CSS Corp. 401(k) Plan
Notes to Financial Statements
December 31, 2012 and 2011

Note 1: Description of the Plan

The following description of CSS Corp. 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan was formed on January 1, 2011, and was amended and restated on July 1, 2011. The Plan is a defined contribution plan sponsored by Slash Support, Inc., d/b/a CSS Corporation (the Company or the Employer) for the benefit of its employees who have at least one year of service and are age 21 or older. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Great-West Trust Company, LLC (Great-West), serves as custodian. Effective September 2012, the custodian changed its legal name from Orchard Trust Company, LLC to Great-West Trust Company, LLC.

In January 2011, the Company transferred into this Plan the assets in the amount of approximately $1,350,000 and the related participants from another plan related to an entity purchased by the Company.

Contributions

The Plan permits eligible employees, through a salary deferral election to have the Company make annual contributions of up to 92% of eligible compensation. Employee rollover contributions are also permitted. The Company may make discretionary matching contributions to the Plan on an annual basis. Company discretionary matching contributions are allocated to participants in the proportion each participant's contribution bears to total participant contributions. The Company's profit-sharing contributions are discretionary as determined by the Company's Board of Directors. A participant must be employed on the last day of the plan year and have 1,000 hours of service to be eligible for any Company profit-sharing contribution. The Company's profit-sharing contributions are allocated based upon each eligible participant's annual salary, as defined, in proportion to total eligible participant salaries. No Company matching or profit-sharing contributions were made during 2012 or 2011. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds. Participants have the option of directing their contributions into any of the separate investment accounts and may change the allocation daily.

The plan document also includes an automatic deferral feature whereby a participant is treated as electing to defer 3% of eligible compensation unless the participant made an affirmative election otherwise.

CSS Corp. 401(k) Plan
Notes to Financial Statements
December 31, 2012 and 2011

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service which occurs at a rate of 20% per year of employment after an initial vesting of 20% at the end of the second year. A participant is fully vested after six years of continuous service for Company contributions. The nonvested balance is forfeited upon termination of service.

Payment of Benefits

Upon termination of service, retirement or permanent disability, a participant may elect to receive a lump-sum amount equal to the vested value of their account or a rollover to another qualified retirement plan.

Forfeited Accounts

Forfeitures may be used to reduce the Company's future contributions.

Participant Loans

The plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. Only one loan may be outstanding at a time. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on the prime rate of interest published in the Wall Street Journal plus 1%. Participant loans are included in the accompanying statements of net assets available for benefits as notes receivable from participants.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The accompanying statements of net assets available for benefits and statements of changes in net assets available for benefits are presented at fair value which approximates contract value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The investment contract is stated at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the average crediting rate of interest, which approximates contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the plan document.

Plan Tax Status

The Plan operates under a standardized adoption agreement in connection with a volume submitter retirement plan and trust document sponsored by Continental Benefits Group, Inc. This volume submitter plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2009.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

Note 3: Investments

The Plan's investments are held by Great-West. The fair value of the Plan's investments at the end of the year is as follows:

	2012	2011
Mutual funds	$ 3,350,316	$ 2,511,000
Investment contract	221,189	111,084
	$ 3,571,505	$ 2,622,084

The Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in fair value as follows:

	2012	2011
Mutual funds	$ 262,999	$ (189,803)
Investment contract	-	-
	$ 262,999	$ (189,803)

The fair value of individual investments that represented 5% or more of the Plan's net assets available for benefits were as follows:

	2012	2011
Great-West Lifetime 2025 Portfolio II T1	$ 982,381	$ 797,038
Great-West Lifetime 2035 Portfolio II T1	$ 818,292	$ 621,212
Great-West Lifetime 2015 Portfolio II T1	$ 383,856	$ 319,368
Great-West Lifetime 2045 Portfolio II T1	$ 219,923	N/A
Great-West Key Guaranteed Portfolio Fund	$ 221,189	N/A

Interest and dividends realized on the Plan's investments for the years ended December 31, 2012 and 2011, were $116,827 and $123,871, respectively.

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of Great-West. Certain Plan administrative expenses were paid by the Company during the years ended December 31, 2012 and 2011. The Company provides certain administrative services at no cost to the Plan.

Note 5: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable input. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2012 and 2011:

		Fair Value Measurements Using

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2012. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Note 6: Investment Contract with Insurance Company

In 2011, the Plan entered into a fully benefit-responsive investment contract with Great-West who maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

As described in the basis of accounting disclosure, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011, was $221,189 and $111,084, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The crediting interest rate at December 31, 2012 and 2011, is 1.45% and 1.80%, respectively. The actual average yield earned is 1.45% and 2.03%, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 7: Nonexempt Transactions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the Employer's general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the Employer. While the Company has remitted all employee contributions to the Plan, contributions of $11,819 were not remitted within the required time period during the year ended December 31, 2011, of which $9,245 was subsequently remitted during 2012 ($2,574 was remitted during 2011).

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Subsequent Events

Subsequent events have been evaluated through October 2, 2013, which is the date the financial statements were available to be issued.
