Note 1 - Plan Description

The following description of The Lutgert Companies' Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of The Lutgert Companies (the "Company"). Any employee of the Company who has attained 21 years of age is eligible to participate in the Plan. Eligible employees can enter the Plan on the first day of each calendar month, following the date that eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - An eligible employee may elect to contribute an amount equal to 1 percent to 15 percent (in whole percentages) of the employee's before-tax earnings, not to exceed current Internal Revenue Service (IRS) regulations. These contributions are not subject to federal income tax until withdrawn. Eligible employees may also contribute, with the consent of the plan administrator, amounts representing distributions from other qualified plans (rollover contributions).

The employer may make discretionary nonmatching contributions designated by job classification, as defined by the plan document. An eligible employee will share in the discretionary contributions if he or she is employed with the employer on the last day of the plan year and has completed at least 1,000 hours of service during the plan year. There was no discretionary employer nonmatching contribution in 2012.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings, and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are fully vested upon reaching the retirement age of 65, or due to death or disability. Participants are always 100 percent vested in their elective and rollover contribution accounts. A participant is vested in nonmatching contribution accounts as follows:

Note 1 - Plan Description (Continued)

Completed Years of Service	Percentage Vested
Less than 1	- %
1	20
2	40
3	60
4	80
5 or more	100

Participant Notes Receivable - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates at the time of issuance. Principal and interest are paid ratably through payroll deductions.

Benefit Payments - Benefits may be paid to the participant or beneficiary upon death, disability, retirement, or termination of employment, as defined in the plan agreement. The Plan provides for normal retirement at age 65 and early retirement on or after attaining age 55. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment or installments. Participants experiencing financial hardship may withdraw a portion of this account balance as defined in the Plan.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At December 31, 2012 and 2011, forfeited account balances totaled $9,260 and $33,303, respectively. During 2012, no forfeitures were used to reduce the prior year employer contribution.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Transamerica Life Insurance Company (Transamerica) or its affiliates. Transamerica is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except for the unallocated insurance contract which is at contract value. The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets. The unallocated contract is a group annuity contract with Transamerica that invests in the general assets of Transamerica. Transamerica considers this contract to be benefit-responsive; however, since there are no specific securities in Transamerica's general account related to this contract and due to the contract terms, including the frequency of the interest rate reset intervals, contract value approximates fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 12, 2013, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Transamerica (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Investments that comprise a significant portion of end of the year net assets are as follows:

	2012	2011
Pooled separate accounts:		
Transamerica Bond	$ 713,725	$ 597,787
Transamerica Aggressive Growth	500,439	625,287
Transamerica Growth Opportunity	1,523,061	1,575,195
Transamerica Core Equity	628,640	718,446
Oppenheimer Global	754,839	737,996
Unallocated insurance contract - Transamerica Stable Value Fund	3,184,798	2,978,565

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 4 - Fair Value Measurements (Continued)

Restatement - Due to a re-evaluation of the significance of the inputs used in the valuation of the unallocated insurance contract, it was determined that the investment previously classified as Level 3 should have been classified as Level 2 based on the fair value hierarchy. Accordingly, the following 2011 fair value disclosure has been updated to reflect this change.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

(2) This class represents investments in actively managed pooled separate accounts that invest primarily in a variety of fixed-income investments which may include bonds, both U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

(3) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

There were no unfunded commitments or redemption restrictions on the investments described above.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy that took place during 2012.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 7 - Unallocated Insurance Contract

The Plan has entered into a benefit-responsive investment contract with Transamerica, the Transamerica Stable Value Fund. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Transamerica is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. There is no stated minimum or maximum interest rate. Effective July 1, 2012, such interest rates are reviewed on a semi-annual basis for resetting. Prior to July 1, 2012, such interest rates were reset on a monthly basis.

Certain events limit the ability of the Plan to transact at contract value with Transamerica. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan; or (iv) the failure of the Plan to quality for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date unless the balance of the contract is zero and no current deposit arrangements have been made. Contract termination also may occur by either party upon election and notice.

Because the Transamerica Stable Value Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to fully benefit-responsive investment contracts. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

	2012	2011
Average yield earned by the Plan	1.65%	2.20%
Average yield credited to participants	1.65%	2.20%
