INDEPENDENT AUDITOR'S REPORT

To the Participants and Administrative Committee Columbia Machine, Inc. 401(k) Employees' Retirement Plan and Trust Vancouver, Washington

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Columbia Machine, Inc. 401(k) Employees' Retirement Plan and Trust, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Prudential Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Plan Description

The following description of the Columbia Machine, Inc. 401(k) Employees' Retirement Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Columbia Machine, Inc. and Columbia/Okura LLC (the Employers). Columbia/Okura LLC is a joint venture, limited liability corporation formed by Columbia Machine, Inc. and Okura USA, Inc. The Plan was established to provide retirement benefits to the employees and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Prudential Trust Company (Prudential) is the Plan's trustee and record keeper.

Eligibility

Employees of the Employers are eligible to participate in the Plan if they satisfy all of the following: (a) completed six months of service and receive compensation from the Employers; (b) are not a nonresident alien who receives no earned income from the Employers, which constitutes income from sources in the United States; (c) are not included in a collective bargaining unit; (d) are not temporary employees or employees who are hired on contract for a special project; and (e) are not an employee of an employer that is a member of a controlled group or affiliate service group of the Employers.

Contributions

Participants may elect to contribute up to 100 percent of their pre-tax eligible compensation as defined in the Plan up to the maximum allowable limitations under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit or defined contribution plans. The Employers have the discretion to make contributions to the Plan. The Employers make two types of contributions - an employer match, which is not subject to vesting, and a profit sharing contribution which is subject to vesting. Both contribution types are discretionary. In May 2009, the Employers suspended both contributions to the Plan. For the years ended December 31, 2012 and 2011, the employers made a match contribution of 50 percent of the first 4 percent of salary deferred. For the year ended December 31, 2012, the Employers made a profit sharing contribution of 2 percent of eligible compensation earned during the period beginning May 28, 2012 through the end of the Plan year. There were no profit sharing contributions made during 2011. Participants direct the investment of their contributions and the Employer contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Employers' contributions, and an allocation of Plan earnings and forfeitures, less administrative expenses, as defined by the Plan. Allocations are based on participant earnings or account balances as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Plan Description, continued

Vesting

Participants are vested immediately in their own contributions and the Employers' matching contributions and related earnings. Vesting in the Employers' profit sharing contributions other than matching contributions and related earnings is based on years of service. Effective January 1, 2007, the discretionary contribution vests at a rate of 20 percent per year commencing after the second year of service and becomes fully vested after six years of service, when the employee attains the normal retirement age, upon death, or upon total and permanent disability.

Prior to the amendment, the Employers' additional discretionary defined contributions vested at a rate of 20 percent per year commencing after the third year of service and became fully vested after seven years of service, when the employee attained the normal retirement age, upon death, or upon total and permanent disability.

Forfeitures

If a participant terminates before becoming fully vested, the unvested portion of his or her account is forfeited. Forfeited accounts totaled \$31,699 and \$6,835 in 2012 and 2011, respectively. For the years ended December 31, 2012 and 2011, \$-0- and \$24,593, respectively, of forfeited amounts were allocated to the remaining participants based on a ratio of the participant's compensation to the total compensation of all active participants as of the last day of the year. Unallocated forfeitures totaled \$38,708 and \$7,009 at December 31, 2012 and 2011, respectively.

Notes Receivable from Participants

The Plan allows a participant to borrow from his or her account a minimum of \$1,000 up to a maximum equal to the lesser of 50 percent of their vested account or \$50,000. Loan terms are variable at the discretion of the Plan Administrator. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions and loan periods range from 1 to 5 years.

Payment of Benefits

Upon termination of service, the participant (or his or her beneficiary) may elect to receive any amount to which the participant is entitled, either by a lump-sum payment or by annual or more frequent installments over a certain period. If the distribution is to be made by periodic payments, the aggregate amount of the participant's account must either be segregated in a qualified account or used to purchase a nontransferable annuity contract for such payments. The period over which the payments are to be made shall not extend beyond the participant's life expectancy or the life expectancy of the participant and his or her designated beneficiary.

