1. Description of the Plan

The LifeCare, Inc. 401(k) Plan (the "Plan"), as amended, is a defined contribution plan that was established November 1, 1995, and covers all eligible employees, as defined by the Plan, of LifeCare, Inc. (the "Company" or "Employer").

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan Agreement or Summary Plan Description, not included herein, for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Administration

The Employer holds the Plan in trust and has designated one of its employees as the "Trustee" of the Plan. Massachusetts Mutual Life Insurance Company is the "Custodian" of the Plan's assets.

Eligibility

There is no minimum length of service required to participate in the Plan, and employees are eligible to begin participation on designated monthly enrollment dates provided that they have reached 21 years of age. Employees are eligible to receive Employer discretionary matching contributions after one year of service.

Contributions

Plan participants may contribute a portion of their eligible compensation to their employee deferral accounts, on a tax deferred basis. Participant contributions may not exceed the Federal statutory limit as specified by the Internal Revenue Service ("IRS"). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Employer may make discretionary matching contributions equal to a percentage of an employee's contribution, special discretionary contributions equal to a percentage of an employee's compensation and/or a discretionary contribution in an amount determined by the Employer.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) Employer contributions and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan *(continued)*

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. The vesting on Company's discretionary contribution plus actual earnings thereon is based on years of continuous service. A participant is fully vested in employer discretionary contributions after one year.

Forfeited Accounts

Forfeited accounts are amounts forfeited by employees with a non-vested portion in their account that have terminated their employment and who have withdrawn from the Plan. Forfeited contributions will be used to reduce future Employer contributions. At December 31, 2012 and 2011 forfeited non-vested amounts totaled $14,833 and $14,612. During 2012 no forfeitures were used to reduce Employer contributions.

Payment of Benefits and Withdrawals

The Plan is designed to provide benefits at the time of retirement. However, if employment with the Company is terminated because of death, disability, or any other reason, a request for distribution of a participant's account balance is also allowed. If a participant dies while classified as an active member of the Plan, the participant's beneficiary or beneficiaries are entitled to receive all of the participant's vested account balance. Should a participant become totally and permanently disabled while employed by the Company, the full value of the participant's account balance may be distributed upon request.

Upon termination of employment, the vested amount of the participant's account will be distributed to the participant in a lump-sum cash payment if the participant's vested account balance is less than $5,000. If the account balance is greater than $5,000, the participant's written consent will be required for any distribution including the election of a rollover distribution to a new qualified plan. Otherwise, the Plan Administrator will direct the Trustee to begin distribution no later than April 1 of the calendar year after the participant attains the age of 70½. Upon reaching age 59½, pursuant to the Internal Revenue Code ("IRC"), participants may elect distributions from their accounts without any tax penalty.

Subject to certain limitations prescribed by the Plan and the Code, participants may elect hardship withdrawals. In accordance with the Code, a 10% premature distribution penalty tax may also be imposed on such withdrawals from a participant's account. In addition, the participant cannot make any rollover or employee contributions to the Plan for the six month period following the date of the hardship withdrawal.

Plan Expenses

Administrative fees incurred in connection with loans and participant activity charges are borne by the individual and deducted from their respective Plan assets. Plan administration fees are borne by the Company.

1. Description of the Plan *(continued)*

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their account balance. The loans bear interest at the prime rate and are secured by the participants account. The loans plus interest are repaid through payroll deduction in equal payments over the term of the loan (up to five years). A participant may have no more than one outstanding loan from the Plan at any time. Loans are collateralized by the participant's account balance. Upon termination of service, the principal and accrued interest shall be immediately due and payable.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurements

The Plan follows U.S. GAAP guidance on Fair Value Measurements which defines fair value and establishes a fair value hierarchy organized into three levels based upon the input assumptions used in pricing assets. Level 1 input have the highest reliability and are related to assets with unadjusted quoted prices in active markets. Level 2 inputs relate to assets with other than quoted prices in active markets which may include quoted prices for similar assets or liabilities or other inputs which can be corroborated by observable market data. Level 3 inputs are unobservable and are used to the extent that observable inputs do not exist.

