1. Description of the Plan

The following description of the **Aperio Technologies, Inc. 401(k) Plan** ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established and sponsored by Aperio Technologies, Inc. ("Company"). The Plan was established on January 2, 2002, as restated January 1, 2009, August 15, 2010 and January 1, 2013, to enable eligible employees to share in Company earnings and permit employees to make pre-tax contributions to the Plan; thereby, providing employees with an opportunity to accumulate funds for their retirement. The Plan covers substantially all employees of the Company and is administered by the Company. Effective August 15, 2010, State Street Bank and Trust Company was named Trustee of the Plan, who has authority and responsibility for the management and investment of Plan assets maintained by the Custodian, T. Rowe Price Investment Services, Inc.

Participants in the Plan may choose to have their deferral and employer match contribution allocated among 31 investment options. There are no non-participant directed funds.

On October 22, 2012, Danaher Corporation announced that its wholly-owned subsidiary, Leica Biosystems Imaging, Inc., had completed an acquisition of the Company. In connection with the acquisition, the Company adopted a resolution requiring participants of the Plan to transfer their balances to the Danaher Corporation and Subsidiaries Savings Plan ("Danaher Plan").

Plan termination

The Plan agreement provides that the participants' accounts become fully vested and nonforfeitable upon termination of the Plan. In connection with the acquisition, the Company adopted a resolution to merge the Plan effective April 5, 2013, into the Danaher Plan, which is the successor plan. In connection with the merger, the Plan terminated on April 4, 2013. In connection with the Plan termination and immediately prior to the transfer of Plan assets to the successor plan, all participants' account balances became 100% vested. In addition, all participants' investment elections, beneficiary and personal data were transferred to the Danaher Plan. Participant accounts totaling $5,295,906 were transferred out of the Plan and into the Danaher Plan as of April 5, 2013.

Eligibility and automatic enrollment

The Plan covers all employees who have reached age 21. There is no service requirement. Employees are eligible to participate in the Plan on the first day of the month following eligibility. Prior to January 1, 2013, newly eligible employees were automatically enrolled at 5% of the employee's compensation unless the employee affirmatively elected otherwise.

Contributions

Each participant may contribute a deferral percentage or flat dollar amount up to 100% of their annual pre-tax compensation subject to an annual limitation imposed by Internal Revenue Service regulations.

The Company may make discretionary matching contributions or profit-sharing contributions to the Plan. In 2013 there were no employer contributions to the Plan.

Vesting

The portions of the participant's account attributable to rollover contributions, elective deferral contributions and any earnings are 100% vested and non-forfeitable.

Employer contributions vest 20% after one complete year of service, as defined in the Plan agreement, and an additional 20% for each complete year of service thereafter until fully vested.

Forfeitures

Unvested amounts forfeited by terminated employees are first used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions payable under the Plan. There were no forfeitures in 2013.

Allocations

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and may be charged with an allocation of the Plan's administrative expenses. Allocations are based on participant compensation, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants

The Plan allows participants to borrow against their vested balances. Participants may have up to two loans outstanding at a time, neither of which may be made for less than $1,000 and the combined outstanding balance may not exceed the lesser of $50,000 or 50% of a participant's vested balance. Loan repayment periods may not exceed five years

Notes receivable from participants, cont'd

except for loans used to acquire a principal residence. In such case, a reasonable repayment period shall be established. Loans bear a reasonable rate of interest determined by the Company. Principal and interest is paid ratably through after-tax payroll deductions on at least a quarterly basis.

Benefit payments

Upon termination of service due to death, disability, or retirement, a participant (or beneficiary) may receive the value of the vested interest in their account as a lump-sum distribution.

Participants may withdraw any or all of their vested account balances at any time during the Plan year provided certain hardship conditions, as defined in the Plan agreement, have been met. Benefit payments are recorded when paid.

Plan expenses

Direct fees and expenses related to the operation of the Plan are paid with forfeitures. Additional expenses not covered by forfeitures are paid from Plan assets and may be reimbursed by the Company.

