INDEPENDENT AUDITORS' REPORT

To the Fiduciary Committee of
Freeport Welding & Fabricating, Inc. Employee Stock Ownership Plan
Houston, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of Freeport Welding & Fabricating, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets (deficit) available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Re: Independent Auditors' Report

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits as of December 31, 2012 and 2011, and the changes in net assets (deficit) available for benefits for the year ended December 31, 2012, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Freeport Welding & Fabricating, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for complete information.

Freeport Welding & Fabricating, Inc. (the Company) established the Plan effective January 1, 2009, as a qualified retirement plan designed to comply with the regulations of the Internal Revenue Code (IRC) so employees may share in the profits of the Company. The purpose of the Plan is to reward employees for long and loyal service to the Company, and to provide them an incentive to increase their productivity. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). An independent third-party trustee has been appointed. No part of the Plan can be used by the Company as it is for the exclusive benefit of eligible employees of the Company and their beneficiaries.

The Plan purchased Company preferred stock by borrowing $7,475,000 from the Company (*see Note 4*), and holds the preferred stock in a trust held by the Plan. The borrowing is to be paid over a period of eight years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Internal Revenue Code (IRC). Shares vest over a six year period.

The borrowing is collateralized by the unallocated shares of preferred stock. The lender has no rights against the shares of preferred stock once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2012 and 2011, and for the year ended December 31, 2012, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in the allocated preferred stock (allocated) and preferred stock not yet allocated to employees (unallocated).

Eligibility – All full-time employees of the Company are eligible to participate in the Plan after attaining age 18 and completing 500 hours of service. Eligible employees become a participant on the June 30th or December 31st coincident with or next following completion of eligibility requirements.

Contributions – The Company intends to make contributions to the Plan. These contributions will be invested primarily in preferred stock of the Company. When a participant retires, they will be entitled to receive the preferred stock and the value of any other assets that have been credited to their account, but they will be required to immediately sell the preferred stock to the Company or back to the Plan. Contributions are allocated annually pro-rata based upon current year compensation to participants who retired, became disabled or died during the year, or are employed on the last day of the year and have completed 500 hours of service during the Plan year. The Plan may permit rollover contributions from other plans.

Voting Rights – Each participant is entitled to direct the trustee as to how to vote the shares of Company preferred stock allocated to eligible participants with respect to any proposed corporate merger or consolidation, racialization, reclassification, liquidation, dissolution, or sale of substantially all of the assets of a trade or business of the Company. The trustee will vote the shares of preferred stock held in the Plan on all other matters in their discretion. All other shareholder rights with respect to the preferred stock held in the Plan will be exercised by the trustee, solely in the interest of the participants in the Plan and their beneficiaries.

Diversification – Diversification of preferred stock investments will be available to participants that reach age 55 and have completed 10 years of participation in the Plan. The participants may make this election over a period of six Plan years. The amount available for diversification is 25% of the value of the preferred stock credited to their account for each of the first five years and 50% of the value of the preferred stock for the sixth year, reduced by any amounts previously elected to be diversified.

The election must be received within 90 days after the close of the Plan year in which diversification was elected. The diversified amounts are to be invested among three or more investment funds consisting of differing types of properties and offering different degrees of risk and potential reward.

Put Option – Under federal income tax regulations, the preferred stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its preferred stock distributed to participants for which there is no market. The put price is representative of the fair market value of the preferred stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts – As of the last day of each Plan year, all Company preferred stock which is released from the suspense account, supplemental contributions, and forfeitures for the year will be allocated to the accounts of eligible participants in the same proportion as the ratio which each eligible participant's compensation bears to the total compensation of all eligible participants for the year. Investment earnings and expenses are totaled and allocated to all participants based upon the beginning balance in their cash account less any distributions from such accounts since the preceding allocation date. The benefit to which a participant is entitled is the benefit that can be produced from the participant's vested account.

Vesting – Participants become 100% vested in all accounts upon normal or late retirement, disability or death. Vesting in employer contributions is based on years of credited service with the Company according to a graded vesting scale, with participants being 20% vested after two years of credited service and 100% vested after six years of credited service. A participant is credited with a year of service in which they are credited with at least 1,000 hours of service.

Payment of Benefits – Distributions to participants from the Plan will be made upon retirement, death, or termination of employment. Distributions are paid in a single lump sum distribution or installment payments over a period generally not to exceed five years, unless the participant elects to receive benefits over a longer period of time. The participants have the right to elect to receive the balance credited to their account in the form of Company preferred stock, subject to the requirement that the preferred stock must be immediately sold to the Company or back to the Plan at a price equal to its fair market value (as determined by an independent professional appraiser as of December 31 of the immediately-preceding year). The Company or the Plan will have the option to pay the purchase price for the participant's preferred stock in one lump sum or in substantially equal, annual installments over a period not exceeding five years, with interest.

Administrative Expenses – As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Forfeitures – If a participant leaves the Company for any reason other than retirement, disability, or death, any balance in their account in excess of the nonforfeitable (vested) amount will be deducted from their account and credited to the accounts of other participants. Forfeitures are allocated annually pro-rata based upon current year compensation to participants who retired, became disabled, or died during the Plan year or are employed on the last day of the year and have completed 500 hours of service during the year.

