Ormet Primary Aluminum Corporation United Steelworkers of America 401(k) Plan, Hannibal, Ohio

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description

The following description of Ormet Primary Aluminum Corporation United Steelworkers of America 401(k) Plan, Hannibal, Ohio (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all hourly employees of Ormet Primary Aluminum Corporation's (the "Company") Hannibal, Ohio facility who are represented by a collective bargaining unit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 15 percent of annual compensation and up to 100 percent of any bonus amount, subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan does not provide for employer contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participant Accounts - Each participant's account is credited with the participant's contribution, rollovers, and plan earnings. Allocations are based on participants' account balances on a daily basis, as defined by the Plan.

Vesting - Participant accounts are immediately vested and nonforfeitable at all times.

Participant Notes Receivable - Participants may borrow from their accounts up to the lesser of \$50,000 or 50 percent of their account balances. Participants may borrow funds for a term of no more than five years, unless the note is used to purchase a primary residence. The notes receivable must be adequately secured, subject to a market rate of interest, and repaid by means of payroll deduction.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount, installment payments, a life annuity, or a joint 50 percent survivor annuity equal to the value of the participant's account.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan agreement. The Company's pension committee must approve any such hardship withdrawals.

Termination - While it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions set forth in the labor agreement and ERISA.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by PNC Bank, NA. PNC Bank, NA is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The common collective trust fund investments are valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust funds is based on the fair value of the underlying net assets at the measurement date by the issuer of the funds. The Plan's interest in the common collective trust funds is based on its proportionate ownership interest in the fair value of the common collective trust funds. The common collective trust funds primarily hold guaranteed investment contracts, fixed-income securities, wrapper contracts, and money market funds. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is valued using quoted market prices or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The money market funds are valued at amortized cost, which approximates fair value. The fair value of wrapper contracts provided by the contract issuer is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

The money market fund is valued at fair value based on its outstanding balance. Additionally, the Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in publicly traded securities and money market funds. The self-directed brokerage account investments are valued based on quoted market prices of the underlying investments. Mutual funds are valued based on quoted market prices. See Note 5 for additional information.

Notes to Financial Statements
December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 27, 2013, which is the date the financial statements were available to be issued.

**Notes to Financial Statements
December 31, 2012 and 2011**

Note 3 - Unaudited Information

PNC Bank, NA (PNC) and Great-West Life & Annuity Insurance Company (Great-West) hold the Plan's investments and participant notes receivable and execute all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by PNC and FAScore, LLC, a division of Great-West Life & Annuity Insurance Company. The investment and participant notes receivable balances and related income and losses were certified by PNC and FAScore, LLC, a division of Great-West Life & Annuity Insurance Company, for the year ended December 31, 2011. The investment and participant notes receivable balances and related income and losses were certified by PNC for the year ended December 31, 2012. Investment and participant notes receivable balances as of December 31, 2012 and 2011 were held entirely by PNC because investments previously held by Great-West Life & Annuity Insurance Company were liquidated during the year ended December 31, 2011.

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the prototype plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Ormet Primary Aluminum Corporation
United Steelworkers of America
401(k) Plan, Hannibal, Ohio

Notes to Financial Statements
December 31, 2012 and 2011

Note 5 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Notes to Financial Statements
December 31, 2012 and 2011

Note 5 - Fair Value Measurements (Continued)

During 2011, limitations were in effect which may delay redemption or withdrawal requests of the Ormet Hourly Hannibal Pool GIC (the "GIC") by the Plan if the Plan were to withdraw from the GIC as an investment option. There are no such limitations at a participant-level basis. Upon withdrawal from the GIC, the Plan must give at least 60 days' advance notice, at which time the trustee will make payments in either a single lump-sum payment equal to the present value of the contract as of the discontinuance date or five equal annual installment payments. If the single lump-sum payment request in its entirety exceeds \$10 million, the initial payment will be limited to \$10 million with the remaining balance paid in monthly installments of at least \$10 million each. If the redemption request is to be paid in five equal annual installments, the first installment will be payable within 31 days after the withdrawal request. Upon 31 days' notice and payment of the first installment, the third-party administrator may pay the computed value of the remaining unpaid installments in its entirety, calculated at the rate of interest used in computing the amount of the installment payments. The Plan elected a withdrawal request in its entirety using the installment method. The last installment was received by the Plan in December 2011, effectively liquidating the GIC investment option in its entirety. There were no fees paid by the Company to liquidate the GIC investment option.

