NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011 (See Independent Auditors' Report)

NOTE 1 - DESCRIPTION OF PLAN

General **-** The following description of the Xoriant Corporation 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established in 1997 by Xoriant Corporation ("the Company" or "Plan Administrator") covering all eligible employees. Effective March 31, 2012, employees who are age 21 or older and have completed one month of service are eligible to participate in the Plan. Prior to March 31, 2012, employees were eligible to participate upon hire. Non-resident aliens, union employees, and leased employees are excluded from Plan participation. Additionally, effective March 31, 2012, the Plan's entry dates was changed to monthly instead of the previous entry date which was the date of hire.

A Plan Committee ("the Committee") manages the operation and administration of the Plan, including the appropriateness of the Plan's investment offerings and investment performance. Effective March 31, 2012, the Company contracted with Transamerica Life Insurance Company ("Transamerica"), to act as custodian. A Company officer became Plan Trustee. Through April 2, 2012, State Street Bank and Trust Company ("State Street"), was the trustee and custodian. The black-out period in connection with the change was from March 23, 2012 to April 23, 2012. The Company has contracted with a third-party record-keeper to process and maintain the records of participant data.

Contributions **-** Each year, participants may contribute up to the maximum statutory amount of eligible pre-tax annual compensation, as defined in the Plan agreement. Participants who are age 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum statutory amount. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may make choose to make a discretionary matching and/or discretionary profit sharing contributions to the Plan each year subject to certain eligibility requirements. In 2012, the Company matched 25% of a participant's contribution up to a maximum of 6% of compensation. The total employer match was approximately $57,000 for 2012 and was funded in July 2013. No Company discretionary profit sharing contribution was made for 2012.

Participant Accounts **-** Each participant's account is credited or charged with the participant's contribution, the Company's discretionary matching contribution, the Company's discretionary profit sharing contribution (if any), Plan earnings or losses, and Plan expenses as applicable to the Plan. Allocations of the Company's discretionary profit sharing contribution are based on participant compensation. Plan earnings and losses are credited or charged to participant accounts based on participant investment choices. All contributions/investments are participant directed. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Certain fees are charged by the custodian and included in investment income and losses and charged to participant accounts. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting **-** Participants are immediately vested in their contributions and rollover amounts plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. Effective March 31, 2012, the definition of a year of service for vesting purposes was changed to 12 months of service during the calendar year ending within the Plan year. Prior to March 31, 2012, to earn a year of service the participant must be credited with at least 1,000 hours of service during a Plan year. Participants vest at the rate of 25% after the first year of credited service and are fully vested after four years of credited service. Participants fully vest upon death, permanent disability, and normal retirement or Plan termination.

Notes Receivable from Participants **-** Participants may borrow from their fund accounts a minimum of $500 up to a maximum of $50,000 or 50% of their account balance, whichever is less. Participants may only have one note outstanding at any time. The notes are secured by the balance in the participant's account and bear interest at rates, which are commensurate with local prevailing rates as determined by the Plan Administrator. Outstanding notes at December 31, 2012 and 2011 carry an interest rate of 4.25%. Principal and interest is paid ratably through payroll deductions. Notes must be repaid in five years, unless used for the financing of a principal residence in which case the periodic repayment period may be longer. The Plan Administrator establishes the specific terms and conditions of such notes.

Payment of Benefits **-** Distributions from the Plan may only be made after specific events have occurred. Participants are eligible for a distribution upon termination of employment, death, retirement, and disability and are paid in accordance with Plan provisions. Subject to meeting certain conditions,

participants may be eligible to receive distributions from their pre-tax salary deferral account balance in the case of financial hardship. Participants are eligible to receive in-service distributions upon attaining age $59^{1/2}$. Effective March 31, 2012, the Plan allows for automatic rollover of terminated participant balances between $1,000 to $5,000 to an IRA Rollover account.

Forfeited Accounts - Forfeitures can be used to pay Plan expenses or reduce employer contributions. The forfeiture employer matching account balance was approximately $39,000 and $53,000 at December 31, 2012 and 2011, respectively. Approximately $49,500 of forfeitures were utilized in 2012 to pay the prior year (2011) employer contributions. Forfeitures used to pay Plan expenses amounted to approximately $10,000 for year 2012.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting **-** The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates **-** The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition **-** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policies utilizing information provided by Transamerica & State Street. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants **-** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make note repayments

and the Plan Administrator deems the participant note to be in default, the participant note balance is reduced and a benefit payment is recorded.

Excess Contributions Payable **-** Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. As of December 31, 2012 and 2011, there were no material excess contributions payable.

Plan Expenses - In 2012, plan audit expenses and certain third-party administrator fees were paid by the Plan. Distribution and participant note fees are paid by the participant.

Payment of Benefits **-** Benefits are recorded when paid.

Subsequent Events **-** The Plan has evaluated subsequent events through September 30, 2013, the date the financial statements were available to be issued.

NOTE 3 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 - CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), information certified by Transamerica as of December 31, 2012, and for the period March 31, 2012 to December 31, 2012, and by State Street as of December 31, 2011, and for the period January 1, 2012 to March 30, 2012, regarding the current value of assets held at December 31, 2012 and 2011 and transactions entered into during the year ended December 31, 2012, was used in the preparation of the accompanying financial statements and supplemental schedule. NOTE 5 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts: Valued on a unitized share basis based on the value of the underlying publicly traded investments in the pooled account.

Stable Value Fund: Valued at contract value (which approximates fair value). Assets in the Stable Value fund are commingled with assets in Transamerica's general account, and there is no specific portfolio of assets in which the fund invests. These fund assets are valued on a cash equivalency basis.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust fund (Invesco Stable Asset Fund): The fund is reported at fair and contract value by State Street. A majority of the assets in the Collective Trust (in which this Plan invests) are synthetic guaranteed investment contracts ("synthetic GICs"). Synthetic GICs are portfolios of securities (debt securities or units of collective trusts) owned by the Trust with wrap contracts associated with the portfolios. The fair value of wrap contracts is determined based on issuer ratings determined by reference to credit ratings published by rating agencies and on the change in the present value of each contract's replacement cost. The Trust's investments contracts are carried at contract value. Investment contracts have elements of risk due to lack of a secondary market and resale restrictions resulting in the inability of the Trust to sell a contract. In addition, investment contracts may be subject to credit risk based on the ability of the wrapper providers to meet their obligations under the terms of the contract.

Collective Investment/trust fund (SSGA S&P 500 Index Fund): Valued on a unitized share basis based on the value of the underlying publicly traded investments in the fund, which is generally determined as the amount that could reasonably be expected to be realized from an orderly disposition of securities and other financial instruments over a reasonable period of time.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

NOTE 6 – BENEFIT RESPONSIVE CONTRACTS

STABLE VALUE FUND

The Transamerica Stable Value Compass Option is a stable value fund valued at contract value as reported by Transamerica. Stable value funds held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. Contract value approximates fair value as of December 31, 2012. The fund is fully benefit-responsive. The crediting rate is 0.50% as of December 31, 2012. The average crediting rate was 0.57% for 2012. The average yield to the Plan and the average yield credited to participants was 0.57% for 2012. The effective credited interest rate is set monthly and effective on the first day of the month.

COLLECTIVE INVESTMENT/TRUST FUNDS

Effective March 31, 2012, the SSGA S&P 500 Index fund was mapped to the Transamerica Partners Stock Index Ret Opt and the Invesco Stable Asset fund was mapped to the Transamerica Stable Value Compass Option with the change in custodian.

The SSGA S&P 500 Index and Invesco Stable Asset fund are collective investment/trust funds valued at contract value as reported by State Street. Collective investment/trust funds held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment/trust funds. The funds are fully benefit-responsive. For the SSGA S&P 500 Index fund contract value approximates fair value as of December 31, 2011. For the Invesco Stable Asset fund the adjustment from fair to contract value is reflected on the statement of net assets available for benefits as of December 31, 2011.

The average yield to the Plan and the average yield to participants for the SSGA S&P 500 Index fund was approximately 12% for the first three months of 2012 and -0.25% for 2011. There is no crediting rate for this fund. For the Invesco Stable Asset fund, the average yield to the Plan and the average yield to participants were approximately 0.20% for the first three months of 2012 and 0.63% for 2011. The average crediting rate for the fund was approximately

1.62% and 1.72% for 2012 and 2011 respectively. Crediting income to the funds is based on the Plan's contract with State Street.

NOTE 7 - PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or terminate the Plan at any time, subject to the provisions of ERISA.

NOTE 8 - PARTY-IN-INTEREST AND RELATED PARTY TRANSACTIONS

Plan investments are managed by the custodians and are considered party-in-interest transactions under ERISA regulations. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 9 - TAX STATUS

The Plan has adopted a prototype plan, which has received an opinion letter dated September 14, 2011 from the IRS. The Plan has been amended since, however, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities and government agencies. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years for which the applicable statutes of limitations have expired.
