A. Description of Plan

The following description of the Contech Control Services, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General* - The Plan is a defined contribution plan covering all full-time employees of Contech Control Services, Inc. (the Company) who have six months of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. *Contributions* - Each year, participants may contribute up to 25% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options (mutual funds) offered by the Plan. The Company may make a discretionary contribution of up to 6% of each participant's annual compensation. During 2012, the Company matched 50% of the first 6% contributed by the employee for the year. Additional profit sharing amounts may be contributed at the option of the Company and allocated to each eligible participant. The matching contributions are allocated among the investment options identically to participant contributions. Contributions are subject to certain limitations.

3. *Participant Accounts* - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting* - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

5. *Participant Loans* – Participants may borrow from their fund accounts up to $50,000 or 50% of their vested account balance, whichever is less. Loan terms range from one to five years or up to 30 years for the purchase of a primary residence. The loans are at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

6. *Payment of Benefits* - On termination of service due to death, disability, retirement or termination, a participant is entitled to a lump-sum amount equal to the value of the participant's vested interest in his or her account. Under certain circumstances ("hardship withdrawal"), a participant may withdraw an amount up to the cumulative total of his salary deferrals. In the event of a hardship withdrawal, the employee is not eligible to contribute to the Plan for a period of six months.

7. *Administrative Expenses* - Substantially all administrative costs of the Plan have been borne by the Company; however, "record keeping" fees assessed by the Plan custodian are charged against each participant's account.

8. *Forfeited Accounts* – At December 31, 2012 and 2011, forfeited non-vested accounts totaled $3,166 and $5,258 respectively. These accounts will be used to reduce future employer contributions. In 2012, employer contributions were reduced by $2,224 from forfeited non-vested accounts.

B. Summary of Accounting Principles

1. *Basis of Accounting* - The financial statements of the Plan are prepared using the accrual method of accounting.

2. *Estimates* - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. *Investment Valuation and Income Recognition* - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value for shares of mutual and common collective trust funds is the net asset value of those shares or units, as determined by the respective fund.

   The Invesco Stable Value Retirement Fund (the Fund) is a collective trust and its primary investment objective is to seek the preservation of principal and provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. The Fund's unit value is calculated at the end of each business day. The unit value is based on the current value of the investment contract fund's holdings divided by the total number of outstanding units to obtain a daily net asset value as provided by the fund issuer. The fair value of the Fund at December 31, 2012 was $1,712,226.

   Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold during the year as well as those held at year end.

   There has been no change in valuation methodologies used at December 31, 2012 and 2011.

4. *Notes Receivable from Participants* – Loans to participants are reported at their unpaid principal balances, plus any accrued but unpaid interest.

5. *Payment of Benefits* - Benefits are recorded when paid. Benefit distributions of $1,290,540 in 2012 include payments of $36,733 to certain active participants to return excess deferral contributions as required by nondiscrimination provisions of the Plan.

C. Tax Status

The Internal Revenue Service has determined and informed the Plan administrator by a letter dated May 24, 1993 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter and the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

E. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820-10, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value as of December 31, 2012 and 2011:

Assets at Fair Value as of December 31, 2012	Level 1	Level 2	Level 3	Total

G. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances, and the amounts reported in the statement of net assets available for benefits.

I. Parties-in-Interest

Plan investments are managed by Bank of America Merrill Lynch, who is the Plan custodian. Certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions qualify as party-in-interest transactions.

J. Reconciliation to Form 5500

The following table reconciles differences between the accompanying financial statements and the Plan's Form 5500:

Description	Per Financial Statement	Reclassification	Per Form 5500
Benefits paid to participants	$ 1,290,540	$ (126,381)	$ 1,164,159
Corrective distributions	-	36,733	36,733

The reclassifications have no net effect on total additions to the Plan or ending net assets.

K. Subsequent Events

The Company has evaluated subsequent events through September 27, 2013, the date which the financial statements were available to be issued.