Changes in Level 3 assets measured at fair value on a recurring basis for the year ended December 31, 2011 are as follows:

	Unallocated Investment Contract
Balance at January 1, 2011	\$ 2,543,616
Interest	47,364
Settlements	<u>(2,590,980)</u>
Balance at December 31, 2011	<u>\$ -</u>

Note 6 - Subsequent Events and Management's Plan

On February 25, 2013, the Company filed a voluntary petition for reorganization relief under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the "Court"). The Company will continue to operate its business as "debtors in possession" under the jurisdiction of the Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Court.

Note 6 - Subsequent Events and Management's Plan (Continued)

The Company and Smelter Acquisition, LLC (which is wholly owned by the holder of the Company's prepetition long-term debt, Wayzata Investment Partners (both collectively hereafter "Wayzata")), submitted on February 25, 2013, and the Court accepted, subject to the rules of Section 363 of the Bankruptcy Code, an asset purchase agreement. If completed, Wayzata would acquire practically all of the Company's assets and assume certain liabilities. The asset purchase agreement is contingent on certain conditions, and there can be no assurance that these conditions will be met and the sale completed. The terms of the purchase agreement require Wayzata to assume sponsorship of the Company's defined contribution plans currently in place. Accordingly, the Company has no intentions at this time to terminate any of the defined contribution plans offered by the Company to eligible participants.

Furthermore, if the asset purchase agreement is completed, the Restructuring Memorandum of Agreement (MOA) entered into with the United Steel, Paper and Forestry, Manufacturing, Energy, Allied Industrial and Service Workers International Union (the "USW") in February 2013 will become effective. The MOA adds several new provisions to the Ormet Primary Aluminum Corporation United Steelworkers of America 401(k) Plan, Hannibal, Ohio (the "Plan"), including company matching contributions and automatic company contributions. The Plan will be amended to incorporate these changes upon the effective date of the sale if the aforementioned conditions are met and the sale is completed.

The Court scheduled a hearing on May 15, 2013 to approve the asset sale by the Company to Wayzata as described above. The hearing was subsequently rescheduled for June 3, 2013, on which date the Court gave its final approval of the sale agreement. The sale agreement has not yet been consummated, as all conditions of the sale have not been fully completed. The Company is currently waiting for a final ruling from the State of Ohio Public Utilities Commission (the "PUCO") on the Company's proposed modifications to its electric power agreement. The Company must obtain a favorable ruling from the PUCO in order for the asset sale to be completed. There can be no assurance at this time if such a ruling will allow for the asset sale agreement to be completed.

Note 7 - Plan Transfers

During 2012, a union employee of Ormet transferred to a nonunion position; accordingly, the participant's account balance was transferred from this Plan to another plan sponsored by the Company.

Ormet Primary Aluminum Corporation United Steelworkers of America 401(k) Plan, Hannibal, Ohio

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description

The following description of Ormet Primary Aluminum Corporation United Steelworkers of America 401(k) Plan, Hannibal, Ohio (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all hourly employees of Ormet Primary Aluminum Corporation's (the "Company") Hannibal, Ohio facility who are represented by a collective bargaining unit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 15 percent of annual compensation and up to 100 percent of any bonus amount, subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan does not provide for employer contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participant Accounts - Each participant's account is credited with the participant's contribution, rollovers, and plan earnings. Allocations are based on participants' account balances on a daily basis, as defined by the Plan.

Vesting - Participant accounts are immediately vested and nonforfeitable at all times.

Participant Notes Receivable - Participants may borrow from their accounts up to the lesser of \$50,000 or 50 percent of their account balances. Participants may borrow funds for a term of no more than five years, unless the note is used to purchase a primary residence. The notes receivable must be adequately secured, subject to a market rate of interest, and repaid by means of payroll deduction.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount, installment payments, a life annuity, or a joint 50 percent survivor annuity equal to the value of the participant's account.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan agreement. The Company's pension committee must approve any such hardship withdrawals.

