We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. Affinity Development Group
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2012

Note A - Description of the Plan

The following description of Affinity Development Group 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- *General* - The Plan is a defined-contribution plan. Employees are eligible at the date of hire and provided they are at least 21 years of age. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

- *Contributions* - Each year, participants may contribute a percentage of pre-tax compensation, as defined in the Plan, up to the maximum permitted by law. Participants may also contribute amounts representing distributions from other defined-contribution or benefit plans. The Company may also contribute to the Plan through discretionary matching contributions, and discretionary profit sharing contributions. If the Company elects to satisfy the safe harbor provision, it will contribute to the "safe harbor 401(k) plan" contribution. All Company contributions are in cash. Contributions are subject to certain limitations.

- *Participant Accounts* - Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) charged an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

- *Vesting* - A participant is immediately 100% vested. All participant and company are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions portion of their accounts is immediate.

- *Investment Options* - Upon enrollment in the Plan, a participant may direct employee contributions in any percentage to any of the investment funds offered by TRI-AD Capital Management, Inc. 401(k) Services. Participants may change their investment options at their discretion.

- *Administrative Expenses* – Certain expenses incurred in the administration of the Plan are paid directly by the Company.

- *Forfeitures* – Forfeitures on non-vested Company contributions are used to reduce future Company contributions. At December 31, 2012, there are no forfeitures.

Note A - Description of the Plan (Continued)

- *Notes Receivable from Participants* - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 50% of their vested interest in the plan, but not to exceed $50,000. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes Fund. Loan terms range from one to five years or the Administrator may approve a longer term for purchase of a primary residence. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest for any loan received from the plan. The Administrator will determine a reasonable rate of interest after having reviewed the interest rates charged for similar types of loans by other lenders. Principal and interest is paid ratably through bi-weekly payroll deductions.

- *Payment of Benefits* - On termination of service due to death, disability, or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest. Distributions will be made in cash or property. For termination of service due to other reasons, participant may elect to receive the value of the participant's vested interest in his or her account as a lump-sum distribution. If the value of vested benefits upon termination is less than $1,000 a lump-sum distribution is mandatory.

Note B - Summary of Significant Accounting Policies

- *Basis of Accounting* – The Plan's Financial Statements were prepared on a modified cash basis of accounting.

- *Use of Estimates* - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of Plan assets and liabilities and changes therein at the date of the financial statements. Actual results could differ from those estimates.

- *Investment* – The investments in all of the funds are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2012 and 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

- *Contributions* - Employee and employer contributions are recorded on an accrual basis.

- *Payment of Benefits* – Benefits are recorded when paid.

Note B - Summary of Significant Accounting Policies (continued)

- *Notes Receivable from Participants* – Notes receivable from participants is measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

- *Risk and Uncertainties* - The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

- *Subsequent Events* – The Plan has evaluated subsequent events through October 7, 2013, the date the financial statements were available to be issued

- *Other Transactions* - Other transactions are generally recorded on a trade-date basis (cash).

Note C - Significant Plan Amendments

- *Amended Adoption Agreement* - Effective January 1, 2005, Safe Harbor Plan provisions were added to the Plan. In exchange for making either a required Safe Harbor matching contribution or non-elective contribution, the Plan avoids non-discrimination testing.

Note D - Plan Termination

- *Termination of Plan* - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, no further contributions will be made to the Plan and all amounts credited to the accounts will continue to be 100% vested. Distributions will occur in a manner permitted by the Plan as soon as practicable.

Note E - Tax Status

- *Tax Compliance of the Plan* - The Plan obtained its latest determination letter on August 7, 2001 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the financial statements.

Note F – Risk and Uncertainties

Risk and Uncertainties - The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits

Note G – Related Party Transactions

Certain Plan Investments are shares of mutual funds managed by Charles Schwab. Charles Schwab is the trustee as defined by the plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services amounted to $3,010.

Note J – Fair Value Measurements

FASB ASC 820, Fair value measurement and disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note J – Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common stocks and other opened market instruments: Valued at the closing price reported on the active market on which the individual securities are traded.
Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.
Participant loans: Values at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:
