1. Description of Plan

The following brief description of the Atrium Companies, Inc. 401(k) Plan (the “Plan”) is provided as general information only. Participants should refer to the Plan document for a more comprehensive description of the Plan’s provisions.

General

The Plan is a defined contribution plan available to all employees of Atrium Companies, Inc. and its affiliates (the “Company”), except those employed by the New Boston or Palestine locations or covered by a collective bargaining agreement, who have reached 21 years of age and completed three months of service. Employees are automatically enrolled in the Plan upon meeting the eligibility criteria at a default pre-tax deferral rate of 1%. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective January 1, 2012, the plan was amended and restated, and a new trustee, administrator, and custodian of the Plan was appointed. The Plan’s assets were liquidated on December 30, 2011 and transferred to the new trustee and custodian on January 3, 2012. As such, as of December 31, 2011, the Plan’s assets primarily consisted of \$35,651,877 in cash and cash equivalents and \$1,643,717 in notes receivable from participants.

Contributions

Participants may contribute up to 100 percent of their annual pretax compensation to the Plan, subject to Internal Revenue Service (“IRS”) limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company, at the discretion of its Board of Directors, may contribute to the Plan a percentage of each participant’s before tax contribution (limited to 4 percent of the participant’s compensation, as defined) and may also contribute an additional amount to be credited to all participants in the same proportion of each participant’s salary to the total salary of all participants. The Company’s percentage contributions are credited to the accounts of participants at the same time as the participant’s before-tax contributions. Additional Company contributions are credited to the accounts of participants who are employed by the Company on December 31 of the Plan year. No Company contributions were made for the year ended December 31, 2012.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, allocations of Plan earnings and the participant’s allocation of any Company contributions. Participant accounts are also charged with an allocation of certain administrative expenses. Contributions and earnings are allocated among investment options as selected by the participant.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2012 and 2011

1. Description of Plan (continued)**Vesting**

Participants are immediately vested in their deferral contributions plus actual earnings thereon. The Company matching contributions, earnings thereon, and any additional discretionary Company contributions vest over a five-year period based on years of service as follows:

<u>Completed Years of Vesting Service</u>	<u>Vesting Percentage</u>
1	20%
2	40%
3	60%
4	80%
5	100%

Forfeitures

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeited balances of terminated participants' non-vested accounts may be used to reduce future administrative expenses or Company contributions. At December 31, 2012 and 2011, unallocated forfeited non-vested accounts totaling \$146,061 and \$151,658, respectively, were available to offset future administrative expenses or Company contributions.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50 percent of their vested account balance. Loans are collateralized by the participant's account balance and bear interest at a fixed rate based on the prevailing rate on the date of funding. Principal repayments and the interest on outstanding balances are deducted ratably from the participant's pay. Participants may not have more than one loan outstanding at a time.

Payments of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account, in either a lump sum or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, subject to minimum balance distribution requirements. A participant may withdraw part of the vested interest in his or her account upon attainment of age 59 1/2, subject to Plan provisions.

2. Summary of Significant Accounting Policies**Basis of Accounting**

The financial statements of the Plan are prepared under the accrual method of accounting.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2012 and 2011

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments in mutual funds are stated at fair value based on quoted market prices on the last trading day of the Plan year. The investments in the guaranteed interest account are presented at fair value as well as the adjustment from fair value to contract value. Contract value is the amount participants would receive when initiating permitted transactions involving the guaranteed interest account. The contract value represents contributions plus credited interest less participant's withdrawals and fees.

The Plan presents, in the Statement of Changes in Net Assets Available for Plan Benefits, the net appreciation in the fair value of investments, which consists of the realized and unrealized gains or losses on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Notes Receivable from Participants

Notes receivable from participants represent loans and are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recognized on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2012 and 2011.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in appreciation of fair value of investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various options in any combination of specified investments. The underlying investments may include stocks, bonds, fixed income securities, mutual funds and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Subsequent Events

Subsequent events have been evaluated through the date of the independent auditors' report, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in the financial statements.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2012 and 2011

3. Investments

The fair value of investments that represent 5 percent or more of the Plan's net assets available for benefits as of December 31, 2012 and 2011 are summarized as follows:

	2012	2011
Cash and Cash Equivalents	\$ 146,072 *	\$ 35,651,877

Investment in Diversified Stable Pooled Fund

The Diversified Stable Pooled Fund (the "Fund") is a stable value fund that is a common collective trust designed for retirement trusts to earn a high level of return, consistent with and providing for stability of investment returns, preservation of capital, liquidity to pay plan benefits, high credit quality, and reasonable tracking of interest rates. The Fund invests in the Wells Fargo Stable Return Fund G ("Wells Fargo") Wells Fargo is a bank collective trust sponsored by Wells Fargo & Company and sub-advised by Galliard Capital Management, Inc. Wells Fargo primarily invests in investment contracts, including guaranteed investment contracts (GICs) and security-backed contracts issued by insurance companies and other financial institutions.

