Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Typical Life Corp 401(k) Savings Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by State Street Bank and Trust Company, the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's assets and executes transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2012 and 2011, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2012, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of the Typical Life Corp 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering substantially all employees of Typical Life Corporation (the Agency). To be eligible to make salary deferrals, employees must complete six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute 1% up to 90% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of all contributions into various investment options offered by the Plan. The Agency may make a discretionary matching contribution to the Plan. Participants must make elective deferrals to the Plan to receive this matching contribution. The percentage of elective deferrals to be matched will be determined by the Agency and allocated to all eligible participants at the end of the Plan year whether or not they are employed on the last day of the Plan year. For the years ended December 31, 2012 and 2011, the Agency made discretionary matching contributions of $8,000 and $10,000, respectively. The Agency may also make non-elective contributions to the Plan. The non-elective contribution will be allocated to all employees eligible to participate in the Plan. The participant's share of the nonelective contribution is in proportion to their eligible earnings compared to the eligible earnings of the other employees who will also share in the contribution. There were no nonelective contributions made during 2012 or 2011. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Agency's contributions and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Agency contributions or pay administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the employer matching and nonelective contributions is based on years of service. A participant is 100% vested after 6 years of credited service, based on the following vesting schedule:

Years of Credited Service	Vested Percentage of Account
Less than 2	**0%**
2 but less than 3	**20%**
3 but less than 4	**40%**
4 but less than 5	**60%**
5 but less than 6	**80%**
6 or more	**100%**

Regardless of the number of years of service, a participants' account balance becomes fully vested when a participant retires, becomes permanently disabled, or dies.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years, unless the loan is to acquire the participant's principal residence, in which case the loan may be for up to thirty years. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2%, set the 14th day of each month. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited non-vested accounts totaled $160 and $10, respectively. During the years ended December 31, 2012 and 2011, the forfeited nonvested accounts were utilized to reduce the employer contribution in the amount of $-0- and $464, respectively.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through common collective trust funds. Contract value for the common collective trust funds is based on the net asset value of the funds as reported by the trustee. As required by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946, the statement of net assets available for benefits presents the fair value of the investment in the common collective trust funds, as well as the adjustment of the investment in the common collective trust fund from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (continued)

Administrative Expenses

Certain administrative expenses are paid by the plan sponsor.

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs, (ASU 2011-04)*. ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. See Note 4 for impact of adoption.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to the Plan's financial statements. The adoption of ASU 2012-04 is not expected to have a material impact on the Plan's financial statements in future periods.

Reclassifications

Certain amounts in the 2011 financial statements have been reclassified to conform to the 2012 presentation.

Note 3 - Information Certified and Provided by State Street Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2012 and 2011, and for the years then ended, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets. Investments that represent 5% or more of the Plan's net assets at December 31, 2012 and 2011 are separately identified.

Note 4 - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability and;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered investment companies (mutual funds) are valued at the net asset value of shares held by the Plan at year-end.

The Plan's interest in common collective trust funds is based on the fair value of the common collective trust funds' underlying investments as based on information reported by the trustee using the audited financial statements of the common collective trust fund at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realized value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Note 4 - Fair Value Measurements (continued)

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2012 and 2011.

	Common Collective Trust Fund	
	2012	**2011**
Balance, Beginning of Year	**$ 4,559**	$ 3,098
Transfers out of Level 3	**(4,559)**	-
Realized gain	**-**	36
Unrealized gains (losses) relating to instruments still held at the reporting date	**-**	(99)
Dividends	**-**	39
Purchases	**-**	5,028
Sales	**-**	(3,543)
Balance, End of Year	**$ -**	$ 4,559

As of January 1, 2012, management changed the fair value measurement assessment of the stable value fund from a Level 3 investment to a Level 2 investment. Management feels that this valuation methodology is more indicative as to how the investment contract is valued.

