NOTE 1 - DESCRIPTION OF PLAN

The following description of the Por La Mar Nursery (the "Company") 401(k) Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's Provision.

General

The Company adopted the Plan effective August 1, 2000, to provide deferred compensation benefits for its eligible employees. The Plan is a prototype non-standardized defined contribution profit sharing plan sponsored and administered by the Company. The Plan allows participants to make elective salary deferral contributions (Section 401(k) contributions) and the Company to make matching salary deferral and discretionary profit sharing contributions. The Plan was restated effective September 4, 2012 in conjunction with the transfer of assets to a new trustee. The Plan covers the employees of the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Trustee

During the year ended December 31, 2011 and the period January 1, 2012 through August 31, 2012, the Plan utilized Principal Financial Group, ("Principal") as trustee responsible for receiving plan contributions from the Company, investing and safeguarding the Plan's assets held for investment purposes, receiving loan payments, paying benefits to participants and their beneficiaries and maintaining the individual participant account balances. From September 1, 2012 through December 31, 2012, the Plan began using Great West Retirement Services, ("Great West"), to assist in the record keeping of the Plan and act as trustee of the plan.

Concentration of Credit Risk

The Plan has exposure to credit risk to the extent that its investments are subject to market fluctuations that may materially affect the value of the investment balances.

Contributions

Each employee who has attained 21 years of age and who has completed at least one year of entry service (1,000 or more hour of service) may join the plan on the first day of the calendar quarter following or coincident with the completion of his or her one year of entry service. Participants may contribute up to the maximum contributions as permitted by the Internal Revenue Code. Participants age 50 and over may elect to make an additional $5,500 catch-up contribution. Participants direct the investment of their contributions into various investments offered by the Plan. The Plan currently offers several groups of variable mutual fund categories as investment options for participants. The Plan provides that at the discretion of the Company, the Company may make matching contributions to the Plan. Matching contributions were not made by the Company for the years ended December 31, 2012 or 2011.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Rollover contributions

Employees may rollover their benefits from other qualified retirement plans into the Plan. The Plan did not receive any rollover contributions for the years ended December 31, 2012 or 2011.

Participant Accounts

Each participant's account is credited with the participant's contribution, rollover contributions and an allocation of the Company's contribution, Plan earnings, and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans

Participants, with a minimum vested account balance of $2,000 may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may only have one loan outstanding at a time. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Loan fund. Loans shall provide for level amortization with payments to be made not less frequently than quarterly over a period not to exceed five years. However, loans used to acquire a principal residence of the participant shall provide for periodic repayment over a reasonable period of time that may exceed five years. The loans are secured by the balance in the participant's account and bear interest at a rate of prime, plus one percent (1%), as listed in the Wall Street Journal on the day funds are borrowed.

Vesting

Participants are immediately vested in their contributions or in any funds rolled over into their account plus the actual earnings.

Participants vest in the employer's matching contribution based on the following schedule:

Years of Service Completed	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

Upon termination of employment and payment of the vested portion of the participant's Company contributions, forfeited amounts may be used to reduce future Company contributions. There were no forfeited amounts during the years ended December 31, 2012 and 2011.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly, quarterly, semi-annual, or annual installments over a certain agreed-upon time. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of participant loans are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. All administrative expenses incident to the administration of the Plan, including fees for the administrative agent and independent public accountants may be paid by the Plan, unless paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, as well as disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation

The Plan's investments are stated at fair value except for its guaranteed account investment contract, which is valued at contract value (Note 5). The investments in registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Investments in pooled separate accounts are valued at net asset value, as reported to the Plan by the

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation (continued)
purchases and sales of securities are recorded on their trade date. Net gains and losses from transactions of securities are computed using the "average-cost" method and includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on the accrual basis. Dividend income and capital gain distributions are recorded on payment date.

Participant Loans
Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contributions
Contributions from employees and the Company are recorded in the period in which the Organization makes the payroll deduction from the participant earnings.

Distributions
Distributions are recorded when paid. There were no benefits processed and approved for payment, but not paid at December 31, 2012 or 2011.

Risk and Uncertainties
The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is as least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 3 - INVESTMENTS

Beginning September 4, 2012, the Plan's investments were held in mutual funds and a common collective trust offered through Great West Retirement Services. The accounts are credited with actual earnings and unrealized appreciation on the investments and charged for plan withdrawals, administrative and miscellaneous expenses. Investments included in the financial statements are presented at fair value as reported to the Plan by the trustee. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at fair value.

NOTE 3 - INVESTMENTS (continued)

For the year ended December 31, 2012, the Plan's investments were held in investment contracts with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a common collective trust and pooled separate accounts. The accounts are credited with actual earnings and unrealized appreciation on the investments and charged for plan withdrawals, administrative and other operating expenses based on their units of participation in the account. The contract is included in the financial statements at fair value as reported to the Plan by the Trustee. Fair value of an underlying fund equals the number of units of participation the Plan has of the respective underlying fund multiplied by the calculated closing unit value per share quoted by that fund. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at fair value.

