NOTES TO THE FINANCIAL STATEMENTS

Note 1 - Description of plan

The following description of the Veterinary Pet Insurance 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and was established as of December 1, 2003. The Plan Sponsor and Plan Administrator is Veterinary Pet Insurance Company. Prudential Bank and Trust, FSB, and Prudential Retirement Insurance and Annuity Company (PRIAC), wholly owned subsidiaries of Prudential Financial, Inc. (Prudential), have been contracted to serve as the Trustee and the Record-keeper of the Plan, respectively.

All employees of the Plan Sponsor are eligible to participate in the Plan. The Plan was established by the Plan Sponsor to provide retirement income for its employees and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

On October 3, 2012, and by unanimous written consent by VPI's Board of Directors, it was resolved to merge the Plan into the Company's parent company plan (the Nationwide Savings Pan) effective December 31, 2012. As of December 31, 2012, all plan assets have been transferred out of the Veterinary Pet Insurance 401(k) Savings Plan and into the Nationwide Savings Plan.

Contributions

The Plan is a contributory plan whereby participants may contribute pre-tax annual compensation from 1% to 100% of their salary, not to exceed $17,000 for 2012. Participants age 50 or older may elect to defer up to an additional $5,500 of "catch up" contributions to the Plan for 2012. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan Sponsor may make discretionary matching contributions to the Plan. For the 2012 Plan year, the Plan Sponsor contributed $543,516 to the Plan.

Participant accounts

Each participant's individual account is credited with participant contributions, the Plan Sponsor's contributions and Plan investment earnings. Participants may choose to have their account balance deposited in various investment programs. Allocation of Plan investment earnings is based on the participant's account balance, as defined.

Vesting

Participants are immediately vested in their contributions and actual earnings thereon. Participants are 100% vested upon entering the Plan in matching contributions.

Participant notes receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance and each participant is allowed to have one active loan at a time. Loan terms range from one year to a maximum of five years. The loans are secured by the balance in the participant's account and bear a reasonable fixed rate of interest to be determined by the Plan Administrator. Interest rates on participant loans ranged from 4.25% to 9.25% as of December 31, 2011. Principal and interest is paid ratably through either payroll deductions or participant payments. As of December 31, 2012, all outstanding participant notes receivable have been transferred out of the Plan.

Note 1 - Description of plan, continued

Payments of benefits

Upon termination of service, a participant may elect to receive, as benefits, a lump sum amount equal to the value of his/her account, distributed in accordance with the Plan.

Forfeitures

Forfeitures may be used to reduce Plan Sponsor contributions. The forfeiture balance totaled $0 and $196 as of December 31, 2012 and 2011, respectively. Forfeitures used to reduce employer contributions for 2012 were $1,107.

Administrative expenses

Plan administrative expenses are paid by either the Plan Sponsor or the Plan, as provided in the Plan agreement. Fees paid by the Plan for certain administrative fees amounted to $3,673 for the year ended December 31, 2012. Fees paid by the Plan Sponsor for administrative fees and trustee services amounted to $5,492 for the year ended December 31, 2012.

Note 2 - Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting. The Plan's investments are stated at fair market value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

Participant notes receivable

Participant notes receivable are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans is recorded when it is earned. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation in fair value of investments consists of realized gains and losses and the change in unrealized gains and losses in the Plan's investments. Realized gains and losses from the sale of investments are computed using the participant's cost basis in the investment aggregated at the Plan level. Net changes in unrealized appreciation/depreciation in investments represent the difference between the fair value of investments held at year-end and the cost of investments purchased in the current fiscal year or the fair value of investments held at the end of the preceding year.

Note 2 - Summary of significant accounting policies, continued

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan Sponsor to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The Plan Sponsor believes that the estimates utilized in preparing its financial statements are reasonable and prudent. Actual results could differ from these estimates.

Payment of benefits

Benefit payments are recorded when paid.

