Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Transamerica Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

NOTE A. DESCRIPTION OF PLAN

The following description of the Ferrara Pan Candy Co., Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1) General

The Plan is a defined contribution plan covering all eligible employees of Ferrara Pan Candy Co., Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2) Contributions

Participants may elect to contribute Roth deferrals and/or pre-tax earnings up to current Internal Revenue Service ("IRS") regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. All employees of the Company are eligible to participate in the Plan as follows: 401(k) Contributions – a participant is eligible to make elective 401(k) salary deferrals on the first day of the month following completion of six months of service, provided at least 500 hours of service has been completed within that six month period.

Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain IRS limitations.

The Plan was written to allow rollovers from Ferrara Pan Candy Co. Profit Sharing Plan. These amounts were included in "Employee rollovers in" on the accompanying statement of changes in net assets available for benefits.

3) Participant Accounts

Each participant's account is credited with the participant's elective pre-tax and after-tax contributions and allocations of: a) the Company's discretionary profit sharing contribution (if applicable), b) investment earnings and c) administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is what can be provided from the participant's vested account.

4) Vesting

Participants are 100% vested immediately in their elective pre-tax and roth deferral contributions plus actual earnings therein.

5) Notes Receivable from Participants

Participants may borrow from their account a minimum loan of $1,000 and up to a maximum amount equal to the lessor of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

NOTE A. DESCRIPTION OF PLAN: (Continued)

6) Payment of Benefits

Upon termination of service, a participant may elect to receive a single lump-sum payment or payments in equal installments over a period of not more than the participant's assumed life expectancy at the time of the distribution.

NOTE B. SUMMARY OF ACCOUNTING POLICIES

1) Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in conformity with generally accepted accounting principles.

2) Subsequent Events

The Plan has evaluated subsequent events through September 24, 2013, the date which the financial statements were available to be issued.

3) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

4) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

5) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid capital balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

DECEMBER 31, 2012 AND 2011

NOTE B. SUMMARY OF ACCOUNTING POLICIES: (Continued)

6) Payment of Benefits

Benefit obligations are recorded when paid.

7) Administration of Plan

The Company absorbs significant costs of the Plan administration by paying expenses directly.

NOTE C. INCOME TAXES

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service has determined and informed the Company that the Plan and related trust, as then designed, were designed accordance with the applicable sections of the Internal Revenue Code. Although, the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan has adopted the provisions of ASC Topic 740, *Income Taxes*, relating to the accounting for uncertainty in income taxes. The Plan files employee benefit plan returns in the U.S. federal jurisdiction. With few exceptions, the Plan administrator believes it is not subject to U.S. federal tax examinations by tax authorities for years before 2009.

NOTE D. PLAN TERMINATION

The Plan has expressed intent to liquidate or merge in 2013. The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all assets will be liquidated and paid to Plan participants.

NOTE E. INVESTMENTS

At December 31, 2012, the assets of the Plan were held by Transamerica Life Insurance Company, the custodian of the Plan. All investment information pertaining to Transamerica Life Insurance Company, including investment assets, transactions, and income and the schedules of investments and reportable transactions, has been certified by the custodian. The investments held at Transamerica Life Insurance Company are completely participant-directed.

	2012

Contracts with insurance company	16,507
Total	$ 542,566

NOTE F. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTE F. FAIR VALUE MEASUREMENTS: (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2012, and 2011.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan as of the end of the year.

Contracts with insurance company: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issue. According to the Plan custodian, the fair value of the Plan's guaranteed investment contracts approximate the contract value as of the end of the year.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012, and 2011:

	Assets, at Fair Value, as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 4,288,234	$ -	$ 4,288,234
Contracts with insurance company	-	807,224	-	807,224
Total assets, at fair value	$ -	$ 5,095,458	$ -	$ 5,095,458

	Assets, at Fair Value, as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 3,407,450	$ -	$ 3,407,450
Contracts with insurance company	-	764,630	-	764,630
Total assets, at fair value	$ -	$ 4,172,080	$ -	$ 4,172,080

NOTE G. INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan has entered into a benefit-responsive investment contract with Transamerica Life Insurance Company (Transamerica). Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the investment custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. According to the Plan's custodian, the fair value of the guaranteed investment contracts is equal to the contract value as of December 31, 2012. The average yield and crediting interest rate was 2.00% and 2.86% for 2012 and 2011. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), 2) change's to the Plan's prohibition on competing investment options or delegation of equity wash provisions, 3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administer does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