2. Summary of Significant Accounting Policies

A summary of the Plan's significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

Basis of accounting

Prior to termination on April 4, 2013, the Plan used the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP"). Since April 4, 2013, the Plan uses the liquidation basis of accounting in conformity with GAAP.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements. Accordingly, actual results could differ from those estimates.

Fair value measurement

The Financial Accounting Standards Board ("FASB") establishes authoritative guidance for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets

Fair value measurement, cont'd

or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Level 1 – Valuation is based upon unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 – Valuation is based upon other significant observable inputs (including quoted prices for similar assets or liabilities in active markets, identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, etc.).

Level 3 – Valuation is based upon significant unobservable inputs, including the reporting entity's own assumptions in determining the fair value of investments.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the period ended April 5, 2013 and the year ended December 31, 2012.

Common stocks, corporate bonds, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair value measurement, cont'd

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of April 5, 2013 and December 31, 2012:

Investments at Fair Value as of April 5, 2013

	Level 1

Blend	378,625
Money market	213,565
Bond	193,712
Value	101,968
Total investments at fair value	$ 4,784,519

Investment valuation and income recognition

Mutual funds are stated at fair value. Fair value has been measured using unadjusted quoted market prices for identical assets in an active market.

Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date. Realized gains and losses on investments are recognized upon the sale of the related investments and unrealized appreciation or depreciation is recognized at year end when the carrying values of the related investments are adjusted to their estimated fair market value. Purchase and sales of securities are reflected on a trade-date basis.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation or depreciation in the fair value of its investments which consists of the realized gains or losses and the

Investment valuation and income recognition, cont'd

unrealized appreciation or depreciation on those investments. Earnings or losses on investments are allocated on a pro rata basis to individual participant accounts based on the type of investment and the ratio of each participant's individual account balance to the aggregate of participant account balances. The portion of interest included in each loan payment made by a participant is recognized as interest income in the participant's individual account.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan agreement.

3. Information Certified by the Plan's Trustee (Unaudited)

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Trustee

All Plan assets are held by State Street Bank and Trust Company, the Plan Trustee, who is responsible for the maintenance of all accounting records and the preparation of reports of activity related to those assets. The Trustee has certified to the Plan Administrator the completeness and accuracy of the financial information and data presented below.

The following investments represent 5% or more of the Plan's net assets available for benefits at April 5, 2013 and December 31, 2012:

Description of Investment	**April 5, 2013**	December 31, 2012
T. Rowe Price Retirement 2025	*	$ 617,526
T. Rowe Price Retirement 2020	*	$ 527,015
T. Rowe Price Retirement 2035	*	$ 466,100
T. Rowe Price Retirement 2040	*	$ 452,138
T. Rowe Price Retirement 2045	*	$ 281,962
T. Rowe Price Retirement 2030	*	$ 277,214

* Investment balance is less than 5% of the Plan's net assets available for benefits.

Notes receivable from participants were $0 and $65,826 as of April 5, 2013 and December 31, 2012, respectively.

Interest and dividend income

Interest and dividend income was $2,090 for the period from January 1, 2013 to April 4, 2013.

Interest income on notes receivable from participants

Interest income on notes receivable from participants was $931 for the period from January 1, 2013 to April 4, 2013.

Net appreciation in market value of investments

During the period from January 1, 2013 to April 4, 2013, the fair values of the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $291,856.

4. Tax Status

The Plan is a non-standardized prototype plan. The non-standardized prototype plan received an opinion letter from the Internal Revenue Service dated March 31, 2008, indicating that the Plan is qualified under Section 401(a) of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

5. Party-In-Interest Transactions

Certain Plan assets are invested in Custodian accounts. These transactions qualify as party-in-interest transactions.

6. Pending Distributions

There were no Plan assets allocated to participants who had elected to withdraw from the Plan as of April 5, 2013.

7. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near future and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