Plan Termination

Although they have not expressed any intent to do so, the Employers have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would be 100 percent vested in both their matching and profit sharing contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates under different assumptions or conditions.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements. Investments in registered companies are stated at net asset value based upon the market value of the underlying securities, as determined or provided by Prudential.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). The Plan's interest in the investment contract is recorded at fair value (equivalent to contract value), which is the principal invested in the contract, plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. In the statements of changes in net assets available for benefits, the Plan presents the net appreciation or depreciation in the fair value of its investments, which consists of realized gains or losses and unrealized appreciation or depreciation on those investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefits Payable

Benefits are recorded when paid. Accordingly, benefits payable to persons who have elected to withdraw from the Plan but have not yet been paid have not been accrued. At December 31, 2012 and 2011, there were no amounts payable to participants.

2. Summary of Significant Accounting Policies, continued

Expenses

All administrative and investment management expenses of the Plan are paid by the Plan and allocated to all participants, except for transactional charges such as loan fees, which are paid by the particular participants involved.

Risks and Uncertainties

The Plan invests in various investment securities which are exposed to various risks, such as interest rate, market, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits. Market values of investments may decline for a number of reasons, including changes in prevailing market interest rates, increases in defaults, and credit rating downgrades. The fair value assigned to the investments by the Plan is based upon available information believed to be reliable, which may be affected by conditions in the financial markets. The Plan may not be able to sell its investments when it desires to do so or to realize what it perceives to be its fair value in the event of a sale.

3. Investments

PIMCO Total Return Fund	4,966,416
Dodge & Cox Stock Fund	4,358,956
Europacific Growth Fund	3,742,452
T Rowe Price Mid Cap Growth Fund	3,250,375
Funds held in insurance company general account (unallocated	
contract)	12,392,363

3. Investments, continued

The following table outlines the Plan's investment appreciation (depreciation) (including gains and losses on investments bought and sold as well as held during the year) for the years ended December 31:

		2012		2011
Registered investment companies	<u>\$</u>	4,939,224	<u>\$</u>	<u>(2,011,015</u>)

4. Investment Contract with Insurance Company

During 2008, the Plan entered into a benefit-responsive investment contract with PRIAC. PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by PRIAC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The investment contract is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, the contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. PRIAC maintains reserves as required by insurance regulations. The contract value of the investment contract at December 31, 2012 and 2011, was \$12,279,984 and \$12,392,363, respectively. As of December 31, 2012 and 2011, the fair value equaled the contract value of the investment contract. The crediting interest rate is based on a formula agreed upon with the issuer.

PRIAC sets the declared interest rate on a semi-annual basis effective every January 1 and July 1 and that rate is guaranteed for six months. The minimum interest rate shall be greater than or equal to 1.5 percent.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable to occur.

PRIAC may terminate the investment contract with 90 days' advance notice.

	2012	2011
Average yield:		
Based on actual earnings	2.85%	3.30%
Based on interest rate credited to participants	2.85%	3.30%

5. Plan Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated July 8, 2010, that the Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe the Plan is qualified and not subject to tax.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions in the United States of America; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.

6. Party in Interest Transactions

The Plan's investments represent funds invested in or maintained by Prudential. Prudential is the trustee of the Plan's assets and therefore these investments represent exempt, party in interest transactions.

7. Information Certified by the Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information and the information in the supplemental schedule was certified by the trustee and was not subjected to any auditing procedures performed by the Plan's independent auditor:

	2012		2011	
Investments at fair value: Registered investment companies Funds held in insurance company general account Notes receivable from participants	\$	40,541,753 12,279,984 885,644	\$	35,998,651 12,392,363 845,027
Investment income: Net appreciation (depreciation) in fair value of investments Interest on funds held in insurance company general account Dividends Other Interest on notes receivable from participants		4,939,224 346,062 634,853 40,425 46,516		(2,011,015) 379,979 601,412 33,507 42,391

8. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* (formerly FASB Statement No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under professional standards are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Funds held in insurance general account: Valued at contract value which represents invested principal, plus earnings, less participant withdrawals and administrative expenses.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

8. Fair Value Measurements, continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

9. Subsequent Events

Effective January 1, 2013, the Plan was amended and restated utilizing a Defined Contribution Prototype and Volume Submitter Plan established by The Prudential Insurance Company of America.

Management evaluates events and transactions that occur after the statement of net assets available for benefits date as potential subsequent events. Management has performed this evaluation through the date of the independent auditor's report.