The fair value of investments that represented 5% or more of the Plan's net assets available for benefits at December 31:

NOTE 4 - FAIR VALUE MEASUREMENT

Financial Accounting Standards Board's ASC Section 820, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements), next priority to quoted prices for similar assets or liabilities in active markets, identical or similar assets or liabilities in inactive markets or inputs other than quoted prices that are observable or principally derived or corroborated by observable market data (level 2 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds:

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts:

Separate accounts under Principal are actively managed by an investment advisor/subadvisor. The underlying investments in the separate accounts are valued at fair value. Investments held in the separate account is divided into units. Funds deposited or withdrawn from the account will affect the number of units help. The unit value of each account is the market value of all securities held, minus the liabilities, including the IMF daily factor as shown on the contract specifications, multiplied by the number of days since the last valuation date, divided by the outstanding units of the separate account.

NOTE 4 - FAIR VALUE MEASUREMENT (continued)

Stable Value Fund:

The Great West Group Annuity Contract simulates the performance of a guaranteed investment contract through the guarantee of a specific interest rate and a portfolio of financial instruments that are owned by Great West. The participating plans' assets are the unit ownership interests in the Contract. The separate account investments are owned by Great West. The Contract provides that the Trust execute transactions at contract value. Great West guarantees the contract value, which represents contributions, plus interest, less participant-initiated withdrawals or transfers. This the Contract's guaranteed value. The fair value of the Contract is determined using level 2 inputs. The guaranteed investment account offered by Great West is a fully-benefit responsive group deferred annuity contract with the value of the contract derived from the contract provisions.

The group annuity contract offered through Principal simulates the performance of a guaranteed investment contract through the guarantee of a specific interest rate and a portfolio of financial instruments that are owned by Principal. The participating plans' assets are the unit ownership interests in the Contract. Principal guarantees the amounts paid into the fund, plus interest, minus withdrawals for pariticipant-initiated withdrawal or transfer requests regardless of the investment performance of the separate investment account in which funds are invested. Fair market value is determined based on the plan's units owned and the fair value of the securities in the underlying separate accounts that the contract participates in.

The following table presents the financial assets carried on the Statement of Financial Position by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,178,192	$ -	$ -	$ 1,178,192

Total assets at fair value	$ 1,178,192	$ 370,613	$ -	$ 1,548,805

NOTE 4 - FAIR VALUE MEASUREMENT (continued)

The following table presents the financial assets carried on the Statement of Financial Position by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 1,029,049	$ -	$ 1,029,049

Total assets at fair value	$ -	$ 1,377,204	$ -	$ 1,377,204

NOTE 5 - GUARANTEED INVESTMENT CONTRACT

The Plan has a fully benefit-responsive investment offered through a group annuity contract. As of December 31, 2012, the guaranteed investment option was offered through a contract with Great West Life & Annuity Insurance Company. The Key Guaranteed Investment Portfoloio Fund provides a guarantee of principal and specified interest rates with the objective of providing preservation of capital

The Key Guarnateed Portfolio is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in teh contract, adn prevailing market conditions. Interest crediting rate is reset quarterly

Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfers to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

As of December 31, 2011, the Plan offered a fully-benefit responsive investment through Principal with the with Union Bond & Trust Company. The objective of this fund was to provide preservation of capital, relatively stable returns, regardless of the volatility of the financial markets consistent with its comparatively low risk profile, and liquidity for benefit-responive payments. The guaranteed investment contracts held within this fund are typically issued with a fixed crediting rate and a fixed maturity date that does not change over the life of the contract. The wrap contracts in this fund are predominately re-set on a monthly basis with a one-month look back for the portfolio statistics.

NOTE 5 - GUARANTEED INVESTMENT CONTRACT (continued)

Union Bond & Trust Company will guarantee principal and accrued interest, based on credited interest rates, for participant-initiated withdrawals as long as the contract remains active. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio. The account is charged for participant withdrawals and administrative expenses.

Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfers to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. The average yield and the average yield credited to participants was 1.45% and 1.45% for the year ended December 31, 2012 The average yield and the average yield credited to participants was 2.14% and 2.81% for the year ended 2011.

NOTE 6 - FINANCIAL DATA CERTIFIED BY THE TRUSTEE

The information included in the accompanying financial statements and supplemental schedules was obtained or derived from information supplied by and certified by the trustee in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure Under ERISA. Great West and Principal, the trustees of the plan, at December 31, 2012 and 2011, respectively, have certified that the information provided to the plan administrator is complete and accurate with regard to the Plan's investments and participant loans at December 31, 2012 and 2011, respectively, and net appreciation in fair value of investments, interest and dividends for the years ended December 31, 2012 and 2011 respectively.

NOTE 7 - TAX STATUS

The Plan obtained a determination letter dated March 31, 2008 in which the Internal Revenue Service stated that the Plan, as designed under a Proto-type Non-standardized Profit Sharing Plan, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been restated since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirments of the IRC and, therefore, believe that the Plan qualifies and is tax exempt.

NOTE 7 - TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by tax jurisdictions; however, there are currently no audits for any tax periods in progress. As of December 31, 2012, the Plan's tax years for the years ended December 31, 2009, 2010, and 2011 are subject to examination by the taxing authorities.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of Plan termination, participants would become 100 percent vested in any employer contributions made. In addition, no such action may deprive any participant or beneficiary under the plan of any vested right.

NOTE 9 - TRANSACTIONS WITH PARTIES IN INTEREST

The Plan invested in allocated insurance contracts and annuities sponsored by the plan's custodian, during the period covering January 1, 2012 through August 31, 2012 and the year ended December 31, 2011 as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Administrative fees related to the administration of the Plan are paid by the Plan. Other administrative fees may be paid by the Plan sponsor on behalf of the Plan.

NOTE 10 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 23, 2013, the date the financial statements were available to be issued.
