Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E which was certified by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

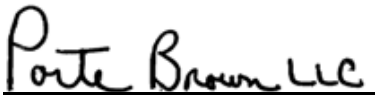

The 2011 statement of net assets available for benefits of VIVA USA, INC. 401(K) PLAN was compiled by us, and our report thereon dated July 8, 2013, stated we did not audit or review the financial statement and, accordingly, did not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America.

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held for investment at end of year), assets (acquired and disposed of within year) and reportable transactions, which are the responsibility of plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VIVA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

NOTE A. DESCRIPTION OF PLAN

The following description of the Viva USA, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1) General

The Plan is a defined contribution plan covering all eligible employees of Viva USA, Inc. 401(k) Plan (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2) Contributions

Participants may elect to contribute pre-tax earnings up to current Internal Revenue Service (“IRS”) regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. All employees, except members of a collective bargaining unit or non-resident aliens, are eligible to participate in the Plan upon completion of six months of service with the Company. Eligible employees can enter the Plan on the first day of the month following satisfaction of the eligibility requirements. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company may elect to contribute a discretionary matching contribution to the Plan. The discretionary matching contribution is allocated to participants’ accounts that have completed six months of service with the Company or were actively employed on the last day of the Plan year. The Company did not elect to make a discretionary matching contribution for the year ended December 31, 2012. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

3) Participant Accounts

Each participant’s account is credited with the participant’s elective contribution and allocations of: a) the Company’s discretionary matching contribution (if applicable), b) the Company’s discretionary profit sharing contribution (if applicable), c) investment earnings, and d) administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is what can be provided from the participant’s vested account.

4) Notes Receivable from Participants

Participants may borrow from their account a minimum loan of $500 and up to a maximum amount equal to the lessor of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant’s account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

NOTE A. DESCRIPTION OF PLAN (Continued)

5) Vesting

Participants are vested immediately in their deferral contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portions of their account are based on years of service. A year of service is attained after completion of 1,000 hours of service during a twelve month period.

Upon termination of employment for reasons other than by death, disability, or retirement, participants will receive the amount of their participant account valued at its fair market value and shall vest according to the following schedule based upon years of service:

Years of Service	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

Upon termination of employment by reason of death, disability, or retirement, the balance in the participant's account will become fully vested.

6) Payment of Benefits

On termination of service due to death, disability, or retirement a participant or his beneficiary may elect to receive a single lump-sum payment equal to the value of the participant's vested interest.

7) Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $11,443 and $10,073, respectively. These accounts may be used to reduce administrative expenses and then to reduce employer contributions. Also, in 2012, no administrative expenses or employer contributions were reduced from forfeited nonvested accounts.

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

1) Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in conformity with generally accepted accounting principles.

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

1) Basis of Accounting: (Continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the Plan's investments as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

2) Subsequent Events

The Plan has evaluated subsequent events through October 2, 2013, the date which the financial statements were available to be issued.

3) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

4) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

5) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid capital balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

6) Payment of Benefits

Benefit obligations are recorded when paid.

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

7) Administration of Plan

The Company absorbs significant costs of the Plan administration by paying expenses directly.

NOTE C. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and all assets will be liquidated and paid to participants.

NOTE D. TAX STATUS

The Plan is a non-standardized prototype plan sponsored by Automatic Data Processing Inc. that has been adopted by the Company. The prototype plan obtained its latest opinion letter on March 31, 2008, by which the Internal Revenue Service has determined and informed the Company that the Plan and related trust, as then designed, were designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan has adopted the provisions of ASC Topic 740, *Income Taxes*, relating to the accounting for uncertainty in income taxes. The Plan files employee benefit plan returns in the U.S. federal jurisdiction. With few exceptions, the Plan is not subject to U.S. federal tax examinations by tax authorities for years before 2009.

NOTE E. INVESTMENTS

At December 31, 2012 and 2011, the assets of the Plan were held by State Street Bank and Trust Company, the custodian. All investment information, including investment assets, transactions, and income and the schedules of investments and reportable transactions, has been certified by the Plan custodian.

Unallocated insurance contracts – adjustment contract	3,087
	$ 64,913

NOTE F. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

NOTE F. FAIR VALUE MEASUREMENTS: (Continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2012 and 2011.

Common collective trusts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Unallocated insurance contract: Valued at fair value by discounting the related cash flows on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Assets, at Fair Value, as of December 31, 2012

	Level 1	Level 2	Level 3	Total
Common collective trusts	$ -	$ 799,210	$ -	$ 799,210
Unallocated insurance contracts	-	-	92,948	92,948
Total assets, at fair value	$ -	$ 799,210	$ 92,948	$ 892,158

Assets, at Fair Value, as of December 31, 2011

	Level 1	Level 2	Level 3	Total

Total assets, at fair value	$ -	$ 602,101	$ 92,756	$ 694,857

NOTE F. FAIR VALUE MEASUREMENTS: (Continued)

Level 3 Gains and Losses: the following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012.

