INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
of the Jackson Hewitt Employee Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Jackson Hewitt Employee Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements, in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 3, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2012, **,** which is the responsibility of Plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, it is inappropriate to, and we do not, express an opinion on the supplemental schedule referred to above**.**

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

JACKSON HEWITT EMPLOYEE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Jackson Hewitt Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General—The Plan is a defined contribution plan covering substantially all full-time and part-time eligible employees, who have attained the age of 18, of Jackson Hewitt Tax Service Inc. ("Jackson Hewitt" or "the Company"), and its wholly-owned subsidiaries: Jackson Hewitt Inc., Jackson Hewitt Technology Services LLC, Jackson Hewitt Corporate Services Inc. and Tax Services of America, Inc. The Plan was established on June 21, 2004. Jackson Hewitt serves as the sponsor of the Plan ("Plan Sponsor"). The Compensation Committee of the Company's Board of Directors has overall responsibility for the plan and has delegated the governance of the plan to the Investment Committee of Jackson Hewitt. Bank of America, N.A. serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions—Each year, participants may contribute up to 20% of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code ("IRC") limitations. The Company annually matches 100% of the first 6% of eligible compensation that a participant contributes to the Plan. If it is determined that the Company has made any excess contributions during the Plan year, these excess contributions can be used to offset future employer contributions or to pay plan expenses. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Investments—Participants direct the investment of their contributions into various investment options offered by the Plan. As of December 31, 2012, the Plan offered fifteen registered investment funds and three common/collective trusts ("CCT") as investment options for participants.

Participant Accounts—Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution and an allocation of Plan earnings, and charged with withdrawals, Plan losses and an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting—Participants are vested immediately in their contributions and the Company's contributions, plus actual earnings thereon.

Notes Receivable from Participants—Notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of: (1) $50,000 less the highest total outstanding loan balance the participant had during the one year period before the date the loan was made; or (2) 50% of the participant's vested balance minus the current outstanding loan balance. The loans are secured by the balance in the participant's account and outstanding loans bear interest at rates between 4.25% and 9.25% at the time funds are borrowed as determined quarterly by the Plan administrator. The interest

rates are generally determined to be between 1% and 3% above the prime rate. Principal and interest are paid ratably through payroll deductions generally within 5 years and deposited back into participant's accounts. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits— Upon termination of service or retirement, a participant may generally elect to receive either a lump-sum amount equal to the value of the participant's vested balance in his or her account, or annual installments over a period not to exceed the participant's lifetime, which is actuarially determined. The plan also permits for other types of withdrawals based on certain criteria, including hardship withdrawals and in-service withdrawals once the participant has reached the age of 59 ½.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States ("GAAP").

Use of Estimates—The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and, when applicable, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events—The Company evaluated subsequent events through October 4, 2013, which is the date the financial statements were available to be issued.

Fully Benefit–Responsive Investment Contracts—Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a CCT fund, Federated Capital Preservation Fund ("FCPF"). As required by Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 946-210, the Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust fund, as well as the adjustment of the fully benefit-responsive collective trust fund from fair value to contract value as of December 31, 2012. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 – "Fair Value Measurements."

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is recorded when earned. The accompanying Statement of Changes in Net Assets Available for Benefits presents net appreciation in fair value of investments, which includes unrealized gains and losses on investments held at December 31, 2012 and realized gains and losses on investments sold during the Plan year.

Mutual Fund Expenses—Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-l fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and

distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

Administrative Expenses—Substantially all expenses, with the exception of those noted below, incurred in connection with the administration of the Plan are paid by the Company. Fees related to participant loans and certain redemption fees are charged to respective participant accounts. As of December 31, 2012 and December 31, 2011, there was only one fund in the Plan, the DWS RREEF Real Estate Fund, which had associated redemption fees. A 2.0% redemption fee is charged on the gross proceeds on shares of the fund held for less than the 15 day minimum holding period. Recordkeeping expenses of the Plan are paid by the Plan's Sponsor.

Payment of Benefits—Benefits are recorded when paid.

Accounting Changes—In 2012, the Plan adopted FASB Accounting Standards Update ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, effective for plan years beginning after December 15, 2011. ASU 2011-04 amends ASC 820 to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards. Adoption of ASU 2011-04 had no effect on the Plan's financial statements.

3. INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Bank of America, N.A. the trustee of the Plan has certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants, and related activity, in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011, the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012 and the accompanying supplemental Schedule of Assets (Held at End of Year) as of December 31, 2012.

4. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures,* provides a framework for measuring fair value and expands related disclosures. Topic 820 establishes a three-level valuation hierarchy based upon observable and non-observable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). There were no changes to the Company's valuation techniques used to measure asset and liabilities fair values on a recurring basis during the year. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 – Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods of valuation described herein may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered investment funds ("mutual funds") are valued at the quoted market price, which represents the net asset value of shares held by the Plan at year-end.

CCTs are valued at the net asset value of the units held by the Plan at year-end, which is based on the fair value of the underlying assets. The net asset value, as provided by the trustee, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value.

The Plan invests in the SSgA S&P 500 Index Fund, as well as the SSgA Russell Small Cap Index Fund, CCT funds, which invest primarily in equity investments. Equity investments held by the funds are valued at the last sale price on their principal exchange, market or system on the valuation date, or official close price for certain markets. If no sales are reported for that day, investments are valued at the last published sale price, the mean between the last reported bid and asked prices or at fair value as determined in good faith by the trustee. Short-term investments (with 60 days or less to maturity), if any, are stated at amortized cost, which approximates fair value. Investments in registered investment companies (other than those that are exchange traded) or collective investment funds, if any, are valued at their respective net asset value.

The Plan also invests in the FCPF. The FCPF invests primarily in guaranteed investment contracts (traditional GICs), separate account guaranteed investment contracts (separate account GICs) and synthetic guaranteed investment contracts (synthetic GICs). Traditional GICs represent deposits which guarantee a stated interest rate for the term of the contracts. The fair value of traditional GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like-quality investments. Separate account GICs are portfolios of securities (fixed-income securities or shares of open-end mutual funds) held in a separate account owned and managed by or on behalf of the insurance company issuing the GIC for the exclusive benefit of investors in the separate account. Synthetic GICs are portfolios of securities owned by the FCPF. Each of the separate account GICs and synthetic GICs has a wrap contract that provides a minimum guaranteed rate of return for the term of the contracts. The fair value of a separate account GIC and a synthetic GIC is determined based on the fair value of the securities underlying each GIC. The underlying securities can be comprised of, primarily, OTC market securities and open-end mutual funds. OTC securities, such as fixed-income instruments, with remaining maturities greater than 90 days are fair valued using price evaluations provided by a pricing service. In addition, the fair value of the wrap contract is calculated using the contract value of the GIC as of the balance sheet date, giving consideration to any contractually agreed-upon replacement fees charged by the wrap contract provider. Short-term securities are stated at amortized cost (which approximates market value) if maturity is 90 days or less at the time of purchase, or at

market value if maturity is greater than 90 days at the time of purchase. Investments in open-end registered investment companies are valued at the respective net asset values.

The following tables present the fair value hierarchy for the balances of the assets and liabilities of the Plan measured at fair value as of December 31, 2012 and 2011:

There were no investments within level 3 as of December 31, 2012 and 2011.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan Administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of levels 1, 2 or 3.

5. INVESTMENTS

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that changes could materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2012 may not necessarily be indicative of amounts that could be realized in a current market exchange.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

As of December 31, 2011, a portion of the Plan's investments represented shares in funds managed by Bank of America, N.A., the trustee of the Plan. Therefore, these transactions qualified as exempt party-in-interest transactions. Fees paid for by the Plan were $1,250 for the year ended December 31, 2012.

8. PLAN TERMINATION

Although the Company has not expressed any intention to do so, the Company reserves the right to modify, suspend, amend or terminate the Plan in whole or in part at any time subject to the provisions of ERISA.