Termination - While it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions set forth in the labor agreement and ERISA.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by PNC Bank, NA. PNC Bank, NA is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The common collective trust fund investments are valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust funds is based on the fair value of the underlying net assets at the measurement date by the issuer of the funds. The Plan's interest in the common collective trust funds is based on its proportionate ownership interest in the fair value of the common collective trust funds. The common collective trust funds primarily hold guaranteed investment contracts, fixed-income securities, wrapper contracts, and money market funds. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is valued using quoted market prices or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The money market funds are valued at amortized cost, which approximates fair value. The fair value of wrapper contracts provided by the contract issuer is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

The money market fund is valued at fair value based on its outstanding balance. Additionally, the Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in publicly traded securities and money market funds. The self-directed brokerage account investments are valued based on quoted market prices of the underlying investments. Mutual funds are valued based on quoted market prices. See Note 5 for additional information.

Notes to Financial Statements
December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 27, 2013, which is the date the financial statements were available to be issued.

**Notes to Financial Statements
December 31, 2012 and 2011**

Note 3 - Unaudited Information

PNC Bank, NA (PNC) and Great-West Life & Annuity Insurance Company (Great-West) hold the Plan's investments and participant notes receivable and execute all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by PNC and FAScore, LLC, a division of Great-West Life & Annuity Insurance Company. The investment and participant notes receivable balances and related income and losses were certified by PNC and FAScore, LLC, a division of Great-West Life & Annuity Insurance Company, for the year ended December 31, 2011. The investment and participant notes receivable balances and related income and losses were certified by PNC for the year ended December 31, 2012. Investment and participant notes receivable balances as of December 31, 2012 and 2011 were held entirely by PNC because investments previously held by Great-West Life & Annuity Insurance Company were liquidated during the year ended December 31, 2011.

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the prototype plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Ormet Primary Aluminum Corporation
United Steelworkers of America
401(k) Plan, Hannibal, Ohio

Notes to Financial Statements
December 31, 2012 and 2011

Note 5 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Notes to Financial Statements
December 31, 2012 and 2011

Note 5 - Fair Value Measurements (Continued)

During 2011, limitations were in effect which may delay redemption or withdrawal requests of the Ormet Hourly Hannibal Pool GIC (the "GIC") by the Plan if the Plan were to withdraw from the GIC as an investment option. There are no such limitations at a participant-level basis. Upon withdrawal from the GIC, the Plan must give at least 60 days' advance notice, at which time the trustee will make payments in either a single lump-sum payment equal to the present value of the contract as of the discontinuance date or five equal annual installment payments. If the single lump-sum payment request in its entirety exceeds \$10 million, the initial payment will be limited to \$10 million with the remaining balance paid in monthly installments of at least \$10 million each. If the redemption request is to be paid in five equal annual installments, the first installment will be payable within 31 days after the withdrawal request. Upon 31 days' notice and payment of the first installment, the third-party administrator may pay the computed value of the remaining unpaid installments in its entirety, calculated at the rate of interest used in computing the amount of the installment payments. The Plan elected a withdrawal request in its entirety using the installment method. The last installment was received by the Plan in December 2011, effectively liquidating the GIC investment option in its entirety. There were no fees paid by the Company to liquidate the GIC investment option.

Changes in Level 3 assets measured at fair value on a recurring basis for the year ended December 31, 2011 are as follows:

	Unallocated Investment Contract
Balance at January 1, 2011	\$ 2,543,616
Interest	47,364
Settlements	<u>(2,590,980)</u>
Balance at December 31, 2011	<u>\$ -</u>

Note 6 - Subsequent Events and Management's Plan

On February 25, 2013, the Company filed a voluntary petition for reorganization relief under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the "Court"). The Company will continue to operate its business as "debtors in possession" under the jurisdiction of the Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Court.

**Notes to Financial Statements

Note 6 - Subsequent Events and Management's Plan (Continued)

The Company and Smelter Acquisition, LLC (which is wholly owned by the holder of the Company's prepetition long-term debt, Wayzata Investment Partners (both collectively hereafter "Wayzata")), submitted on February 25, 2013, and the Court accepted, subject to the rules of Section 363 of the Bankruptcy Code, an asset purchase agreement. If completed, Wayzata would acquire practically all of the Company's assets and assume certain liabilities. The asset purchase agreement is contingent on certain conditions, and there can be no assurance that these conditions will be met and the sale completed. The terms of the purchase agreement require Wayzata to assume sponsorship of the Company's defined contribution plans currently in place. Accordingly, the Company has no intentions at this time to terminate any of the defined contribution plans offered by the Company to eligible participants.