Investment Valuation and Income Recognition

Investments are reported at fair value. Mutual funds are stated at net asset value ("NAV") of shares held by the Plan at year end as. Investments in the insurance company general account is calculated discounting the related cash flows based on current yields of similar instruments with comparable discounts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciations include the Plan's gain and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies *(continued)*

Notes Receivable from Participants

Participant loans are measured at their unpaid principal balance plus any accrued unpaid interest and are classified as loans from participants.

Benefit Payments

Benefit payments are recorded when paid.

Accounting of Uncertainty of Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not to be sustained. The Plan Administrator has analyzed the tax positions and determined that the Plan had no uncertain tax positions that would require financial statement recognition and/or disclosure. The Plan administrator believes that the Plan is no longer subject to examination by the applicable taxing jurisdictions for years prior to 2009.

Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is October 4, 2013.

3. Information Certified (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of Department of Labor's Rules Regulations for Reporting and Disclosure under ERISA. Accordingly, and Massachusetts Mutual Life Insurance Company, the Custodian of the Plan, has certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011, the supplemental Schedule H, Part IV, Line 4i – Schedule of assets (Held at end of year) as of December 31, 2012, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2012.

5. Investment Contract with Insurance Company

The MassMutual Retirement Services (MMRS) Capital Preservation investment option is a market value separate account investment option with a General Investment Account (GIA) "wrapped" by a general account guaranteed to pay a stated rate of return. The underlying assets of GIA are a pool of fixed income securities that includes U.S. Government and government agency obligations, publicly traded investment grade corporate debt, U.S. Government agency mortgage securities, asset-backed securities and other debt and fixed income securities. The securities are "wrapped" by synthetic investment contracts that provide liquidity for participant withdrawals. The issuers of the wrap contracts guarantee a minimum rate of return and provide full benefit responsiveness. Wrap contracts are purchased from issuers rated in the top three long-term rating categories (A- or above). At December 31, 2012 and 2011, there were no reserves against the wrap contracts carrying value due to the credit risk of the issuers.

There are several risks specific to investment contracts. One of the primary risks inlved is credit risk of the contract issuer. Credit risk for security-backed contracts includes risks arising from the potential inability of the issuer to meet the terms of the contract wrapper and the potential default of the underlying fixed-income securities. Secondly, liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest rate risk is also present because rates may be fixed with these products.

5. Investment Contract with Insurance Company (*continued*)

The fair value of GIA is determined by the Trustee based on the market value of the underlying securities. Under the terms of the Capital Preservation group annuity contract, participants may direct permitted withdrawal and /or transfer transactions of all or a portion of their balance in the Capital Preservation investment option at Contract Value. The Contract value is determined by contributions plus credited interest less participant withdrawals and fees, which is also often referred to as "Book Value".

The average market yield based on actual earnings and interest crediting rates to participants at December 31, 2012 and 2011 were 1.48% and 2.06%.

Because the general investment account contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the general investment account. Although the GIA is fully benefit-responsive, there is no adjustment from fair value to contract value since contract value provides a good approximation of fair value.

6. Party-in-Interest Transactions

Certain Plan investments are managed by MassMutual Retirement Services. MassMutual is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest. For the year ended December 31, 2012, fees paid to MassMutual totaled $20,894. In addition, loans to participants qualify as party-in-interest transactions. Although not required by the Plan agreement, the Company paid the Plan's legal, accounting and other service expenses, except processing fees related to participant loans which are charged to the individual participant's account. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

7. Plan Termination

Although no decisions have been made to do so, the Employer has the right under the Plan to discontinue its contribution at anytime and to terminate the Plan subject to Provision of ERISA. In the event of a Plan termination, participants would become 100% vested in their account balances.

8. Tax Status

The Plan was formed using a prototype plan designed by the Custodian. The IRS has determined and informed the Custodian by letter dated May 11, 2009 that the prototype plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since May 11, 2009. Plan management and the Plan's legal counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

9. Risks and Uncertainties

The Plan provides for various investment options in mutual funds, which can invest in any combination of stocks, bonds, fixed income securities and other securities. Mutual funds that invest in investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and statement of changes in net assets available for benefits.
