EMPLOYEES RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Pak-A-Sak, Inc. Employees Retirement Plan (the Plan) is provided for general information purposes only. For more complete information, participants should refer to the current Plan documents.

General

The Plan is a defined contribution retirement plan which provides for the participation of the employees of Pak-A-Sak, Inc., who have completed one year of service and attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and is intended to qualify under Section 401(k) of the Internal Revenue Code (IRC). Under the Plan, each participant has an account for his/her salary deferral contributions, any rollover contributions and for Company matching contributions.

Great-West Life and Annuity Insurance Company serves as the Plan's investment custodian and is responsible for executing all investment transactions.

Contributions

Participants may make salary deferral contributions through payroll deductions of up to 100% of their compensation, as defined in the Plan documents (limited to certain amounts under the IRC). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Additionally, the Company makes a matching contribution which is applied to active participants who made salary deferral contributions to the Plan. The Company matches 50% of each employee's contribution up to a maximum of 6% of compensation, as defined. The employer matching percentage is subject to change each year at management's discretion. Participant and Company contributions are subject to the provisions of the IRC and related regulations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) Company contributions, if any, and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited non-vested accounts totaled $1,772 and $625, respectively. Forfeited balances of terminated participants' non-vested accounts are reallocated as additional employer contributions in the year in which the forfeiture occurs. Forfeitures of $625 were allocated to eligible participants during 2012.

NOTES TO FINANCIAL STATEMENTS
December 31, 2012

NOTE 1 - DESCRIPTION OF PLAN (continued)

Vesting
Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in the Company's matching contribution and any discretionary contribution portion of their accounts plus actual earnings thereon is based on the following schedule:

Years of service	Vesting percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits
On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or periodic payments over the life of the participant and a designated beneficiary, or a period not extending beyond the life expectancy of the participant and designated beneficiary.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Administrative Fees
Third party investment management fees are elective by the participant and are charged directly to the participants' account. All other costs of the Plan are paid by the Plan's sponsor and are not reflected in these financial statements. Other than the elective investment management fees, investment related expenses are included in net appreciation of fair value in investments.

Subsequent Events
The Plan Administrator has evaluated subsequent events through September 28, 2013, the date the financial statements were available to be issued.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition
Investments are stated at fair value, as determined by the investment custodians. The value of the Group Annuity Contract is determined as the value of contributions to the fund plus accrued interest, less distributions. Investments in insurance company shares of registered investment companies are reported at fair value of each accounts underlying assets. In accordance with stating investments at fair value, net unrealized appreciation or depreciation is reflected for the year on the Statement of Changes in Net Assets Available for Benefits.

Gains or losses on security transactions are recorded as the difference between proceeds received and the carrying value of the investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Investment dividends and interest received are reinvested in the corresponding accounts.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Payment of Benefits
Benefit payments are recorded when paid.

Recent Accounting Pronouncements
In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amends ASC 820, Fair Value Measurements. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. ASU 2011-04 became effective for the Plan on January 1, 2012 and did not have a significant impact on the Plan's financial statements.

NOTE 3 - INFORMATION CERTIFIED BY INVESTMENT CUSTODIAN

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, included in the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following assets:

	2012	2011
Investments at fair value:		
Pooled separate accounts	$ 2,403,687	$ 2,151,667
Group annuity contract	$ 91,653	$ 96,998

Great-West Life and Annuity Insurance Company also certified to the completeness and accuracy of $262,015 of net appreciation in fair value of investments and $1,398 of interest related to the aforementioned plan assets for the year ended December 31, 2012.

NOTE 4 - INVESTMENTS

Participants must direct their salary deferral and Company contributions to selected investments as made available and determined by the Administrative Committee. Participants may change their investment options any time throughout the year via direct phone and internet access to Great-West Life and Annuity Insurance Company.

Investments representing 5% or more of the Plan's net assets consist of the following as of December 31:

UBS Pace Government Securities Fixed-Income Y	142,949	231,845

NOTES TO FINANCIAL STATEMENTS

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company reserves the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants will become 100% vested in their accounts and the Plan assets will be distributed in a manner approved by the Internal Revenue Service.

NOTE 6 - TAX STATUS

The Plan has not received a determination letter on their adoption of the non-standardized prototype plan. In accordance with Revenue Procedure 2003-6, the Plan administrator has chosen to rely on the opinion letter, dated March 31, 2008, that has been issued to the prototype plan document sponsor. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code (the Code) to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and has taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2009.

NOTE 7 - TRANSACTIONS WITH PARTIES-IN-INTEREST

At December 31, 2012, the Plan held investments in pooled separate accounts and a group annuity contract with a current value of $402,482 which are managed by Great-West Life and Annuity Insurance Company. Thus, transactions within these investment funds qualify as party-in-interest transactions as defined by ERISA.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - FAIR VALUE MEASUREMENTS

The Plan complies with ASC Topic 820-10, *Fair Value Measurements*, which provides a framework for measuring fair value under generally accepted accounting principles. ASC 820-10 applies to all financial assets and liabilities that are being measured and reported on a fair value basis.

As defined in ASC 820-10, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan uses various methods including market, income and cost approaches. Based on these approaches, the Plan often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities. Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes U.S. Treasury and federal agency securities and federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data. Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

Level 3: Unobservable inputs that are not corroborated by market data. Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

A description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

NOTE 9 - FAIR VALUE MEASUREMENTS (continued)

Group annuity contract: Total contributions to the annuity contract, plus all interest credited to the account, less any amounts transferred or distributed, less fees and expenses.

In determining the appropriate levels, the Plan performs a detailed analysis of the assets and liabilities that are subject to fair value measurement. The following table summarizes the financial assets and liabilities measured at fair value on a recurring basis at December 31:

	Fair Value Measurements Using 2012			
	Level 1	**Level 2**	**Level 3**	**Total**

NOTE 9 - FAIR VALUE MEASUREMENTS (continued)

Changes in Fair Value and Related Gains and Losses
During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $261,994.

The following table summarizes investments measured at fair value based on net asset value (NAV) per share as of December 31, 2012 and 2011:

	2012			
Investments	**Fair Value**	**Unfunded Commitment**	**Redemption Frequency**	**Redemption Notice Period**

Pooled Separate Accounts:				
Short term investment funds (a)	$ 2,248,665	$ -	Immediate	None

(a) This category includes high quality, short term securities in pooled separate accounts. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair values of investments in this category have been estimated using the net asset value per share of the investments.