Plan Termination – The Company intends to continue the Plan indefinitely. However, the Company does reserve the right to amend or even terminate the Plan. If the Plan is terminated or partially terminated, the date of termination or partial termination will be a valuation date; and after all adjustments required on a valuation date have been made, participants' benefits will be nonforfeitable. If the participant remains an employee of the Company after termination of the Plan, the amount of their benefits will be retained in the Plan. If the participant's employment with the Company is terminated at the same time that the Plan is terminated, or if the participant is affected by a partial termination of the Plan, their benefits will be paid in a lump sum.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America (GAAP) requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The shares of the Company's preferred stock are valued at estimated fair value by an independent third party appraiser each year as of December 31st. See *Note 3* for discussion of fair value measurements.

Dividend income is accrued on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events – The Plan has evaluated subsequent events through October 4, 2013, the date the financial statements were available to be issued.

Recent Accounting Pronouncements – The Company has evaluated recent accounting pronouncements and their adoption has not had or is not expected to have a material impact on the financial statements of the Plan.

NOTE 3 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1** – Quoted prices in active markets for identical assets or liabilities.

- **Level 2** – Inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

- **Level 3** – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Preferred Stock – The fair value of the Company preferred stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. The Company has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves the Company's selection of an independent appraiser under contract with the right to cancel such contract at any time. The Company accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which the Company, along with the trustee, reviews in detail, discusses and approves.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	December 31, 2012			
	Level 1	Level 2	Level 3	Total
Preferred stock of Freeport Welding & Fabricating, Inc.	**$ -**	**$ -**	**$ 7,599,000**	**$ 7,599,000**
Total assets at fair value	**$ -**	**$ -**	**$ 7,599,000**	**$ 7,599,000**

	December 31, 2011			
	Level 1	Level 2	Level 3	Total
Preferred stock of Freeport Welding & Fabricating, Inc.	$ -	$ -	$ 5,400,000	$ 5,400,000
Total assets at fair value	$ -	$ -	$ 5,400,000	$ 5,400,000

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012.

	Preferred Stock
Balance, beginning of year	$ 5,400,000
Unrealized gain relating to assets still held at the reporting date	2,199,000
Balance, end of year	$ 7,599,000

The amount of total gains for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 2,199,000

Gains and losses (realized and unrealized) included in changes in net assets for the year above are reported in net appreciation in fair value of investments in the statement of changes in net assets (deficit) available for benefits.

NOTE 4 – NOTE PAYABLE

On June 18, 2010, the Plan entered into a $7,475,000 term note agreement with the Company. The proceeds of the note were used to purchase the Company's preferred stock for a price equal to fair market value, as determined by an independent professional appraiser. Unallocated shares are collateral for the note. Shares are released from collateral and allocated to participants as payments of principal and interest are made. This resulted in 114,993 shares being released and allocated for the plan year ended December 31, 2012.

The agreement provides for the note to be repaid by December 31, 2017. The note bears interest at a fixed rate of 4.50% annually.

The scheduled amortization of the note payable for the next five years and thereafter is as follows:

For the Year Ending December 31,	Amount
2013	$ 747,500
2014	747,500
2015	747,500
2016	747,500
2017	141,893
Total	$ 3,131,893

NOTE 5 – EMPLOYER CONTRIBUTIONS

The Company will make contributions to the Plan sufficient to enable the trustee to pay the principal and interest on the note. Dividends paid on Company preferred stock purchased with note proceeds also may be used to pay principal and interest on the note. The Company may also forgive principal and interest amounts due under the note. Each year, shares of preferred stock will be released from the suspense account, and allocated to the accounts of the eligible participants in the Plan, in the proportion that the principal and interest paid on the loan for the year bear the sum of the principal and interest paid in the current year plus the remaining principal and interest expected to be paid on the note, using the interest rate in effect on the note as of the last day of the year.

In addition to the employer contributions made to enable the trustee to pay off the note, the Company may, in its sole discretion, make additional supplemental contributions to the Plan. Supplemental contributions will be used primarily to pay down the loan or to buy preferred Company stock, which will be allocated to the accounts of participants. Company preferred stock purchased with supplemental contributions will not be held in the suspense account.

NOTE 6 – NON PARTICIPANT-DIRECTED INVESTMENTS

The Plan's investments at December 31, are as presented in the following tables:

	2012		
	Allocated	Unallocated	Total
Number of preferred shares	**261,238**	**38,762**	**300,000**
Cost	**$ 6,510,051**	**$ 964,949**	**$ 7,475,000**
Fair value	**$ 6,617,156**	**$ 981,844**	**$ 7,599,000**

	2011		
	Allocated	Unallocated	Total
Number of preferred shares	146,245	153,755	300,000
Cost	$ 3,644,425	$ 3,830,575	$ 7,475,000
Fair value	$ 2,632,403	$ 2,767,597	$ 5,400,000

NOTE 7 – CONCENTRATION OF INVESTMENTS

Included in investments at December 31, 2012 and 2011 are shares of the Company's preferred stock amounting to $7,599,000 and $5,400,000, respectively. This investment represents 77% and 95% of total assets at December 31, 2012 and 2011, respectively.

NOTE 8 – ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of the Company's preferred shares, are held by the trustee of the Plan.

Employer contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The trustee also administers the payment of principal and interest on the note payable.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Company.

NOTE 9 – RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

The Plan invests in Company preferred stock and has indebtedness guaranteed by the Company. These are related party and party in interest transactions. The Plan has a number of service providers. Such parties are parties in interest under ERISA.

NOTE 10 – TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated September 13, 2013, stating that the Plan is qualified under the appropriate sections of the IRC and, therefore, the related trust is exempt from taxation. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 11 – RISKS AND UNCERTAINTIES

The Plan's investments consist primarily of the Company's preferred stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the preferred stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the preferred stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets (deficit) available for benefits.