9. FEDERAL INCOME TAX STATUS

The Plan uses a prototype plan document sponsored by Merrill Lynch. Merrill Lynch received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of assets available for benefits per financial statements to Form 5500 as of December 31:

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants
of the Jackson Hewitt Employee Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Jackson Hewitt Employee Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements, in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information discussed in Note 3, which was certified by Bank of America, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2012, **,** which is the responsibility of Plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, it is inappropriate to, and we do not, express an opinion on the supplemental schedule referred to above**.**

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

JACKSON HEWITT EMPLOYEE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Jackson Hewitt Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General—The Plan is a defined contribution plan covering substantially all full-time and part-time eligible employees, who have attained the age of 18, of Jackson Hewitt Tax Service Inc. ("Jackson Hewitt" or "the Company"), and its wholly-owned subsidiaries: Jackson Hewitt Inc., Jackson Hewitt Technology Services LLC, Jackson Hewitt Corporate Services Inc. and Tax Services of America, Inc. The Plan was established on June 21, 2004. Jackson Hewitt serves as the sponsor of the Plan ("Plan Sponsor"). The Compensation Committee of the Company's Board of Directors has overall responsibility for the plan and has delegated the governance of the plan to the Investment Committee of Jackson Hewitt. Bank of America, N.A. serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions—Each year, participants may contribute up to 20% of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code ("IRC") limitations. The Company annually matches 100% of the first 6% of eligible compensation that a participant contributes to the Plan. If it is determined that the Company has made any excess contributions during the Plan year, these excess contributions can be used to offset future employer contributions or to pay plan expenses. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Investments—Participants direct the investment of their contributions into various investment options offered by the Plan. As of December 31, 2012, the Plan offered fifteen registered investment funds and three common/collective trusts ("CCT") as investment options for participants.

Participant Accounts—Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution and an allocation of Plan earnings, and charged with withdrawals, Plan losses and an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting—Participants are vested immediately in their contributions and the Company's contributions, plus actual earnings thereon.

Notes Receivable from Participants—Notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of: (1) $50,000 less the highest total outstanding loan balance the participant had during the one year period before the date the loan was made; or (2) 50% of the participant's vested balance minus the current outstanding loan balance. The loans are secured by the balance in the participant's account and outstanding loans bear interest at rates between 4.25% and 9.25% at the time funds are borrowed as determined quarterly by the Plan administrator. The interest

rates are generally determined to be between 1% and 3% above the prime rate. Principal and interest are paid ratably through payroll deductions generally within 5 years and deposited back into participant's accounts. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits— Upon termination of service or retirement, a participant may generally elect to receive either a lump-sum amount equal to the value of the participant's vested balance in his or her account, or annual installments over a period not to exceed the participant's lifetime, which is actuarially determined. The plan also permits for other types of withdrawals based on certain criteria, including hardship withdrawals and in-service withdrawals once the participant has reached the age of 59 ½.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States ("GAAP").

Use of Estimates—The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and, when applicable, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events—The Company evaluated subsequent events through October 4, 2013, which is the date the financial statements were available to be issued.

Fully Benefit–Responsive Investment Contracts—Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a CCT fund, Federated Capital Preservation Fund ("FCPF"). As required by Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 946-210, the Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust fund, as well as the adjustment of the fully benefit-responsive collective trust fund from fair value to contract value as of December 31, 2012. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 4 – "Fair Value Measurements."

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is recorded when earned. The accompanying Statement of Changes in Net Assets Available for Benefits presents net appreciation in fair value of investments, which includes unrealized gains and losses on investments held at December 31, 2012 and realized gains and losses on investments sold during the Plan year.

Mutual Fund Expenses—Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-l fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and

distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

Administrative Expenses—Substantially all expenses, with the exception of those noted below, incurred in connection with the administration of the Plan are paid by the Company. Fees related to participant loans and certain redemption fees are charged to respective participant accounts. As of December 31, 2012 and December 31, 2011, there was only one fund in the Plan, the DWS RREEF Real Estate Fund, which had associated redemption fees. A 2.0% redemption fee is charged on the gross proceeds on shares of the fund held for less than the 15 day minimum holding period. Recordkeeping expenses of the Plan are paid by the Plan's Sponsor.

Payment of Benefits—Benefits are recorded when paid.

Accounting Changes—In 2012, the Plan adopted FASB Accounting Standards Update ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, effective for plan years beginning after December 15, 2011. ASU 2011-04 amends ASC 820 to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards. Adoption of ASU 2011-04 had no effect on the Plan's financial statements.

3. INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Bank of America, N.A. the trustee of the Plan has certified the completeness and accuracy of all investments and related investment activity and notes receivable from participants, and related activity, in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011, the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012 and the accompanying supplemental Schedule of Assets (Held at End of Year) as of December 31, 2012.

4. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures,* provides a framework for measuring fair value and expands related disclosures. Topic 820 establishes a three-level valuation hierarchy based upon observable and non-observable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). There were no changes to the Company's valuation techniques used to measure asset and liabilities fair values on a recurring basis during the year. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2 – Inputs other than quoted prices included in Level 1 that are observable either directly or indirectly; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 – Significant inputs to the valuation model that are unobservable, typically based on a Plan's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The methods of valuation described herein may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered investment funds ("mutual funds") are valued at the quoted market price, which represents the net asset value of shares held by the Plan at year-end.

CCTs are valued at the net asset value of the units held by the Plan at year-end, which is based on the fair value of the underlying assets. The net asset value, as provided by the trustee, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value.

The Plan invests in the SSgA S&P 500 Index Fund, as well as the SSgA Russell Small Cap Index Fund, CCT funds, which invest primarily in equity investments. Equity investments held by the funds are valued at the last sale price on their principal exchange, market or system on the valuation date, or official close price for certain markets. If no sales are reported for that day, investments are valued at the last published sale price, the mean between the last reported bid and asked prices or at fair value as determined in good faith by the trustee. Short-term investments (with 60 days or less to maturity), if any, are stated at amortized cost, which approximates fair value. Investments in registered investment companies (other than those that are exchange traded) or collective investment funds, if any, are valued at their respective net asset value.

The Plan also invests in the FCPF. The FCPF invests primarily in guaranteed investment contracts (traditional GICs), separate account guaranteed investment contracts (separate account GICs) and synthetic guaranteed investment contracts (synthetic GICs). Traditional GICs represent deposits which guarantee a stated interest rate for the term of the contracts. The fair value of traditional GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like-quality investments. Separate account GICs are portfolios of securities (fixed-income securities or shares of open-end mutual funds) held in a separate account owned and managed by or on behalf of the insurance company issuing the GIC for the exclusive benefit of investors in the separate account. Synthetic GICs are portfolios of securities owned by the FCPF. Each of the separate account GICs and synthetic GICs has a wrap contract that provides a minimum guaranteed rate of return for the term of the contracts. The fair value of a separate account GIC and a synthetic GIC is determined based on the fair value of the securities underlying each GIC. The underlying securities can be comprised of, primarily, OTC market securities and open-end mutual funds. OTC securities, such as fixed-income instruments, with remaining maturities greater than 90 days are fair valued using price evaluations provided by a pricing service. In addition, the fair value of the wrap contract is calculated using the contract value of the GIC as of the balance sheet date, giving consideration to any contractually agreed-upon replacement fees charged by the wrap contract provider. Short-term securities are stated at amortized cost (which approximates market value) if maturity is 90 days or less at the time of purchase, or at

market value if maturity is greater than 90 days at the time of purchase. Investments in open-end registered investment companies are valued at the respective net asset values.

The following tables present the fair value hierarchy for the balances of the assets and liabilities of the Plan measured at fair value as of December 31, 2012 and 2011:

	Investment Assets at Fair Value as of December 31, 2012

Total investments at fair value	$ 18,827,333	$ 5,157,659	$ -	$ 23,984,992

There were no investments within level 3 as of December 31, 2012 and 2011.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan Administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers in or out of levels 1, 2 or 3.

5. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's Net Assets Available for Benefit as of December 31, 2012 and 2011:

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that changes could materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2012 may not necessarily be indicative of amounts that could be realized in a current market exchange.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

As of December 31, 2011, a portion of the Plan's investments represented shares in funds managed by Bank of America, N.A., the trustee of the Plan. Therefore, these transactions qualified as exempt party-in-interest transactions. Fees paid for by the Plan were $1,250 for the year ended December 31, 2012.

8. PLAN TERMINATION

Although the Company has not expressed any intention to do so, the Company reserves the right to modify, suspend, amend or terminate the Plan in whole or in part at any time subject to the provisions of ERISA.

9. FEDERAL INCOME TAX STATUS

The Plan uses a prototype plan document sponsored by Merrill Lynch. Merrill Lynch received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of assets available for benefits per financial statements to Form 5500 as of December 31:

	2012	2011
Net assets available for benefits per financial statements	$ 29,064,162	$ 24,475,919
