PRODUCTION SERVICES NETWORK U.S., INC. CRAFT RETIREMENT & SAVINGS PLAN

Notes to Financial Statements

December 31, 2012

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Production Services Network U.S., Inc. Craft Retirement & Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) Profit Sharing Plan. The Plan covers employees of PSN USA Holdings, Inc. (the "Employer") and Production Services Network International, Inc., and is available to all non-excluded employees of these companies. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may make pretax contributions ranging from 1 percent to 50 percent of their compensation, as described in the plan document, as elective contributions up to the limits prescribed by the Internal Revenue Service ("IRS"), \$17,000 for 2012. The Plan also allows for participants who are 50 years old or older to make catch-up contributions in the amount of \$5,500 for the Plan year ended December 31, 2012. Participants can change their contribution percentages at any time and those changes will be effective as soon as administratively feasible. Employees/participants are permitted to roll over amounts held in other qualified plans or individual retirement accounts ("IRA's") into the Plan, as specified in the plan document. Elective deferral contributions are 100 percent vested and nonforfeitable.

The Plan provides for discretionary employer matching contribution. The Employer shall make matching contributions in an amount equal to 50 percent of elective deferral contributions that are not over 4 percent of compensation. Elective deferral contributions that are catch-up contributions shall be matched. Matching contributions are subject to the vesting percentage.

Eligibility

Employees are eligible to participate in the Plan upon completion of six months of entry service. Employees represented by a bargaining unit, nonresident aliens with no U.S. income, leased employees, independent contractors, highly compensated employees, those not employed as craft or contingent labor employees, and those covered under any other qualified pension or profit sharing plan to which the Employer contributes are not eligible to participate in the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, Employer's contributions and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF THE PLAN – (CONTINUED)

Withdrawals

Withdrawals prior to the age of 59 1/2 are allowed only at termination of employment, on a hardship basis subject to Internal Revenue Service regulations, or for the purpose of a participant loan. In-service withdrawals are permitted upon attainment of age 59 1/2 subject to limitations under the plan document.

Payment of Benefits

On termination of service due to death, disability, retirement, or termination of employment, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account as a lump sum distribution.

Vesting

Participants are 100 percent vested in salary deferral contributions, rollover contributions, and prior balances transferred into the Plan. For purposes of Employer contributions, a participant's vesting percentage is shown in the following schedules:

Employer matching contributions:

<u>Vesting Service (years)</u>	<u>Vesting Percentage</u>
Less than 3	0
3 or more	100

Employer discretionary contributions:

<u>Vesting Service (years)</u>	<u>Vesting Percentage</u>

Forfeited Accounts

At December 31, 2012 and 2011 forfeited non-vested accounts totaled \$-0-. During the year ended December 31, 2012, the Plan utilized \$2,342 of forfeited accounts to reduce employer contributions.

NOTE 1 - DESCRIPTION OF THE PLAN – (CONTINUED)

The amount shall not be less than \$1,000 or exceed the lesser of \$50,000 or 50% of the sum of the participant's total vested balance. Loans may be for a period of five years. Interest accrues on the unpaid balance at a reasonable fixed rate to be determined in accordance with the plan document. Principal and interest are paid ratably through payroll deductions in every pay period.

Allocation of Investment Income

The net earnings or loss of each fund, including capital gains or losses whether or not realized, are allocated to individual participant accounts in that fund based on the ratio that the value of each participant's account bears to the value of all accounts in that fund as of the valuation date.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Plan's fully benefit-responsive investment contract is held in a single group annuity contract titled the Principal Fixed Income Option. The Statement of Changes in Net Assets Available for Benefits are prepared on the contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan is sponsored by the Employer. Personnel within the Employer perform various administrative services for the Plan, including maintenance of participant records. The payroll and related overhead costs associated with these services are not included as Plan expenses, but are paid by the Employer. Expenses paid by the Plan consist of loan processing fees, which are charged to the participant's account, Plan management fees, and Plan recordkeeping fees.

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events Measurement Date

The Plan has monitored and evaluated any subsequent events for footnote disclosures or adjustments required in its financial statements for the year ended December 31, 2012 through October 7, 2013, the date on which financial statements were available to be issued.