Furthermore, if the asset purchase agreement is completed, the Restructuring Memorandum of Agreement (MOA) entered into with the United Steel, Paper and Forestry, Manufacturing, Energy, Allied Industrial and Service Workers International Union (the "USW") in February 2013 will become effective. The MOA adds several new provisions to the Ormet Primary Aluminum Corporation United Steelworkers of America 401(k) Plan, Hannibal, Ohio (the "Plan"), including company matching contributions and automatic company contributions. The Plan will be amended to incorporate these changes upon the effective date of the sale if the aforementioned conditions are met and the sale is completed.

The Court scheduled a hearing on May 15, 2013 to approve the asset sale by the Company to Wayzata as described above. The hearing was subsequently rescheduled for June 3, 2013, on which date the Court gave its final approval of the sale agreement. The sale agreement has not yet been consummated, as all conditions of the sale have not been fully completed. The Company is currently waiting for a final ruling from the State of Ohio Public Utilities Commission (the "PUCO") on the Company's proposed modifications to its electric power agreement. The Company must obtain a favorable ruling from the PUCO in order for the asset sale to be completed. There can be no assurance at this time if such a ruling will allow for the asset sale agreement to be completed.

Note 7 - Plan Transfers

During 2012, a union employee of Ormet transferred to a nonunion position; accordingly, the participant's account balance was transferred from this Plan to another plan sponsored by the Company.

Ormet Primary Aluminum Corporation United Steelworkers of America 401(k) Plan, Hannibal, Ohio

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description

The following description of Ormet Primary Aluminum Corporation United Steelworkers of America 401(k) Plan, Hannibal, Ohio (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all hourly employees of Ormet Primary Aluminum Corporation's (the "Company") Hannibal, Ohio facility who are represented by a collective bargaining unit. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 15 percent of annual compensation and up to 100 percent of any bonus amount, subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan does not provide for employer contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participant Accounts - Each participant's account is credited with the participant's contribution, rollovers, and plan earnings. Allocations are based on participants' account balances on a daily basis, as defined by the Plan.

Vesting - Participant accounts are immediately vested and nonforfeitable at all times.

Participant Notes Receivable - Participants may borrow from their accounts up to the lesser of \$50,000 or 50 percent of their account balances. Participants may borrow funds for a term of no more than five years, unless the note is used to purchase a primary residence. The notes receivable must be adequately secured, subject to a market rate of interest, and repaid by means of payroll deduction.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount, installment payments, a life annuity, or a joint 50 percent survivor annuity equal to the value of the participant's account.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan agreement. The Company's pension committee must approve any such hardship withdrawals.

Termination - While it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions set forth in the labor agreement and ERISA.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by PNC Bank, NA. PNC Bank, NA is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The common collective trust fund investments are valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust funds is based on the fair value of the underlying net assets at the measurement date by the issuer of the funds. The Plan's interest in the common collective trust funds is based on its proportionate ownership interest in the fair value of the common collective trust funds. The common collective trust funds primarily hold guaranteed investment contracts, fixed-income securities, wrapper contracts, and money market funds. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is valued using quoted market prices or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The money market funds are valued at amortized cost, which approximates fair value. The fair value of wrapper contracts provided by the contract issuer is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

The money market fund is valued at fair value based on its outstanding balance. Additionally, the Plan allows participants to invest in self-directed brokerage accounts. The self-directed brokerage accounts include various investments in publicly traded securities and money market funds. The self-directed brokerage account investments are valued based on quoted market prices of the underlying investments. Mutual funds are valued based on quoted market prices. See Note 5 for additional information.

**Notes to Financial Statements
December 31, 2012 and 2011**

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 27, 2013, which is the date the financial statements were available to be issued.

Notes to Financial Statements
December 31, 2012 and 2011

Note 3 - Unaudited Information

PNC Bank, NA (PNC) and Great-West Life & Annuity Insurance Company (Great-West) hold the Plan's investments and participant notes receivable and execute all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by PNC and FAScore, LLC, a division of Great-West Life & Annuity Insurance Company. The investment and participant notes receivable balances and related income and losses were certified by PNC and FAScore, LLC, a division of Great-West Life & Annuity Insurance Company, for the year ended December 31, 2011. The investment and participant notes receivable balances and related income and losses were certified by PNC for the year ended December 31, 2012. Investment and participant notes receivable balances as of December 31, 2012 and 2011 were held entirely by PNC because investments previously held by Great-West Life & Annuity Insurance Company were liquidated during the year ended December 31, 2011.

