Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

To the Plan Administrator of
Versailles Plant of Kuhlman Electric Corporation
Retirement Income Plan for Hourly Employees:

Report on the financial statements

We were engaged to audit the accompanying financial statements of **Versailles Plant of Kuhlman Electric Corporation Retirement Income Plan for Hourly Employees** (the Plan), which comprise the statement of net assets available for benefits and statement of accumulated plan benefits as of December 31, 2012, and the related statement of changes in net assets available for benefits and statement of changes in accumulated plan benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph; however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2012 and 2011, and for the years ended December 31, 2012 and 2011, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other matter

The financial statements of the Plan as of and for the year ended December 31, 2011 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the certified information. Their report, dated October 12, 2012, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and accordingly, they did not express an opinion on the financial statements, and (b) the form and content of the information included in the financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Supplementary information

The supplemental Schedule G, Part III – Schedule of nonexempt transactions for the year ended December 31, 2012 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Disability	Not applicable. There are no active participants.
Retirement	Age 65 for terminated vested employees.
Form of payment	Participants not yet in payment status are assumed to elect a single life annuity form of payment upon benefit commencement
Percent married	For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of eligible participants are assumed to be married
Spouse age	Wife three years younger than husband
Administrative expenses	The amount included this year for plan-related expenses is \$60,000.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the Plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the Plan. Note, the plan is not at-risk in the current plan year.
Participant Data	Employee data was supplied electronically as of the valuation date by Fidelity on behalf of ABB Inc.
Future increases in maximum benefits and plan compensation limitation	Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.
Tax policy	The actuarial valuation performed for the plan year ending December 31, 2012 is used to determine the maximum deductible contribution for the tax year ending December 31, 2012.

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits

Target normal cost Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.

Actuarial value of assets Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.57%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.00%, and the applicable limitation for the plan year, equal to 6.57%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.82%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 7.00%, and the applicable limitation for the plan year, equal to 6.82%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.3. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Benefits not valued Generally, benefit changes which are adopted after the first day of the plan year are not recognized for such plan year.

To the best of our knowledge, all benefits were included in this valuation.

**Change in assumptions
and methods since prior
valuation**

In addition to the prescribed changes in the discount rate and mortality table, the following change in assumptions and methods was made as part of this valuation:

- The plan's effective interest rate increased 73 basis points compared to the prior year (6.91% vs. 6.18%), which reduced the minimum funding requirement and the funding shortfall. This change includes an increase of 160 basis points due to reflecting the interest rate corridors under MAP-21.
- The assumed plan-related expenses added to the target normal cost were changed from \$100,000 to \$60,000.

Benefits

Normal retirement

Monthly Benefit and Eligibility:

The benefit level multiplied by years of credited service, payable upon retirement at the later of age 65 and the 5th anniversary of the date of hire.

Benefit Level:

Termination Date	Benefit Level
Effective 02/27/1995	\$18.00
Effective 03/01/1997	\$19.00
Effective 03/01/1998	\$20.00
Effective 03/01/2000	\$22.00

Early retirement

A monthly benefit payable upon retirement at age 60 with 10 years of credited service. This benefit will be reduced 5/9% for each month that retirement precedes Normal Retirement Date.

Late retirement

A monthly benefit payable upon retirement after Normal Retirement Date in an amount equal to the greater of (a) a benefit based on Credited Service at Late Retirement, or (b) an actuarially increased benefit based on Credit Service at Normal Retirement.

Vested termination

Upon termination of employment after 5 years of vesting service, an employee will be entitled to a deferred vested benefit equal to the benefit level multiplied by years of credited service, payable in full at age 65. The member may elect commencement on or after age 60 if he has at least 10 years of credited service. This benefit will be reduced 5/9% for each month that retirement precedes Normal Retirement Date.

Disability

A monthly benefit equal to the benefit level multiplied by years of benefit service to the date of disablement, reduced by Worker's Compensation benefits, payable after permanent and total disablement following 10 years of credited service.

Preretirement death benefit

In the event of death of a vested employee prior to retirement, his surviving spouse will be entitled to 50% of the reduced accrued benefit as of the date of death, payable upon the later of (1) the date of employee's death and (2) the attainment of the employee's earliest retirement age. There is a charge for this coverage for the period from age 35 to age 65.

