1. Description of Plan:

The following description of the Patheon Pharmaceuticals Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan, which was effective January 1, 2003, is a defined contribution plan covering eligible employees of Patheon Pharmaceuticals Inc. (the "Company") and Patheon Pharmaceutical Services Inc. ("PPSI"). Eligible employees include employees of the Company and PPSI who have completed three months of continuous service, if classified as full time or co-op, and one year (i.e., one thousand hours) of service if classified as part time. There is no age requirement to enter the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered through a trust.

Contributions

Participants may contribute up to 50 percent of their eligible compensation to the Plan, subject to certain limits permitted by law. Each employer may make discretionary matching contributions up to 100 percent of the first 4 percent of deferrals. Employees of the Company who are employed on the last day of the Plan year may also be allocated an additional discretionary matching contribution as well as a discretionary performance contribution.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and (b) plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and transition retirement contributions (if any) plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through monthly payroll deductions.

Payment of benefits

On termination of service, participants with a vested balance of \$1,000 or less may receive a lump sum distribution of their vested balance, or receive a rollover to another qualified plan at the Plan sponsor's discretion. Those with vested balances greater than \$1,000 may receive a lump sum distribution of their vested balance, receive a rollover to another qualified plan at the Plan sponsor's discretion, or elect to leave their funds in the Plan. On termination of service due to death, a death benefit equal to the value of an employee's account will be paid to the employee's beneficiary.

Forfeited accounts

For the year ended December 31, 2012, forfeitures of nonvested accounts totaled \$119,149. In 2012, employer contributions were reduced by \$113,516 by the forfeited nonvested accounts. The balance in the forfeiture account available to reduce future employer contributions or to pay plan expenses was \$6,461 and \$82 at December 31, 2012 and 2011, respectively.

2. Summary of Significant Accounting Policies:**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in an investment contract through common/collective trusts. The statements of net assets available for benefits present the fair value of the investment in the common/collective trusts as well as the adjustment of the investment in the common/collective trusts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in either net appreciation of fair value of investments or in investment management fee expense.

Subsequent events

The Plan has evaluated subsequent events through September 20, 2013, the date the financial statements were available to be issued.

3. Information Certified by the Trustee:

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information included on the statements of net assets available for benefits and the supplemental schedule of assets (held at end of year), as well as the investment income shown on the statement of changes in net assets, which were certified by T.Rowe Price Trust Company, the trustee of the Plan, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

4. Investments:

Fund balances that represent 5 percent or more of the Plan's net assets available for benefits as of December 31, are as follows:

	<u>2012</u>	<u>2011</u>
Pimco Total Return Admin Fund	\$ 10,772,005	9,801,224
Artisan International Fund	3,514,468	2,991,795
TRP Equity Income Fund	4,888,662	4,402,046
TRP Mid Cap Growth Fund	8,032,407	7,417,414
TRP Small Cap Stock Fund	5,696,404	5,011,723
TRP Blue Chip Growth Fund	4,843,664	4,165,678
TRP Stable Value Fund Sch E*	10,939,459	10,253,290

* At contract value.

During the year ended December 31, 2012, the Plan's investments (including investments bought, sold and held during the year) appreciated in value as follows:

Mutual funds	\$ 4,636,857
Common/collective trust funds	324,372
Common stocks	<u>17,585</u>
	\$ <u>4,978,814</u>

5. Fair Value Measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common stocks: Valued at the closing price reported in the active market in which the individual security is traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: The common/collective trust funds are public investment vehicles valued using a Net Asset Value (NAV) provided by the manager of each fund. The NAV is based on the underlying net assets owned by the fund, divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on an active market, and valued at the closing price reported on the active market on which those individual securities are traded. The significant investment strategies of the funds are as described in the financial statements provided by each fund.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

6. Related Party Transactions:

Certain Plan investments are shares of funds managed by T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Other fees incurred by the Plan for investment advisory services from Morgan Stanley Smith Barney are included in both other credits revenue and investment advisory service fees, as they are paid through revenue sharing rather than a direct payment to Morgan Stanley Smith Barney.

7. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, each participant will become 100% vested in their account.

8. Tax Status:

The Plan obtained its latest determination letter on October 16, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the Plan is currently designed and being

operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of the amounts reported in the financial statements as of December 31, 2012 and 2011, and for the year ended December 31, 2012, and those reported on the Form 5500:

	<u>2012</u>	<u>2011</u>