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) that the prototype plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Ormet Primary Aluminum Corporation
United Steelworkers of America
401(k) Plan, Hannibal, Ohio

Notes to Financial Statements
December 31, 2012 and 2011

Note 5 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Notes to Financial Statements
December 31, 2012 and 2011

Note 5 - Fair Value Measurements (Continued)

During 2011, limitations were in effect which may delay redemption or withdrawal requests of the Ormet Hourly Hannibal Pool GIC (the "GIC") by the Plan if the Plan were to withdraw from the GIC as an investment option. There are no such limitations at a participant-level basis. Upon withdrawal from the GIC, the Plan must give at least 60 days' advance notice, at which time the trustee will make payments in either a single lump-sum payment equal to the present value of the contract as of the discontinuance date or five equal annual installment payments. If the single lump-sum payment request in its entirety exceeds \$10 million, the initial payment will be limited to \$10 million with the remaining balance paid in monthly installments of at least \$10 million each. If the redemption request is to be paid in five equal annual installments, the first installment will be payable within 31 days after the withdrawal request. Upon 31 days' notice and payment of the first installment, the third-party administrator may pay the computed value of the remaining unpaid installments in its entirety, calculated at the rate of interest used in computing the amount of the installment payments. The Plan elected a withdrawal request in its entirety using the installment method. The last installment was received by the Plan in December 2011, effectively liquidating the GIC investment option in its entirety. There were no fees paid by the Company to liquidate the GIC investment option.

Changes in Level 3 assets measured at fair value on a recurring basis for the year ended December 31, 2011 are as follows:

	Unallocated Investment Contract
Balance at January 1, 2011	\$ 2,543,616
Interest	47,364
Settlements	<u>(2,590,980)</u>
Balance at December 31, 2011	<u>\$ -</u>

Note 6 - Subsequent Events and Management's Plan

On February 25, 2013, the Company filed a voluntary petition for reorganization relief under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court for the District of Delaware (the "Court"). The Company will continue to operate its business as "debtors in possession" under the jurisdiction of the Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Court.

Note 6 - Subsequent Events and Management's Plan (Continued)

The Company and Smelter Acquisition, LLC (which is wholly owned by the holder of the Company's prepetition long-term debt, Wayzata Investment Partners (both collectively hereafter "Wayzata")), submitted on February 25, 2013, and the Court accepted, subject to the rules of Section 363 of the Bankruptcy Code, an asset purchase agreement. If completed, Wayzata would acquire practically all of the Company's assets and assume certain liabilities. The asset purchase agreement is contingent on certain conditions, and there can be no assurance that these conditions will be met and the sale completed. The terms of the purchase agreement require Wayzata to assume sponsorship of the Company's defined contribution plans currently in place. Accordingly, the Company has no intentions at this time to terminate any of the defined contribution plans offered by the Company to eligible participants.

Furthermore, if the asset purchase agreement is completed, the Restructuring Memorandum of Agreement (MOA) entered into with the United Steel, Paper and Forestry, Manufacturing, Energy, Allied Industrial and Service Workers International Union (the "USW") in February 2013 will become effective. The MOA adds several new provisions to the Ormet Primary Aluminum Corporation United Steelworkers of America 401(k) Plan, Hannibal, Ohio (the "Plan"), including company matching contributions and automatic company contributions. The Plan will be amended to incorporate these changes upon the effective date of the sale if the aforementioned conditions are met and the sale is completed.

The Court scheduled a hearing on May 15, 2013 to approve the asset sale by the Company to Wayzata as described above. The hearing was subsequently rescheduled for June 3, 2013, on which date the Court gave its final approval of the sale agreement. The sale agreement has not yet been consummated, as all conditions of the sale have not been fully completed. The Company is currently waiting for a final ruling from the State of Ohio Public Utilities Commission (the "PUCO") on the Company's proposed modifications to its electric power agreement. The Company must obtain a favorable ruling from the PUCO in order for the asset sale to be completed. There can be no assurance at this time if such a ruling will allow for the asset sale agreement to be completed.

Note 7 - Plan Transfers

During 2012, a union employee of Ormet transferred to a nonunion position; accordingly, the participant's account balance was transferred from this Plan to another plan sponsored by the Company.
