DAVID PEYSER SPORTSWEAR, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

1 - DESCRIPTION OF PLAN

The following description of the David Peyser Sportswear, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all nonunion full-time current and former employees of David Peyser Sportswear, Inc. (the "Company"). The Company is the plan sponsor and plan administrator. Reliance Trust Company serves as the trustee of the Plan. ING Institutional Plan Services, LLC serves as the Plan's recordkeeper. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute a portion of their pre-tax compensation, as defined in the Plan, subject to certain Internal Revenue Code ("Code") limitations. All eligible employees who have attained age 21 can make pre- and after-tax contributions. Participants who have attained age 21 must complete 1,000 hours of service and be employed on the last day of the plan year to meet the requirements for a discretionary matching contribution. The Company may make profit sharing and matching contributions at its discretion. The Company did not make any contributions during the year ended December 31, 2012. Contributions are subject to a ceiling defined by the Code.

The Plan also permits eligible employees who are age fifty or older by the end of the calendar year to make catch-up contributions. Matching contributions do not apply to catch-up contributions.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, if applicable, and plan earnings. Each participant's account is charged with withdrawals and plan losses and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers a common collective trust and mutual funds as investment options for participants.

1 - DESCRIPTION OF PLAN (Continued)

Investments (Continued)
The Pension Protection Act created the Qualified Default Investment Alternative ("QDIA"). The QDIA provides employers a safe harbor from fiduciary risk when selecting an investment for a participant or beneficiary who fails to elect his or her own investment. The Plan has selected the SSGA Money Market Fund as the QDIA.

The MCM Stable Asset Fund ("MCM") is a common collective trust, reported as a fully benefit-responsive contract, which invests in conventional, synthetic and separate account investment contracts issued by life insurance companies, banks and other financial institutions. The principal value of MCM remains stable as it has all or a portion of its assets invested in high quality money market instruments, investment companies and collective investment trusts. Morley Capital Management is the investment advisor for MCM.

Vesting
Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in Company contributions plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant Loans
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, subject to certain other restrictions. The loans are secured by the balance in the participant's account and bear interest at 5.25%, commensurate with local prevailing rates as determined by the plan administrator. Loan terms range from 1 to 10 years. Principal and interest are paid ratably through payroll deductions.

Hardship Withdrawals
The Plan provides for hardship withdrawals, not to exceed an amount required to meet the immediate need created by the hardship, and then only to the extent such immediate need cannot be satisfied by other sources readily available to the participant. Permissible circumstances for hardship withdrawals include education expenses, costs directly related to the purchase of a principal residence, and costs necessary to prevent eviction from the participant's personal residence, and such other circumstances as the plan administrator may determine based on rules set forth in the Internal Revenue Service regulations. Salary deferral contributions are suspended for six months after withdrawal.

Forfeitures
Forfeitures of amounts not vested are used to reduce the Company's future contributions. There were no forfeitures during the year ended December 31, 2012.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The Company has adopted a policy of preparing its financial statements on the modified cash receipts and disbursements basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("GAAP"). The basis differs from GAAP in that dividend and interest income is recorded as earned, the purchase and sale of securities are recorded on a trade-date basis and dividends are recorded on the ex-dividend date.

Use of Estimates
Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

Notes Receivable from Participants
Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. Related fees are recorded as administrative expenses and are expensed when incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a deemed distribution is recorded.

Investment Valuation
GAAP defines fair value, provides guidance for measuring fair value and requires certain disclosures. GAAP discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). GAAP provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect management's own assumptions.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation (Continued)
The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Fund
Shares in the SSGA Money Market Fund are valued at amortized cost which approximates current market value and are considered to be valued using Level 2 inputs.

Mutual Funds
Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Investments in mutual funds are classified as Level 1 assets.

Common Collective Trust - MCM
Investments in the common collective trust consist of investments in MCM. The fair value of these investments is determined by MCM's trustee based on the fair value of the underlying securities within MCM, which represents the net asset value of the shares held by the Plan at year-end. Investments in MCM are classified as Level 2 assets.

Fully Benefit-Responsive Investment Contracts
As described by GAAP, common collective trusts relating to fully benefit-responsive investment contracts held by a defined contribution plan are to be reported at fair value. However, contract value is the relevant measurement criteria for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

As of December 31, 2012 and 2011, the Plan held an interest in MCM as an investment option available to participants. MCM is managed by Union Bond & Trust Company ("UBT") and is fully invested in the UBT Stable Value Fund ("Stable Value Fund"), another collective trust fund. Stable Value Fund invests in conventional, synthetic and separate account investment contracts (collectively, "contracts") issued by life insurance companies, banks and other financial institutions. Characteristics of these contracts allow for their principal value to remain stable regardless of the volatility of the financial markets. For liquidity purposes, the Stable Value Fund may have all or a portion of its assets invested in high-quality money market instruments, investment companies and collective investment trusts. The Stable Value Fund also employs the services of sub-advisors to provide strategy-specific advice wherein the sub-advisor is compensated directly from the earnings of that strategy and not out of the trustee management fee.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fully Benefit-Responsive Investment Contracts (Continued)
Contract value of MCM represents contributions plus earnings, less participant withdrawals and administrative expenses. Ordinary MCM fees are paid from the assets of MCM. In 2012, ordinary expenses were approximately .33% and include, among other things, accounting fees, custodial fees and audit fees. UBT receives .17% annually for trusteeship and management fees. UBT also pays ING Retirement Services a service fee of either .25% or .35% annually for services that include recordkeeping services to the Plan, furnishing reports and transmitting assets between plans and UBT.

Income Recognition
Net appreciation in the fair value of investments includes both realized and unrealized gains and losses, based on the value of assets at the beginning of the year or at the time of purchase during the year.

Payment of Benefits
On termination of service due to death, disability, retirement or other reasons, a participant is entitled to receive a lump-sum amount equal to the value of his or her vested account.

Valuation of accounts is made as of the last day of the month in which the participant's employment is terminated. Benefit claims are recorded as expenses when they have been approved for payment and paid by the Plan.

Administrative Expenses, Management Fees and Operating Expenses
The Company is responsible for certain costs and expenses of administering the Plan such as trustee fees. Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in net appreciation in fair value of such investments.

Subsequent Events
These financial statements were approved by management and available for issuance on October 2, 2013. Management has evaluated subsequent events through this date.

MCM	$ 7,212
Mutual funds	212,176
	$ 219,388

6 - RELATED PARTY TRANSACTIONS

Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation, recordkeeping and financial reporting of the Plan. The Company pays these individuals' salaries and also pays other administrative expenses on behalf of the Plan. Certain fees, to the extent not paid by the Company, are paid by the Plan.

7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Participants may invest in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

8 - INCOME TAX STATUS

The Company adopted a pre-approved prototype plan offered by the Plan's trustee. The Internal Revenue Service has determined that the prototype plan, by letter dated July 27, 2005, is designed in accordance with applicable sections of the Code. Although the plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code.

Federal, state and local income tax returns for years prior to 2009 are no longer subject to examination by tax authorities.

9 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in employer contributions.

10 - CORRECTIVE DISTRIBUTIONS

During the year ended December 31, 2012, corrective distributions of $9,655 were made to certain active participants to refund excess contributions required to satisfy the relevant nondiscrimination provisions of the Plan.