Investment options

At December 31, 2012, participants may self-direct employee and employer contributions to various investment options available under the Plan. The investment options include a guaranteed general account contract (the guaranteed income fund), and mutual funds.

Note 3 - Fair value measurements

The Plan categorizes its investments using a three tier fair value hierarchy that is dependent upon the various "inputs" used to determine the value of the Plan's investments. The three levels of the fair value hierarchy under current accounting standards are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: a) quoted market prices for similar assets or liabilities in active markets; b) quoted prices for identical or similar assets or liabilities in inactive markets; c) inputs other than quoted prices that are observable for the asset or liability; and d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

- *Registered investment companies (mutual funds):* Valued based on quoted market prices (Level 1 inputs).

- *Investment contracts with insurance company*: The fair value of the investment contract have been determined to approximate contract value, based upon the lack of contractual maturity, the frequency of the re-setting of contractual interest rate to market rate, the credit quality of the issuer, no withdrawal penalties or redemption premiums, and the liquidity of the contract (Level 3 inputs).

Note 4 - Party-in-interest transactions

Certain Plan investments are shares of mutual funds, and a guaranteed income fund managed by Prudential, the Trustee and the Record-keeper of the Plan. The Plan allows participants to borrow from their vested balances. These transactions qualify as party-in-interest transactions. All of these transactions are exempt from prohibited transaction rules under ERISA.

Note 5 - Information certified by the Trustee and the Record-keeper

The Plan Sponsor elected the method of compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of the ERISA, certain information certified need not be subject to independent audit.

The Plan Sponsor has obtained certification from the Trustee and the Record-keeper that the following information included in the Plan's financial statements is complete and accurate:

a. Investments and participant notes receivable as of December 31, 2012 and 2011.

b. Investment income and investment transactions for the year ended December 31, 2012.

Note 6 – Investments

The following represents the fair values of investments representing the Plan's net assets available for benefits as of December 31, 2012 and 2011. Fair values of investments that represent five percent or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011 are identified by an asterisk (*):

Note 7 - Investment contract with insurance company

In 2010, the Plan entered into a fully benefit-responsive group annuity contract with PRIAC by investing in the PRIAC Guaranteed Income Fund. PRIAC maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the issuer or otherwise.

The Plan's investment contract specifies that generally there are not any events that could limit the ability of the Plan to transact at contract value paid within 90 days or in rare circumstances, contract value paid over time. There are not any events that allow the issuer to terminate the contract and which require the Plan sponsor to settle at an amount different than contract value paid either within 90 days or over time. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

Note 7 - Investment contract with insurance company, continued

The crediting interest rate of the contract is based on an agreed-upon formula with PRIAC, as defined in the contract agreement, but cannot be less than 1.5%. Such interest rates are reviewed on a semiannual basis for resetting. The key factors that influence future interest crediting rates could include the following: current economic and market conditions; the level of market interest rates; and both the expected and actual experience of a reference portfolio within PRIAC's general account. The resulting gain or loss in the fair value of the investment contract relative to its contract value, if any, is reflected in the Statement of Net Assets Available for Benefits as adjustment from fair value to contract value for fully benefit-responsive investment contracts. No adjustment amount is being reported as management has determined that there is no material difference between contract value and fair value of the contract as of December 31, 2012.

The average yield earned by the Plan under the contract for the year ended December 31, 2012 was 2.25%.

As of December 31, 2012, the Plan's investment contract has been transferred out of the Plan (see Note 1).

Note 8 - Risk and uncertainties

The Plan provides for various investments in mutual funds and a guaranteed general account contract. Investment securities, in general, are exposed to various risks, such as interest rate, foreign exchange, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the amounts reported in participant accounts.

Note 9 - Tax status

The Plan Sponsor has not received a determination letter on its adoption of the prototype non-standardized profit sharing plan. The Plan Sponsor has chosen to rely on the current opinion letter that has been issued to the prototype plan on March 31, 2008. The Plan Sponsor believes that the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The financial statement effects are recognized when the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.
