INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Poly-America, L.P. Retirement Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Poly-America, L.P. Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Poly-America, L.P. Retirement Plan as of December 31, 2012 and 2011, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Assets (Held at End of Year), Assets (Acquired and Disposed of Within Year), and Reportable Transactions, together referred to as "supplemental information," are presented for purposes of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements taken as a whole.

POLY-AMERICA, L.P. RETIREMENT PLAN
Notes to Financial Statements
December 31, 2012 and 2011

1 - Description of Plan

The following description of the Poly-America, L.P. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General - The Plan is a defined contribution 401(k) plan, covering all full-time employees of Poly-America, L.P. (the "Sponsor") and certain related companies. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is intended to be a qualified retirement plan under the Internal Revenue Code.

B. Contributions - Participants may voluntarily contribute to the Plan up to 50 percent of their compensation, as defined by the Plan, not to exceed limits imposed by the Internal Revenue Service during the calendar year. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Annually, the Companies may elect to contribute a matching percentage of the participants' eligible contributions. During 2012 and 2011, the Companies matched an amount equal to 100 percent of each participant's contribution up to 6 percent of the participant's compensation. The employer matching contributions, net of forfeitures, were $3,554,867 and $3,464,967 in 2012 and 2011, respectively.

In addition, the Companies made a discretionary employer nonelective ("profit sharing") contribution in 2012 and 2011 equal to 1 percent of eligible participants' compensation as defined in the Plan, subject to limits imposed by Internal Revenue Service regulations. The amounts of the profit sharing contributions were $851,924 and $815,762 in 2012 and 2011, respectively.

C. Expenses of Administration of the Plan - All costs of administering the Plan are paid by the Sponsor.

D. Participant Accounts - Each participant's account is credited with the participant's contributions, an allocation of the Companies' matching and profit sharing contributions, and an allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

E. Eligibility and Vesting - Employees of the Companies may participate in the Plan provided the employee has attained age 21 and has completed one year of service.

Participants are immediately vested in their contributions plus the allocated earnings thereon. Vesting in the Employers' matching and profit sharing contribution portion of their accounts plus allocated earnings thereon is based on years of vesting service. A participant is 100 percent vested after three years of credited service for the matching and profit sharing contribution accounts. A participant becomes 100 percent vested in all accounts upon the attainment of age 65 without regard to vesting service.

F. Participant Investment Options - The Plan offers no investment options to participants and does not allow participant directed investments.

G. Notes Receivable from Participants - Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, not to exceed the amount in their deferral account. Loans are available only for the purchase of a principal residence and are for a five-year term. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the yield to maturity, plus 1 percent, on U.S. Treasury securities maturing in five years. The range of interest rates in effect for all outstanding loans at December 31, 2012 was 1.58% to 4.56%. Loan repayments, including interest, are made through payroll deductions. All interest paid is credited to the borrower's account.

Loan balances and accrued interest of terminated participants that are not repaid within thirty days of the Plan Administrator's mailing of a notice of default are treated as distributions.

1 - Description of Plan (Continued)

H. Payment of Benefits - Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Terminated participants may allow their balances to remain in the Plan until they reach age 65 if their account balance is greater than $1,000.

I. Forfeited Accounts - Forfeitures of non-vested matching contributions are used to reduce the employer matching contributions. Forfeitures of non-vested profit sharing contributions are allocated to eligible participants based on compensation as if the forfeitures were an additional profit sharing contribution.

Forfeitures allocated in each year were:	2012	2011
Non-vested matching contributions	$ 17,218	$ 23,971
Non-vested profit sharing contributions	10,771	12,146

2 - Summary of Significant Accounting Policies

A. Basis of Accounting - The accompanying financial statements were prepared on the accrual basis of accounting.

B. Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

C. Investments Valuation and Income Recognition - The Plan's investments are stated at fair value. Interest income is recorded on the accrual basis.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statement of net assets available for benefits presents the fair value of the investment in the common/collective trust, as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The Plan's interest in the common/collective trust fund is valued based on information reported by the investment advisor using the audited financial statements of the common/collective trust at December 31, 2012.

D. Payment of Benefits - Benefits are recorded when paid.

E. Subsequent Events - The Plan has evaluated subsequent events through July 9, 2013, the date the financial statements were available to be issued.

3 - Plan Termination

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and the Sponsor may terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100 percent vested in their accounts.

4 - Federal Income Tax Status

The Plan is a non-standardized prototype profit sharing plan with a cash or deferred arrangement. The Internal Revenue Service has determined and informed the prototype sponsor by a letter dated March 16, 2010, that the Plan is acceptable under section 401(a) of the Internal Revenue Code ("IRC") for use by employers for the benefit of their employees. That letter on the acceptability of the form of the Plan is not a ruling or determination as to whether an employer's plan qualifies under IRC section 401(a). However, an employer that adopts the prototype plan may rely on such letter with respect to the qualification of its plan under IRC section 401(a) as provided for in Rev. Proc. 2005-16. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

5 - Investments

The Plan's investments are held in money market funds, certificates of deposit, a common/collective trust fund, and securities issued by U.S. Government Agencies and are carried at fair value.

On February 1, 2011, all investments held by the Plan in the Bank of America, N.A. Retirement Preservation Trust were transferred into the Invesco Stable Value Retirement Fund, Class 2 ("Retirement Fund"). The Retirement Fund is a common/collective trust which invests the majority of its assets in the Invesco Stable Value Trust and synthetic investment contracts (SICs). The Invesco Stable Value Trust invests principally in guaranteed investment contracts (GICs) issued by insurance companies, investment contracts issued by banks, SICs issued by banks, insurance companies, and other issuers, and securities supporting such SICs, and other similar instruments which are intended to maintain a constant net asset value.

The investment objective of the stable value fund is to seek the preservation of principal and to provide interest income reasonably obtained under the prevailing market conditions and rates.

All certificates of deposit in excess of $250,000 qualify for FDIC insurance on a per-participant basis.

The following investments as of December 31, 2012 and 2011 represent 5% or more of the Plan's net assets available for benefits:

	2012	2011
Invesco Stable Value Retirement Fund, Class 2	$ 41,233,844	$ 36,487,425

6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7 - Fair Value Measurements

As required by the Fair Value Measurements topic of the Financial Accounting Standards Board *Accounting Standards Codification* ("FASB ASC"), all financial assets and liabilities are measured at fair value on a recurring basis. The topic establishes a framework for measuring fair value and enhances disclosure requirements for fair value measurements. The topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The topic establishes market or observable inputs as the preferred sources of values, followed by assumptions based on hypothetical transactions in the absence of market inputs. The topic establishes a hierarchy for grouping these assets and liabilities, based on the significance level of the following inputs:

Level I – Quoted prices in active markets for identical assets and liabilities.

Level II – Observable inputs other than quoted prices included in Level I, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level III – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following table presents a summary of the Plan's investments measured at fair value on a recurring basis and where they are classified within the hierarchy as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012