GICs are backed by the general account of the contract issuer. Wells Fargo deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified period. Interest is accrued on either a simple or fully compounded basis, and is paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will be at contract value (principal plus accrued interest).

A security-backed contract is an investment contract issued by an insurance company or other financial institution, backed by a portfolio of bonds. The bond portfolio is either owned directly by Wells Fargo or owned by the contract issuer and segregated in a separate account for the benefit of Wells Fargo. Security-backed contracts are considered either "targeted benchmark" (underlying investments are managed to a specific benchmark) or "targeted duration" (underlying investments are managed to a specific duration). The portfolio underlying the contract is maintained separately from the contract issuer's general assets, usually by the third party custodian. The interest crediting rate of a security-backed contract is based on the contract value, fair value, duration, and yield to maturity of the underlying portfolio. These contracts typically allow for realized and unrealized gains and losses on the underlying assets to be amortized, usually over the duration of the underlying investments, through adjustments to the future interest crediting rate, rather than reflected immediately in the net assets of Wells Fargo. The issuer guarantees that all qualified participant withdrawals will be at contract value.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2012 and 2011

3. Investments (continued)

Investment in Diversified Stable Pooled Fund (continued)

Wells Fargo enters into participating or hybrid contracts. In a participating contract, the contract holder participates in asset and liability risks. Therefore, these risks transfer from the contract issuer to Wells Fargo. However, in the case of a full liquidation event, the issuer is responsible for covering any amount by which the contract value exceeds the fair value of the underlying portfolio. A hybrid contract is a combination of participating and non-participating contracts. In a non-participating contract, the contract holder does not participate in asset and liability risks. Typically, hybrid contracts are 20% participating and 80% non-participating, and each component is reset over a 12-month cycle. Hybrid contracts generally have a higher contract fee compared to participating contracts.

Risks arise when entering into any investment contract due to the potential inability of the issuer to meet the terms of the contract. In addition, security-backed contracts have the risk of default or the lack of liquidity of the underlying portfolio assets. The credit risk of each issuer is evaluated and monitored through credit analysis. The credit analysis includes, but is not limited to, asset quality and liquidity, management quality, surplus adequacy and profitability. Wells Fargo requires that each investment contract, and subsequently the issuers of each contract, have at least an "A" rating as of the contract effective date, and that all underlying portfolio assets be rated investment grade at the time of purchase.

During the year ended December 31, 2012, the Fund earned 1.95%.

Net Change in Fair Value

During 2012, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by \$3,527,397 as follows:

	2012
Net appreciation in mutual fund accounts	\$ 3,511,301
Net appreciation in the common collective trust	16,096

Information Certified by the Custodian (unaudited)

The Company elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in the accompanying financial statements and supplemental schedule has been certified by State Street Bank and Trust Company in 2012, and Principal Life Insurance Company in 2012, the respective custodians, as being complete and accurate:

4. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2012 and 2011

4. Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: The fair value of mutual funds is determined by quoted market prices on nationally recognized securities exchanges which represent the net asset value of shares held by the Plan at year end.

Collective investment trust: All investments in securities are recorded at their estimated fair value. The Fund values its investments at the close of the New York Stock Exchange ("NYSE") for each day the NYSE is open for business. The Fund utilizes various methods to measure the fair value of its investments on a recurring basis. The value of the Fund's investments in Wells Fargo is valued at the net asset value per unit of Wells Fargo as determined at the close of the NYSE each day. Open-end investment companies are valued at such investment company's current day closing net asset value per share and may be redeemed daily. These securities are actively traded and no valuation adjustments are applied.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

5. Party-In-Interest

Plan investments include shares of the Diversified Stable Pooled Fund managed by Diversified Retirement Corporation. Diversified Retirement Corporation is the third-party administrator, as defined by the Plan, and therefore, these investments qualify as party-in-interest investments.

6. Plan Termination

The Plan has been established with the intention that it will continue and be a permanent plan. However, although it has not expressed any intent to do so, the Company has the right under the Plan to terminate it at any time, subject to the provisions of ERISA. In the event the Plan terminates, participants would become fully vested in their account balances.

7. Tax Status

The Plan uses a prototype plan document sponsored by Diversified. Diversified received a favorable determination letter dated March 31, 2008, from the Internal Revenue Service (“IRS”) stating that the prototype plan document satisfies the applicable provisions of the Internal Revenue Code (“IRC”). The Plan itself has not received a determination letter from the IRS. However, Plan management believes the Plan, as adopted and amended, is operating within the guidelines of the IRC. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2012 and 2011

7. Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.