To the Plan Administrator of
Versailles Plant of Kuhlman Electric Corporation
Retirement Income Plan for Hourly Employees:

Report on the financial statements

We were engaged to audit the accompanying financial statements of **Versailles Plant of Kuhlman Electric Corporation Retirement Income Plan for Hourly Employees** (the Plan), which comprise the statement of net assets available for benefits and statement of accumulated plan benefits as of December 31, 2012, and the related statement of changes in net assets available for benefits and statement of changes in accumulated plan benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph; however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2012 and 2011, and for the years ended December 31, 2012 and 2011, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other matter

The financial statements of the Plan as of and for the year ended December 31, 2011 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the certified information. Their report, dated October 12, 2012, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and accordingly, they did not express an opinion on the financial statements, and (b) the form and content of the information included in the financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Supplementary information

The supplemental Schedule G, Part III – Schedule of nonexempt transactions for the year ended December 31, 2012 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Plan Description

The following brief description of the Versailles Plant of Kuhlman Electric Corporation Retirement Income Plan for Hourly Employees (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

General

The Plan was established effective January 1, 1970 to provide retirement benefits to eligible employees of Kuhlman Electric Corporation (the "Company" or "Employer"). Kuhlman Electric Corporation was acquired by ABB Inc. in 2008. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is also subject to the agreement effective February 27, 2000 with the International Union, United Automobile, Aerospace and Agricultural Implement Workers of America (U.A.W.) and its affiliated Local No. 1772. The Company ceased significant operations at the Versailles plant location effective June 30, 2009.

Effective December 31, 2012, The Plan was merged into Pension Plan for Hourly Employees of ABB Inc. This merger does not affect participants and beneficiaries pension benefits as the benefit provisions for the former plan will remain the same and will continue to be determined by the terms and conditions of the Plan. As a result of this merger, net assets and accumulated plan benefits of approximately \$10,116,209 and \$12,358,304 were transferred to the Pension Plan for Hourly Employees of ABB Inc.

Participation and Vesting

Participants are 100% vested after completing 5 years of eligibility service. The Plan was amended to freeze participation in the Plan effective February 27, 1994. Therefore, all employees hired after this date will not be eligible to participate in the Plan.

Pension Benefits

Participants with 5 or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to their Credited Service (limited to a maximum of 30 years) multiplied by the benefit rate in effect on their last day of work. The Plan permits early retirement for those eligible employees attaining age 60 with at least 10 years of Credited Service. The accrued benefit will either be deferred to age 65 or payable immediately but reduced 5/9 of 1% for each month prior to age 65. Employees may elect to receive the value of their accumulated plan benefits in one of the following forms as described in the Plan: 1) a Life Annuity Option, 2) a Surviving Spouse Option, or 3) a 60 Month Option.

Active covered employees who have provided at least 10 years of service to the Company and who become permanently and totally disabled receive Permanent and Total Disability Retirement Benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled, reduced by any Workers' Compensation Benefits received. Disability retirement benefits are paid until normal retirement age (65) at which time, disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their Credited Service remaining the same as at the time they became disabled.

When a covered or vested employee dies, the employee's benefits or remaining benefits (if the distribution of benefits has commenced), if any, shall be distributed to the participant's beneficiary. If, after completing 5 years of service, a covered or vested employee under the age of 60 dies, a death benefit equal to that which would be available under the Surviving Spouse. Option is paid to the employee's legal spouse of one year, provided the Pre-Retirement Survivor Annuity Coverage is in effect.

Forfeiture

A covered employee's retirement benefit shall become non-forfeitable upon the later of their 65th birthday or 5th anniversary of their date of hire. Unclaimed benefits, after a period of 3 years, shall be forfeited and revert to and become part of the Trust; however, such forfeiture shall be reinstated if the person to whom such benefit is due and owing shall subsequently make a written application to the Administrative Committee.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefit payments are recorded when paid to participants.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Funding Policy

The Company shall make contributions to the Plan as shall be necessary under accepted actuarial principles to meet the minimum funding requirements of ERISA. Employer contributions are based on an actuarial determination which provides for funding (a) the annual normal cost for the current year, and (b) an amount necessary to amortize the unfunded accrued liability. It is the Company's intention to only make contributions that are deductible under Section 404 of the Internal Revenue Code. For each of the years ended December 31, 2012 and 2011, the Plan has satisfied the minimum funding requirements of ERISA.

Valuation of Investments and Income Recognition

The assets of the Plan are held in the ABB Inc. Master Trust (Master Trust) along with the assets of other plans of the Company. BNY Mellon (the Trustee) is the trustee of the Master Trust.

