Notes to Financial Statements

For the Years Ended December 31, 2012 and 2011

Note 5 - Taxes Status

The Company has adopted a Prototype Standardized Profit Sharing Plan with a deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, stating that the Plan and its related trust are designed in accordance with applicable sections of the IRC. The prototype plan has been amended since the date of the favorable opinion letter. However, the plan administrator believes that the Plan and its related trust are designed and currently operating in compliance with the applicable requirements of the IRC.

The Plan is subject to audits by the IRS for certain tax periods based on applicable laws and regulations; however, there are currently no audits for any tax periods in progress.

Note 6 - Party-In-Interest Transactions

Certain plan investments are shares of mutual funds and a money market account managed by an entity affiliated with Fidelity, the trustee of the Plan. These transactions qualify as exempt party-in-interest transactions.

Note 7 - Investments

The following table identifies investments that represent 5% or more of the fair value of the Plan's net assets as of December 31 2012 and 2011:

	<u>2012</u>	<u>2011</u>
Fidelity Contra Fund*	\$ 779,569	\$ 608,007

* Represents party-in-interest transactions.

* Individual investment fund does not represent 5% or more of net assets at respective year end.

Note 8 - Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

CMC ICOS BIOLOGICS, INC. 401(k) PLAN

Notes to Financial Statements

For the Years Ended December 31, 2012 and 2011

Note 8 - Continued

The three levels of the fair value hierarchy under this guidance are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Fund - Valued at cost plus accrued interest, which approximates fair value.

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:
