401(k) RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of Nidec Minster Corporation 401(k) Retirement Savings Plan (the Plan) provides only general information. Effective January 1, 2013, the Plan Sponsor changed its legal name from The Minster Machine Company to Nidec Minster Corporation (the Company, Plan Sponsor, and Employer). Accordingly, the Plan changed its name from The Minster Machine Company 401(k) Retirement Savings Plan to Nidec Minster Corporation 401(k) Retirement Savings Plan. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions which are available from the plan administrator.

General

The Plan is a defined contribution plan covering all regular full-time and part-time employees of Nidec Minster Corporation who have attained age 18. The Company's participants are made up of the Minster office group and Minster union employees. Leased employees, nonresident aliens, co-op students and temporary employees are ineligible for participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute the maximum percentage and dollar limits permissible under Section 402(g) not to exceed the limits of sections 401(k), 404, and 415. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age 50 before the end of Plan year are eligible to make catch-up contributions. The Company may make a safe harbor and non-safe harbor contributions for eligible participants. For the 2012 Plan year, the Company authorized a discretionary contribution of \$501,926. Additionally, the Company makes a matching contribution equal to 50% of a participant's deferral, limited to 4%.

Rollovers

The Plan allows rollovers received by a participant as a distribution from another qualified plan after approval from the Plan sponsor. Participants are fully vested in these amounts.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of (1) Company discretionary contributions and (2) Plan earnings, and charged with an allocation of Plan losses, distributions or withdrawals and fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Company matching contributions are subject to a 3-year cliff vesting schedule. Nonelective safe harbor contributions are 100% vested immediately.

Notes Receivable from Participants

Participants may borrow from their vested accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years and are not to exceed 5 years. The loans are collateralized by the balance in the participant's account and bear an interest rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. Interest rates on participant loans ranged from 4.25% to 10.25% as of December 31, 2012 and 2011.

Payment of Benefits

On termination of service due to death, disability, or retirement, or other reasons a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

Upon termination of employment, a participant's nonvested portion of Company contributions and related earnings are forfeited. These amounts are used to reduce future Company contributions. At December 31, 2012 and 2011, forfeited nonvested accounts totaled \$157 and \$946, respectively. Forfeitures used to reduce Employer contributions in 2012 were \$946.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Investment Valuation and Income Recognition

The Plan's participant-directed investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividends.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fully Benefit-Responsive Investment Contracts

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the Plan's investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All administrative expenses of the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through September 17, 2013, the date the financial statements were available to be issued.

NOTE 3 - INFORMATION CERTIFIED BY TRUSTEE

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedules as of December 31, 2012 and 2011 and for the year ended December 31, 2012 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these Plan assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 5 and the supplemental schedules related to the Plan's assets.

T. Rowe Price Trust Company also certified to the completeness and accuracy of \$2,477,795 of net appreciation in fair value of investments, \$812,431 of dividends related to investments, and \$4,743 of interest income from notes receivable from participants for the year ended December 31, 2012.

NOTE 4 - INVESTMENTS

The following presents the fair value of investments that represent 5% or more of the Plan's net assets at December 31:

	<u>2012</u>	<u>2011</u>
Common collective trust:		
T. Rowe Price Stable Value Fund	\$ 8,709,676	\$ 7,809,647
Mutual funds:		
T. Rowe Price Retirement Fund 2020	2,711,250	2,150,377
T. Rowe Price International Growth & Income	*	1,398,647

T. Rowe Price Growth Stock Fund	3,087,352	2,615,993

* Represents less than 5% of the Plan's net assets.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value by \$2,477,795 as follows:

Mutual funds	\$ 2,346,540
Tradelink	131,255
	<u>\$ 2,477,795</u>

NOTE 5 - FAIR VALUE MEASUREMENTS

The Plan has determined the fair value of certain assets and liabilities through application of accounting guidance that establishes a framework for measuring fair values.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Standards require the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, standards establish a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Mutual funds are valued based on net asset values reported in the active market and shares held by the Plan at year-end.

Common/collective trusts: Valued at the net asset value (NAV) of shares held by the Plan at year end, as reported to the Plan by the trustee. A fund's NAV reflects an exit price, is the same for all holders of the fund, and provides the basis for current transactions.

Tradelink: Valued based on the fair value of the underlying stocks and mutual funds, which are valued at the closing price reported on the active markets on which the stocks are traded and the NAV of shares held at year end, respectively.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets Measured at Fair Value on a Recurring Basis

The following table summarizes assets measured at fair value on a recurring basis as of December 31, 2012 and 2011, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

NOTE 6 - RELATED-PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds and common collective trust managed by T. Rowe Price Trust Company, the Plan trustee and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

NOTE 8 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter, however, the plan management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations for years before 2009.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

The following is a reconciliation of the net increase per the financial statements to the net income per the Form 5500 for the year ended December 31, 2012:

Net increase per financial statements	\$ 4,629,051
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	<u>86,637</u>
Net income per Form 5500	<u><u>\$ 4,715,688</u></u>

NOTE 11 - RECENT ACCOUNTING PRONOUNCEMENT

Fair Value Measurements and Disclosures

During 2012, the Plan adopted new accounting guidance related to fair value measurements and disclosures that result in common fair value measurements and disclosures between U.S. GAAP and International Financial Reporting Standards. This guidance limits the highest-and-best use measure to non-financial assets, permits certain financial assets and liabilities with offsetting positions in market or counter-party credit risks to be measured on a net basis, and provides guidance on the applicability of premiums and discounts. Additionally, the guidance expands the disclosure requirements for level three inputs by requiring quantitative disclosure of unobservable inputs and assumptions, as well as a description of the valuation processes. The adoption of this guidance did not have a material impact on the Plan's financial statements.