Income, including realized and unrealized gains/losses, of the Master Trust is allocated monthly among participating plans based on the relationship of the fair value of the assets of each plan to the total fair value of the assets of the Master Trust as of the end of the preceding month. Employer contributions and benefit payments are applied on a specific basis to each plan.

Assets of the Master Trust are stated at fair value which, as used for financial statement purposes, represents market or current value as reported by the Master Trust's Trustee. The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income/loss less actual distributions and allocated administrative expenses.

Investment transactions are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net asset available for benefits. In addition, certain investment related expenses are included in net investment gain of the ABB Inc. Master Trust presented in the accompanying statements of changes in net assets available for benefits.

New Accounting Pronouncements

In 2011, the FASB issued new accounting rules providing guidance on fair value measurement and disclosure requirements. The guidance generally clarifies the application of existing requirements on topics including the concepts of highest and best use and valuation premise and disclosing quantitative information about the unobservable inputs used in the measurement of instruments categorized within Level 3 of the fair value hierarchy. Additionally, the guidance includes changes on topics such as measuring fair value of financial instruments that are managed within a portfolio and additional disclosure for fair value measurements categorized within Level 3 of the fair value hierarchy. This guidance was effective for the Plan as of December 31, 2012. The adoption of this guidance did not have a material impact to the Plan.

Securities Lending

As of December 31, 2012 and 2011, the Master Trust participated in the Trustee's securities lending program for securities held in custody at the Trustee. These securities are lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102% of the fair value of the loaned securities, and for non-U.S. securities, collateral shall not be less than 105% of the fair value of the loaned securities unless it is denominated in the same currency as the collateral, in which case it will be 102% of the fair value. Collateral received is invested in a short-term collateral reinvestment fund that is managed by BNY Mellon, and the fund consists of high quality short-term investments. The value of loaned securities in the Master Trust amounted to \$80,029,835 and \$32,958,795 at December 31, 2012 and 2011, respectively. The obligation to return collateral is reflected as a liability in the Master Trust's financial statements. Income from securities lending is included in other investment income in Note 4.

Derivatives

The Master Trust invests in foreign exchange contracts to hedge future market risks. The Master Trust holds some securities valued in currencies other than the U.S. dollar. To reduce the impact of currency fluctuations on the value of these securities, the Master Trust employs a currency overlay manager who utilizes foreign exchange contracts to hedge the Master Trust's exposure to these foreign currencies. Contracts are marked to market daily with the prime broker. The fair value of these instruments is determined by the Trustee at year end. The values of such derivative contracts are included within the respective investment category in Note 4.

Investment Risk

The Master Trust provides for investments that are exposed to risks such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is possible that changes in the value of investment securities may occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Risks and Uncertainties

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Events

Management evaluated subsequent events for the Plan through October 7, 2013, the date the financial statements were available to be issued, and has determined that there are no material subsequent events.

3 Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or other beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits payable under all circumstances (retirement, death, disability, and termination of employment), are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as of December 31, 2012 and 2011 were determined by the Plan's actuary, Towers Watson & Company, using employee data supplied by the Company as of January 1, 2012 and 2011, and projected to the respective valuation date, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial cost method used to determine the actuarial present value of accumulated plan benefits is the unit credit method. A summary of the significant actuarial assumptions underlying the actuarial valuation as of December 31, 2012 and 2011 are as follows:

Mortality – 2012: Based on the Retirement Plans – PPA 2013 Static Mortality Table split between annuitants and non-annuitants and sex distinct.

Mortality – 2011: Based on the Retirement Plans – PPA 2012 Static Mortality Table split between annuitants and non-annuitants and sex distinct.

Interest – The assumed interest rates utilized to calculate accumulated plan benefits at December 31, 2012 and 2011 were 3.40% and 4.05%, respectively. The change in interest rates is reflected in the "change in actuarial assumptions" in the accompanying Statements of Changes in Accumulated Plan Benefits.

Retirement age – 2012 and 2011: Age 65 for terminated vested employees

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4 ABB Inc. Master Trust

The Plan's investments are held in the Master Trust. Each participating plan has an undivided interest in the Master Trust.

At December 31, 2012 and 2011, the Plan had no interest and 0.95% interest in the net assets of the Master Trust held by BNY Mellon, respectively.

The following tables present the net assets for the Master Trust and the net investment gain for the Master Trust:

5 Investments Certified by Trustee

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Company has obtained a certification from the Trustee as to the completeness and accuracy of the investments and investment activity (except for investments classified as alternative investments and related investment activity) recorded by the Master Trust as of and for the years ended December 31, 2012 and 2011 (the Master Trust certification). Additionally, the Company has obtained a certification from the Trustee related to the Plan's interest in the Master Trust and Master Trust investment activity as of and for the years ended December 31, 2012 and 2011 (the Plan certification). Investment information certified by the Trustee at the Master Trust and Plan levels has not been audited by independent auditors.

