NOTES TO FINANCIAL STATEMENTS

December 31, 2012 and 2011

NOTE A - DESCRIPTION OF PLAN

The following description of the Palm Beach Tan, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan pursuant to Section 401(a) of the Internal Revenue Code ("IRC") covering all employees of Palm Beach Tan, Inc. (the "Company") who have completed twelve months of service and one thousand service hours by the end of a twelve month period, and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 60% of eligible compensation, as defined in the Plan, subject to annual statutory limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a broad range of investment alternatives for participants. The Company may make a discretionary matching contribution, by a Board of Directors' Resolution, equal to a percentage amount of each participant's deferral contributions made during the contribution period. In 2013, the board approved and paid a discretionary matching contribution equal to 50% of the amount employees contributed to the Plan during fiscal year 2012, up to a maximum of 6% of the employee's total compensation. In 2012, the board approved and paid a discretionary matching contribution equal to 50% of the amount employees contributed to the Plan during fiscal year 2011, up to a maximum of 6% of the employee's total compensation. In 2013 and 2012, the board paid a discretionary matching contribution of $152,262 and $142,795, respectively. The contribution period for purposes of calculating the amount of basic matching employer contributions is each Plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary matching contribution, and (b) Plan earnings or losses. Allocations are based on participant compensation. Earnings (or losses) of the Plan are allocated based on the participant's investment balances and performance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN - Continued

Vesting

Participant contributions, plus actual earnings thereon, are vested immediately. Vesting in the Company's contribution portion of their accounts is based on years of service as follows:

Participant's Years of Service	Vested Percentage
One year	20%
Two years	40%
Three years	60%
Four years	80%
Five years or more	100%

The term "years of service" includes all periods of employment except for years in which an employee worked less than 1,000 hours. For purposes of vesting, the "year" is defined as a calendar year.

A participant is 100% vested, regardless of years of service, upon disability or death.

Notes Receivable From Participants

Participant loans are not allowed, in accordance with the Plan document.

Payment of Benefits

The participant or beneficiary may elect to receive a distribution upon retirement, termination (elective or due to disability), death, or in the event of financial hardship. Fidelity Management Trust Company (the "Trustee") pays any benefit provided by the Plan directly to the participant or in the form of a direct rollover to another qualified plan or an Individual Retirement Account. All distributions are made in lump-sum amounts up to the value of the funds allocated to the account of the participant, or substantially equal amounts over a period of time. Special rules apply to a distribution due to the financial hardship.

Forfeitures

The nonvested portion of a terminated participant's account is forfeited upon the earlier of distribution of the entire vested account balance or five consecutive one-year breaks in service. Forfeiture amounts were approximately $14,332 and $24,326 as of December 31, 2012 and 2011, respectively. Forfeitures are used to offset employer matching contributions or reduce plan expenses, as permitted by the Plan document. In 2012, forfeitures used to offset employer match contributions were $57,679 and forfeitures used to reduce plan expenses were $7,945.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. At December 31, 2012, excess employee and employer contributions totaled approximately $4,886 and $100,625, respectively. The Plan distributed the 2012 excess contributions to the applicable participants prior to March 15, 2013.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

NOTE C - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the statements of net assets available for plan benefits as of December 31, 2012 and 2011.
- Total investment income, as shown in the statement of changes in net assets available for plan benefits for the year ended December 31, 2012.
- The schedule of assets (held at end of year) as of December 31, 2012, as shown on Schedule H, Part IV, Line 4i.

At the request of the Plan administrator, the Plan's independent certified public accountants did not perform procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. All other information has been audited in accordance with auditing standards generally accepted in the United States of America.

NOTE D - INVESTMENTS

The following investments represent 5% or more of the net assets available for benefits as of December 31,

	2012	2011
Fidelity Retirement Money Market Portfolio	$474,836	$476,718
Fidelity Diversified International Fund	178,907	123,000
Fidelity Intermediate Bond Fund	126,868	*
Fidelity Freedom 2040 Fund	121,791	*
Fidelity Investment Grade Bond Fund	119,224	*

*Investment represents less than 5% of the Plan's net assets available for benefits as of December 31, 2011, as indicated.

During 2012, the Plan's investments (including gains and losses on investments purchased, sold, as well as held during the year) appreciated in fair value by $183,069 all attributable to mutual funds.

NOTE E - FAIR VALUE MEASUREMENTS

The Plan uses a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money Market Funds: These investments are public investment vehicles valued using $1 for the NAV.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

NOTE E - FAIR VALUE MEASUREMENTS - Continued

The following tables sets forth by level, within the fair value hierarchy, the plan's fair value measurement at December 31, 2012 and 2011.

	Assets at Fair Value as of December 31, 2012		
	Level 1	Level 2	Total
Mutual funds			
Fixed Income	$ 310,867	$ -	$ 310,867

	$1,833,688	$474,836	$2,308,524

Money market fund	-	476,718	476,718
	$1,366,725	$476,718	$1,843,443

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Trustee of the Plan. Certain fees paid to the custodian for investment management services are incorporated into the expense ratios of the individual mutual funds. These transactions qualify as party-in-interest transaction.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

NOTE H - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes the Plan is qualified and the related trust is tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
