NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012

1. DESCRIPTION OF PLAN

The following description of the Equipment Depot, Ltd. Employees' Salary Reduction Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Equipment Depot, Ltd. (the "Company") who are age 19 or older and have completed 90 days of service, except members of a collective bargaining unit and non-resident aliens who are specifically excluded from participating in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee Contributions

Pursuant to Section 401(k) of the Internal Revenue Code (the "IRC"), participants may contribute up to the lesser of 100% of their compensation or \$17,000 for 2012. Participants who have attained age 50 before the end of the Plan year may also make catch-up contributions of up to \$5,500 for 2012. All participants' accounts are fully vested at all times.

Employer Contributions

The Company makes a discretionary matching contribution based on employee deferrals. During 2012, the Company matched 30% of employee deferrals up to 6% of compensation.

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the discretionary Company's matching contribution, and Plan earnings, which are allocated proportionately among all participants based on their investment in each fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Employer contributions are 20% vested to the participant after two full years of service, 20% for each additional year of service and fully vested after six years. Full vesting also occurs upon death, total disability or retirement at or after age 65.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$600 up to a maximum of \$50,000, not to exceed 50% of their vested account balances. A participant may only have one loan outstanding at any time. Loan terms range from one to 5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the participant's account under the Plan and bear interest from 4% to 9.25%. Principal and interest are generally paid by payroll deduction.

Payment of Benefits

Upon termination of service, a participant may elect to receive a lump sum amount equal to the value of his or her account or periodic installments.

Forfeitures

A forfeiture is the non-vested portion of a terminated participant's account balance. The forfeited amount remains in the Plan and is first used to reduce any administrative fees and then any subsequent discretionary employer contributions. As of December 31, 2012 and 2011, there were no unallocated forfeitures in the Plan.

Investment Options

The assets of the Plan are allocated to the various funds at the direction of the participant.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. The Plan's administrative expenses are paid by the Plan as provided by the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded on the Schedule H of the 5500. Under generally accepted accounting principles, the defaulted loan will remain a note receivable from participant until a distributable event occurs. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition

The investments in all of the funds, except the stable value fund, are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2012 and 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The stable value fund is fully benefit-responsive and is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, less distributions. Fair value of the investment in the stable value fund is estimated by the custodian using discounted cash flows.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

3. INVESTMENTS

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
and

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds –

Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Stable value fund –

Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Cash and cash equivalents–

Valued at the face value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011.

5. ASSET INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

As of December 31, 2012 and 2011, and for the year ended December 31, 2012, the investment and related activity from which the statement of net assets available for plan benefits, the statement of changes in net assets available for plan benefits, and the supplemental schedule were derived, has been certified by MG Trust Company, LLC, the trustee of the Plan, as being complete and accurate as required by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a fully benefit-responsive investment contract with MetLife. MetLife maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by MetLife. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value, for example, the Plan may not withdraw more than a certain percentage of the beginning of the year balance of the contract without incurring a penalty. Plan management believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable. MetLife may not terminate the contract at any amount less than contract value.

MetLife is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis:

Average yields:

	2012	2011
Based on annualized earnings (1)	3.75%	6.45%
Based on interest rate credited to participants (2)	2.52%	2.96%

1. Computed by dividing the annualized one-day actual earnings of the contract on the last day of the plan year by the fair value of the investments on the same date.
2. Computed by dividing the annualized one-day earnings credited to participants on the last day of the plan year by the fair value of the investments on the same date.

7. RELATED PARTY TRANSACTIONS

Various accounting, administrative, and investment services are provided to the Plan by the third party administrator and the investment advisor. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan as direct compensation for these services amounted to \$70,964 for the year ended December 31, 2012.

10. TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated December 5, 2002 that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administration and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

11. PLAN TERMINATION

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their accounts.

12. PLAN MERGER

The Board of Directors of Equipment Depot, Ltd., the Plan's sponsor, elected to merge the Plan into the Pon North America Inc. Defined Contribution Plan. Pon North America, Inc. is the ultimate U.S. based parent company to Equipment Depot Ltd. All net assets of the Plan were transferred to the new plan effective October 1, 2012.

13. RISKS AND UNCERTAINTIES

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

14. SUBSEQUENT EVENTS

For the year ended December 31, 2012, the Company has evaluated subsequent events for potential recognition and disclosure through October 2, 2013, the date of financial statement issuance. No events requiring disclosure were noted.

To the Board of Directors and Management of
Equipment Depot, Ltd. Employees' Salary
Reduction Plan & Trust

We have conducted a DOL limited-scope audit of the financial statements of Equipment Depot, Ltd. Employees' Salary Reduction Plan and Trust for the year ended December 31, 2012 and have issued our report thereon dated October 2, 2013. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated March 15, 2013. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Equipment Depot, Ltd. Employees' Salary Reduction Plan & Trust are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2012. We noted no transactions entered into by the Company during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. We noted no significant estimates within the Plan.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no corrected or uncorrected misstatements.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 2, 2013.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Company's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Company's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

During our testing of distributions, we noted cancelled check copies for rollovers did not have any identifying piece of participant information on them. Per discussion with the trust company, the check stubs have the participant's name and account numbers but copies are unavailable.

Other Matters

The main objective of internal accounting control is to segregate accounting duties such that an individual who has access to assets (cash receipts, signed checks, equipment, etc.) does not also have access to the accounting records that control the assets. Proper segregation of duties provides reasonable assurance that an individual would be prevented from removing an asset from the company and concealing that activity by altering the related accounting records. Due to the size of the entity and number of personnel available for accounting duties, there is limited segregation of duties. Accordingly, an appropriate segregation of responsibilities may not be practical in many areas. Until such controls are in place, it is important that management and the Board of Directors consider this when reviewing accounting activities and information.

This information is intended solely for the use of Board of Directors and management of Equipment Depot, Ltd. Employees' Salary Reduction Plan & Trust and is not intended to be, and should not be, used by anyone other than these specified parties.