At the Master Trust level, the alternative investments and related investment activity as of December 31, 2012 and December 31, 2011 and for the years then ended are detailed below:

December 31	2012	2011
	\$	\$
Private equity investments	92,369,977	102,799,789
Distressed debt	9,858,273	19,228,464
Fund of funds	26,368,929	26,932,685
Total alternative investments	128,597,179	148,960,938

At the Master Trust level, net realized and unrealized appreciation for these alternative investments is as follows:

For the year ended December 31	2012	2011
	\$	\$
Net realized and unrealized appreciation in fair value of alternative investments	14,156,461	16,196,579

At the Plan level, the Plan's "Interest in the ABB, Inc. Master Trust" as reflected in the accompanying statement of net assets available for benefits and the Plan's "Interest in Net Investment Gain of the ABB Inc. Master Trust" have also been certified by the Trustee. While the plan holds an undivided interest in the Master Trust, the certified amounts for the Plans have been adjusted to reflect the Master Trust alternative investments' fair values and net realized and unrealized appreciation of alternative investment noted above. These amounts represent 11.44% and 12.29% of the Plan's "Interest in the ABB, Inc. Master Trust" and "Interest in net investment gain of the ABB Inc. Master Trust" at December 31, 2012 and for the year then ended and 14.13% and 55.26% of the Plan's "Interest in the ABB, Inc. Master Trust" and "Interest in net investment gain of the ABB Inc. Master Trust" at December 31, 2011 and for the year then ended.

6 Fair Value Measurements

Investments held by the Plan are stated at fair value. ASC 820, Fair Value Measurements and Disclosures, (ASC 820) requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by ASC 820, the Master Trust investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, and its applicability to the Master Trust's investments, are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full-term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal and contractual restrictions specific to the security.

Level 3 – Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The determination of where an asset falls in the hierarchy requires significant judgment. The Plan evaluates its hierarchy disclosures each year and changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. However, the Plan expects changes in classifications between levels will be rare. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2012 and 2011, there were transfers in and out of Levels 2 and 3.

The methods used to measure the fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

- U.S. fixed income securities consisting primarily of U.S. corporate bonds, U.S. government securities, and short-term investments, are valued at the closing price reported on the active market on which the individual securities are traded.
- International fixed income securities consisting primarily of international corporate bonds and international government securities are valued at the net asset value, based on quoted market prices in international markets.
- U.S. equities consisting primarily of U.S. corporate stocks are valued at the closing price reported on the active market on which the individual securities are traded.
- International equities and foreign exchange contracts are valued at the net asset value, based on quoted market prices in international markets.
- The various asset classes listed above may be in either pooled or separate accounts. Pooled account investors receive their prorated share of gains and losses, as well as any interest earned. Separate accounts receive all gains and losses as well as interest earned within the portfolio.
- Mutual funds and registered investment companies are valued at the net asset value, based on quoted market prices in active markets, of shares held by the Plan at year end.
- Collective trusts are valued at net asset value as determined by the Trustee.
- Alternative investments are valued at net asset value as reported by the respective fund manager.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's financial instruments at fair value as of December 31, 2012:

As of December 31, 2012	Assets at Fair Value			Total

The ASC 820 tables above exclude securities lending losses of \$275,766 at December 31, 2012 and \$350,065 at December 31, 2011, which are in the Master Trust table in Note 4.

- This category consists of cash in an interest bearing checking account.
- This collateral consists of cash provided by the borrower that is 102% of the value of the securities borrowed; subsequently this cash is invested in an overnight fund consisting of repurchase agreements and time deposits and a liquidating trust invested in repurchase agreements and asset-backed floating rate securities.
- This category includes investments in mutual funds and highly diversified pooled and separate accounts that invest in U.S. and internationally issued bonds. For the Level 3 fixed income investments, the Master Trust receives monthly statements from the investments manager. There are currently no redemption restrictions on the Level 1 and Level 2 investments; however, the Level 3 fixed income investment will not have liquidity until the U.K. bankruptcy courts releases the assets.
- This category includes investments in mutual funds and highly diversified pooled and separate accounts that invest in U.S. common stocks via direct purchases. There are currently no redemption restrictions on these investments.

