Corner Dental 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description

The following description of Corner Dental 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Dental Logic, LLC and Subsidiaries (the "Company") who are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 85 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan also allows participants to contribute up to 85 percent of their compensation on an after-tax basis. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for safe harbor employer matching contributions in an amount equal to 100 percent of the first 3 percent of eligible compensation and 50 percent of the next 2 percent of eligible compensation. The Plan also provides for employer discretionary contributions limited to 4 percent of eligible compensation, provided that the total of all employer contributions does not exceed limitations imposed by the Internal Revenue Code.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company 20 percent after two years of service and another 20 percent per year thereafter until they become fully vested after six years of service.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Corner Dental 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description (Continued)

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Contributions - Certain participant contributions in 2012 were paid after the timeframe required by the Department of Labor. The Company remitted these contributions and lost earnings to the Plan during 2013.

Note 2 - Summary of Significant Accounting Policies

Modified Cash Basis - The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received and expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligation is incurred. Investments are recognized at fair value, which is consistent with a GAAP basis of accounting.

Corner Dental 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The common collective trust fund investment is valued at contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds guaranteed investment contracts, fixed-income securities, and derivatives. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer(s) is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

The money market fund is valued at fair value based on its outstanding balance. All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Corner Dental 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 26, 2013, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments held at the end of the plan year are as follows:

	2012	2011
Mutual funds:		
Fidelity Advisor Freedom 2035 Fund	\$ 432,686	\$ 339,376
Fidelity Advisor Freedom 2040 Fund	273,623	244,329
Fidelity Advisor Freedom 2045 Fund	266,658	117,458
Fidelity Advisor Freedom 2025 Fund	149,982	88,681
Fidelity Advisor Freedom 2015 Fund	124,593	183,074

Fidelity Advisor Freedom 2030 Fund	102,954	88,154
PIMCO Total Return Fund	83,050	79,595

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Corner Dental 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 4 - Tax Status (Continued)

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

(1) This class represents investments in a common collective trust fund that invests primarily in fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements and enters into wrap contracts issued by third parties and invests in cash equivalents represented by shares in money market funds. There were no unfunded commitments.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2012.

Common collective trust fund redemption restrictions - Withdrawals may be made on any business day in order to accommodate participants under a participating plan, whether they are for in-service withdrawals or following the termination of employment or to accommodate a participant directed exchange into another investment option with the Plan. Transferred amounts directed to participants into a competing fund must be held in a noncompeting investment option for 90 days before subsequent transfers can occur. In the case of nonparticipant withdrawals, a 12-month written notice by the plan sponsor must occur in advance of the withdrawal. In the event that the withdrawal may have an adverse impact on the cash flows of the Plan, both participant-directed and nonparticipant-directed withdrawals may be delayed at the discretion of the Trustee.

Corner Dental 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description

The following description of Corner Dental 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Dental Logic, LLC and Subsidiaries (the "Company") who are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 85 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan also allows participants to contribute up to 85 percent of their compensation on an after-tax basis. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for safe harbor employer matching contributions in an amount equal to 100 percent of the first 3 percent of eligible compensation and 50 percent of the next 2 percent of eligible compensation. The Plan also provides for employer discretionary contributions limited to 4 percent of eligible compensation, provided that the total of all employer contributions does not exceed limitations imposed by the Internal Revenue Code.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company 20 percent after two years of service and another 20 percent per year thereafter until they become fully vested after six years of service.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Corner Dental 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 1 - Plan Description (Continued)

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Contributions - Certain participant contributions in 2012 were paid after the timeframe required by the Department of Labor. The Company remitted these contributions and lost earnings to the Plan during 2013.

Note 2 - Summary of Significant Accounting Policies

Modified Cash Basis - The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received and expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligation is incurred. Investments are recognized at fair value, which is consistent with a GAAP basis of accounting.

Corner Dental 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The common collective trust fund investment is valued at contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds guaranteed investment contracts, fixed-income securities, and derivatives. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer(s) is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

The money market fund is valued at fair value based on its outstanding balance. All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Corner Dental 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 26, 2013, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments held at the end of the plan year are as follows:

	2012	2011
Mutual funds:		
Fidelity Advisor Freedom 2035 Fund	\$ 432,686	\$ 339,376
Fidelity Advisor Freedom 2040 Fund	273,623	244,329
Fidelity Advisor Freedom 2045 Fund	266,658	117,458
Fidelity Advisor Freedom 2025 Fund	149,982	88,681
Fidelity Advisor Freedom 2015 Fund	124,593	183,074
Fidelity Advisor Freedom 2050 Fund	115,023	71,996
Fidelity Advisor Freedom 2030 Fund	102,954	88,154
PIMCO Total Return Fund	83,050	79,595

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Corner Dental 401(k) Plan

Notes to Financial Statements December 31, 2012 and 2011

Note 4 - Tax Status (Continued)

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

(1) This class represents investments in a common collective trust fund that invests primarily in fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements and enters into wrap contracts issued by third parties and invests in cash equivalents represented by shares in money market funds. There were no unfunded commitments.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2012.

Common collective trust fund redemption restrictions - Withdrawals may be made on any business day in order to accommodate participants under a participating plan, whether they are for in-service withdrawals or following the termination of employment or to accommodate a participant directed exchange into another investment option with the Plan. Transferred amounts directed to participants into a competing fund must be held in a noncompeting investment option for 90 days before subsequent transfers can occur. In the case of nonparticipant withdrawals, a 12-month written notice by the plan sponsor must occur in advance of the withdrawal. In the event that the withdrawal may have an adverse impact on the cash flows of the Plan, both participant-directed and nonparticipant-directed withdrawals may be delayed at the discretion of the Trustee.