On December 7, 2012, the Board of Directors of the Employer voted to merge the Plan into the Production Services Network U.S., Inc. Operations & Administrative Retirement & Savings Plan. Effective January 1, 2013, all participants under the Plan shall become participants in the Production Services Network U.S., Inc. Operations & Administrative Retirement & Savings Plan without a gap or lapse in coverage.

NOTE 3 - INVESTMENTS

*Does not represent 5% or more of the net assets available for benefits

During 2012 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	\$ 26,124
Other investments	50
	<u>\$ 26,174</u>

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (“FASB”) *Accounting Standards Codification* (“ASC”) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;
Level 2	Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability;
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

Common Stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Registered Investment Companies (Mutual Funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Benefit-Responsive Investment Contract: Valued at the contract value of assets held in the general account of Principal Life Insurance Company less surrender charges required under the contract. Contract value for the investment contract represents contributions made under the contract, plus earnings, less participant withdrawals and administrative fees. Fair value is contract value less early withdrawal charges, see Note 5.

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different value measurement at the reporting date.

NOTE 4 - FAIR VALUE MEASUREMENTS – (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2012 and 2011:

	Fair Value Measurements as of December 31, 2012

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets:

	Benefit-Responsive Investment Contract

Realized gains	762
Unrealized gains relating to instruments still held at the reporting date	(131)
Purchases, sales, issuances, transfers, and settlements (net)	<u>1,848</u>
Balance, December 31, 2012	<u>\$ 31,387</u>

The total gains (both realized and unrealized) reported in the table above are included in net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

NOTE 5 - BENEFIT-RESPONSIVE INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Principal Fixed Income Option 401(a)/(k) (the "Fixed Account") is a benefit responsive group annuity contract issued by Principal Life Insurance Company. The contract guarantees principal and provides a stated rate of return. The interest crediting rate is calculated under provisions specified in the contract and is reset semi-annually on January 1st and July 1st.

As a single group annuity contract with a fixed rate of interest, the average yield earned equals the interest rate credited to Plan participants, and is not calculated in relation to the fair value of any underlying assets. Changes in future interest crediting rates will have no effect on fair value calculations. Fair value is calculated at contract value less early withdrawal charges. The 2012 interest rate history for contract is as follows:

Time Period	Rate
January 1, 2012 through June 30, 2012	2.50%
July 1, 2012 through December 31, 2012	2.35%

Contract provisions detail events that would limit the Plan's ability to execute transactions at contract value. These provisions include a surrender fee of 5% of contract value for any transfers made in connection with the termination of the Plan's interest.

The Fixed Account is classified as fully benefit-responsive as of December 31, 2012 and 2011 and the fair value with an adjustment to contract value is reflected on the accompanying statements of net assets available for benefits.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including partial or complete Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures, or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The plan administrator does not believe that the occurrence of any such events, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 - TAX STATUS

The Plan was restated effective May 1, 2010 to include the statutory, regulatory and guidance changes specified in the 2009 Cumulative List of Changes in Plan Qualification Requirements contained in Internal Revenue Service Notice 2009-09. Although the Plan sponsor has not applied for a determination letter, it believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code; therefore, the Plan sponsor believes that the Plan was qualified and the related trust was tax exempt as of December 31, 2012 and 2011. As such, no provision for income taxes has been included in the financial statements.

NOTE 7 - TAX STATUS – (CONTINUED)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8 - PARTIES-IN-INTEREST AND PARTIES-IN-INTEREST TRANSACTIONS

The Plan provides for loans to participants. Transactions in such investments qualify as party-in-interest transactions as defined by ERISA.

Certain investments are managed by Principal. Principal is the trustee of the Plan assets therefore these transactions qualify as party-in-interest transactions.

NOTE 9 - INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, the Plan's trustee has certified the following data included in the accompanying financial statements and supplemental schedule as complete and accurate:

1. Page 3 – Statements of Net Assets Available for Benefits – Investments, at fair value and contract value
2. Page 4 – Statement of Changes in Net Assets Available for Benefits – Net investment income
3. Page 13 – Schedule of Assets (Held at End of Year)
4. All purchase and sales activity

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan provides for various investment options, in any combination, of mutual funds. The underlying investments held by the registered investment companies may include stocks, bonds, fixed income securities, registered investment companies and other investment securities. Such investments, as well as common stock investments, are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participant's account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