- e. This category includes investments in mutual funds and diversified pooled, collective trusts and separate accounts that invest in international common stocks. A currency overlay strategy is also employed to add value and reduce currency risk.
- f. This category includes investments in private equity, distressed debt and fund of funds. By nature, these investments are illiquid and capital calls and distributions are determined by the investment manager. At December 31, 2012, the Plan has unfunded commitments of \$12.5 million to be called in future years. The alternative investments include varying redemption restrictions that are dependent upon related market conditions which may dictate timing and redemption amount.
- g. This category includes equities and fixed income securities out on loan supported by cash collateral with value in excess of the value of the securities loaned out.

The table below sets forth a summary of changes in the fair value of the Master Trust's Level 3 financial instruments for the years ended December 31, 2012 and December 31, 2011:

December 31	2012	2011
	\$	\$
Balance, beginning of year	172,569,424	180,772,153
Net realized gains	17,194,623	20,066,251
Changes in unrealized appreciation	(17,089,078)	(8,454,259)
Net purchases	(27,050,460)	(19,589,332)
Return of capital	330,808	1,268,050
Transfers in	9,403,900	3,397,741
Transfers out	(3,647,089)	(4,891,180)
Balance, end of year	151,712,128	172,569,424

The Plan has elected to use a practical expedient to estimate the fair value of the investments in fixed income securities and alternative investments. The net asset value (NAV), including member units or an ownership interest in partners' capital to which a proportionate share of net assets is attributed, is used for each investment as of the reporting date.

In determining the reasonableness of the valuation methodology for the investments in fixed income securities and alternative investments, the Company obtains audited financial statements at the respective year end for each investment manager to support the reported NAV. In addition, the Company, upon consultation with an external investment advisor, regularly evaluates a variety of factors to determine the reasonableness of the valuation methodology, including review of the underlying investments of each fund, comparison of expected performance to actual results, review of the fund manager's investment strategy, and the current economic and capital market environment.

Plan Termination

The Company expects to continue the Plan, but reserves the right to terminate the Plan or discontinue contributions subject to the provisions of ERISA.

In the event the Plan is terminated, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the following order to the extent of the sufficiency of such assets, or portions thereof:

First, to that portion of a participant's accrued benefit, which is derived from mandatory contributions to the Plan.

Second, equally among benefits of participants in the following two subcategories;

- In the case of benefits in any pay status three years prior to termination (at the lowest pay level in that period and at the lowest benefit level under the Plan during the five years prior to termination); and

- In the case of benefits which would have been in pay status three years prior to termination had the participants been retired (and their benefits commenced then), at the lowest benefit level under the Plan during the five years prior to termination.

Third, among all other benefits (if any) of participants under the Plan; guaranteed under the termination insurance provisions of ERISA;

Fourth, among all other nonforfeitable (i.e., uninsured and vested) benefits under the Plan; and

Fifth, among all other benefits under the Plan.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2012 and 2011, that ceiling, which is adjusted annually, is \$4,792 and \$4,500 per month, respectively. Whether a particular participant's accumulated plan benefit will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty.

7 Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated February 9, 2012, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and, therefore, the related trust is exempt from taxation. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as restated, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

8 Related-party Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

9 Prohibited Transaction

The ABB Inc. Master Trust has a \$84,319 receivable at year end 2012 that reflects a prohibited transaction. This prohibited transaction is comprised of external legal fees that occurred as a result of a 2012 Department of Labor exemption request to allow the plan sponsor to make Treasury-bill contributions in lieu of cash contributions. The plan sponsor plans to reimburse the Master Trust for this amount plus interest and take all the necessary corrective actions to ensure the Plan and the trust maintain its income tax status as described in Note 8 above. The amount of the receivable in the trust attributable to the Plan has been reflected as a non-exempt transaction in the attached Schedule of Non-Exempt Transactions for the year ended December 31, 2012.

10 Differences Between the Financial Statements and Form 5500

The following is a reconciliation of net asset available for benefits per the financial statements to the Form 5500:

	December 31	
	2012	2011
	\$	\$
Net assets available for benefits per the financial statements	- 10,094,395	
Less amounts allocated to withdrawing participants	- (904)	
Net assets available for benefits per Form 5500	- 10,093,491	

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the year ended December 31, 2012:

	2012
	\$
Benefits paid to participants per financial statements	785,168
Less benefits payable at December 31, 2011	(904)
Plus benefits payable at December 31, 2012	-
Benefits paid to participants per Form 5500	784,264

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to year-end but not yet paid.