Level 3 Assets: Gains and Losses for the year ended December 31, 2012

	Unallocated insurance contracts
Balance, beginning of year	$ 92,756
Dividend income	813
Purchases and sales - net	(621)
Balance, end of year	$ 92,948

NOTE G. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a benefit-responsive investment contract with Invesco Stable Asset Fund. The investment maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the investment custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were approximately 1.68% for 2012 and 1.76% for 2011. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), 2) change's to the Plan's prohibition on competing investment options or delegation of equity wash provisions, 3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administer does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E which was certified by ING Life Insurance and Annuity Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

VIVA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

NOTE A. DESCRIPTION OF PLAN

The following description of the Viva USA, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1) General

The Plan is a defined contribution plan covering all eligible employees of Viva USA, Inc. 401(k) Plan (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2) Contributions

Participants may elect to contribute pre-tax earnings up to current Internal Revenue Service (“IRS”) regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. All employees, except members of a collective bargaining unit or non-resident aliens, are eligible to participate in the Plan upon completion of six months of service with the Company. Eligible employees can enter the Plan on the first day of the month following satisfaction of the eligibility requirements. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company may elect to contribute a discretionary matching contribution to the Plan. The discretionary matching contribution is allocated to participants’ accounts that have completed six months of service with the Company or were actively employed on the last day of the Plan year. The Company did not elect to make a discretionary matching contribution for the year ended December 31, 2012. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

3) Participant Accounts

Each participant’s account is credited with the participant’s elective contribution and allocations of: a) the Company’s discretionary matching contribution (if applicable), b) the Company’s discretionary profit sharing contribution (if applicable), c) investment earnings, and d) administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is what can be provided from the participant’s vested account.

4) Notes Receivable from Participants

Participants may borrow from their account a minimum loan of $500 and up to a maximum amount equal to the lessor of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant’s account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

NOTE A. DESCRIPTION OF PLAN (Continued)

5) Vesting

Participants are vested immediately in their deferral contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portions of their account are based on years of service. A year of service is attained after completion of 1,000 hours of service during a twelve month period.

Upon termination of employment for reasons other than by death, disability, or retirement, participants will receive the amount of their participant account valued at its fair market value and shall vest according to the following schedule based upon years of service:

Years of Service	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

Upon termination of employment by reason of death, disability, or retirement, the balance in the participant's account will become fully vested.

6) Payment of Benefits

On termination of service due to death, disability, or retirement a participant or his beneficiary may elect to receive a single lump-sum payment equal to the value of the participant's vested interest.

7) Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $11,443 and $10,073, respectively. These accounts may be used to reduce administrative expenses and then to reduce employer contributions. Also, in 2012, no administrative expenses or employer contributions were reduced from forfeited nonvested accounts.

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

1) Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in conformity with generally accepted accounting principles.

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

1) Basis of Accounting: (Continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the Plan's investments as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

2) Subsequent Events

The Plan has evaluated subsequent events through October 2, 2013, the date which the financial statements were available to be issued.

3) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

4) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

5) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid capital balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

6) Payment of Benefits

Benefit obligations are recorded when paid.

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

7) Administration of Plan

The Company absorbs significant costs of the Plan administration by paying expenses directly.

NOTE C. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and all assets will be liquidated and paid to participants.

NOTE D. TAX STATUS

The Plan is a non-standardized prototype plan sponsored by Automatic Data Processing Inc. that has been adopted by the Company. The prototype plan obtained its latest opinion letter on March 31, 2008, by which the Internal Revenue Service has determined and informed the Company that the Plan and related trust, as then designed, were designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan has adopted the provisions of ASC Topic 740, *Income Taxes*, relating to the accounting for uncertainty in income taxes. The Plan files employee benefit plan returns in the U.S. federal jurisdiction. With few exceptions, the Plan is not subject to U.S. federal tax examinations by tax authorities for years before 2009.

NOTE E. INVESTMENTS

At December 31, 2012 and 2011, the assets of the Plan were held by State Street Bank and Trust Company, the custodian. All investment information, including investment assets, transactions, and income and the schedules of investments and reportable transactions, has been certified by the Plan custodian.

NOTE F. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

NOTE F. FAIR VALUE MEASUREMENTS: (Continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2012 and 2011.

Common collective trusts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Unallocated insurance contract: Valued at fair value by discounting the related cash flows on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Assets, at Fair Value, as of December 31, 2012

	Level 1	Level 2	Level 3	Total
Common collective trusts	$ -	$ 799,210	$ -	$ 799,210
Unallocated insurance contracts	-	-	92,948	92,948
Total assets, at fair value	$ -	$ 799,210	$ 92,948	$ 892,158

Assets, at Fair Value, as of December 31, 2011

	Level 1	Level 2	Level 3	Total

NOTE F. FAIR VALUE MEASUREMENTS: (Continued)

Level 3 Gains and Losses: the following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2012.

Level 3 Assets: Gains and Losses for the year ended December 31, 2012

	Unallocated insurance contracts
Balance, beginning of year	$ 92,756

Purchases and sales - net	(621)
Balance, end of year	$ 92,948

NOTE G. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a benefit-responsive investment contract with Invesco Stable Asset Fund. The investment maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the investment custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were approximately 1.68% for 2012 and 1.76% for 2011. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), 2) change's to the Plan's prohibition on competing investment options or delegation of equity wash provisions, 3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administer does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