Unrealized gains (losses) from the common collective trust fund are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Note 4 - Fair Value Measurements (continued)

Fair Value of Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent) (continued)

a) The investment objective of this class is to approximate as closely as practicable, before expenses, the performance of the Russell 2000® Index over the long term, while providing participants the ability to purchase and redeem units on an "as of" basis. The class of investments seeks to offer broad, low cost exposure to stocks of small U.S. companies. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

b) The investment objective of this class is to approximate as closely as practicable, before expenses, the performance of the MSCI EAFE® Index over the long term, while providing participants the ability to purchase and redeem units on an "as of" basis. The class of investments seeks to offer broad, low cost exposure to international stocks of companies in the developed markets of Europe, Australia, and the Far East. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

c) The investment objective of this class is to approximate as closely as practicable, before expenses, the total return of the S&P 500® Index over the long term, while providing participants the ability to purchase and redeem units on an "as of" basis. The class of investments seeks to achieve its investment objective by investing substantially all of its investable assets in a corresponding portfolio of the State Street Equity 500 Index Portfolio (the S&P Master fund). Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

d) The investment objective of this class is to provide a total investment return in excess of the performance of the S&P 500 over the long term®, while providing participants the ability to purchase and redeem units on an "as of" basis. The class of investments invests in U.S. stocks with a market capitalization range consistent with the index. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

e) This class primarily invests in affiliated and unaffiliated collective trust funds and cash equivalents. The primary investment objective of this class is to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

Note 4 - Fair Value Measurements (continued)

Fair Value of Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent) (continued)

f) The objective of this class is to maximize current income, to the extent consistent with the preservation of capital and liquidity and the maintenance of a stable $1.00 per share net asset value, by investing in U.S. government securities and in repurchase agreements collateralized by U.S. government securities. Investments in this class can be redeemed daily at the current net asset value per share based on the fair value of the underlying investments. The fair value of the investments in this class has been estimated using the net asset value per share of the underlying investments.

Note 5 - Tax Status

Effective January 1, 2007, the Agency adopted a standardized form of a prototype plan sponsored by Automatic Data Processing, Inc. (ADP). The prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008 stating that the prototype plan is qualified under the appropriate section of the Internal Revenue Code (IRC). The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. Federal, state, or local tax authorities for years before 2009.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Agency has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Agency contribution portion of their account.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 - Related Party Transactions

Certain plan investments are shares of registered investment companies (mutual funds) managed by State Street Bank and Trust Company. State Street Bank and Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 9 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2012 and 2011 to Form 5500:

	2012	2011
Net Assets Available for Benefits Per the Financial Statements	**$ 238,112**	$ 153,245
Participant contribution receivable	**(2,224)**	-
Employer contribution receivable	**(7,840)**	(10,000)
Common collective trust funds	**(23,658)**	(13,413)
Value of interest in common/collective trusts	**23,373**	13,512
Excess contributions	**807**	1,155
Adjustment from Fair Value to Contract Value for Fully Benefit-Responsive Investment Contracts	**285**	(99)
Net Assets Available for Benefits Per the Form 5500	**$ 228,855**	$ 144,400

The following is a reconciliation of employer contributions received per the financial statements to Form 5500 for the years ended December 31, 2012 and 2011:

	2012	2011
Employer Contributions Received Per the Financial Statements	**$ 7,840**	$ 10,000
Employer Contributions Receivable		
Beginning of year	**10,000**	9,536
End of year	**(7,840)**	(10,000)
Employer Contributions Received Per the Form 5500	**$ 10,000**	$ 9,536

Note 9 - Reconciliation of Financial Statements to Form 5500 (continued)

The following is a reconciliation of participant contributions received per the financial statements to Form 5500 for the years ended December 31, 2012 and 2011:

	2012	2011
Participant Contributions Received Per the Financial Statements	**$ 61,381**	$ 43,484
Excess Contributions	**807**	1,155
Participant Contributions Receivable		
Beginning of year	**-**	-
End of year	**(2,224)**	-

The following is a reconciliation of total deductions per the financial statements for the years ended December 31, 2012 and 2011 to Form 5500:

	2012	2011
Total deductions per the financial statements	**$ 4,481**	$ 24,266
Excess contributions	**1,155**	-
Total Deductions Per the Form 5500	**$ 5,636**	$ 24,266

Excess contributions are recorded as a reduction of participant contributions on the financial statements in the year the excess contribution was made. Form 5500 requires these amounts to be reported separately as corrective distributions on Schedule H, Line 2f, when refunded to participants. Amounts due from the employer and participants at year-end are recorded as a receivable on the Plan's financial statements, which are prepared in accordance with the accrual basis of accounting. The Form 5500 is prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Note 10 - Excess Contributions

Excess employee contributions are amounts refunded or refundable to “highly compensated employees” as a result of failing to satisfy the actual deferral percentage (ADP) test.

Note 11 - Subsequent Events

The Plan has evaluated subsequent events through September 30, 2013. This date is the date the financial statements were available to be issued. No material events subsequent to December 31, 2012 were noted.
